The teachers and pupils return their sincere thanks to the citizens for their liberal patronage and to all who contributed by personal services and otherwise to make the entertainment a success.

Arrangements were made for a People's party talker to come here on Saturday last. Saturday came and so did the speaker Mr. Waldrop. The audience did not show up and he left on the 8 o'clock train.

John Dunphy, engineer on the McMinnville express, has served the company long and faithfully and is reported that he will retire from the cab during the summer for good and all.

It has been conjectured that the secret of antediluvian longevity was some method of keeping the blood pure, warm and vigorous. Modern science has the same purpose by using Ayer's Sarsaparilla—the best blood medicine ever brought to light.

That large box of new fangled boots for horses at Edna Wright's is attracting much attention from horsemen. Heretofore it has been necessary to send to Portland or the east when the best was wanted. The enterprise of Mr. Wright makes it unnecessary now.

# THE SCHOOL ENTERTAINMENT.

The Best Entertainment Given in the City by the Scholars of the Public School.

Friday evening the people began to assemble at the opera house very early. The cause of it all was an entertainment given by the scholars of the public school for the benefit of the library fund. It was estimated that at least 600 persons were in the opera house. Of course all there could not be seated and a large number were turned away for lack of standing room. The box office receipts were \$111.00 and the net proceeds will be in the neighborhood of \$80. The program was well rendered and the pupils of the school deserve great praise for the work they did in rendering it. The teachers and the parents of the pupils should receive thanks for the result of the training and costumes. A minute account of the affair could not be given in the limited space we have and a partial one would be unfair and unsatisfactory to the participants. We wish, however, to state that it is considered, by all who attended, so far as we can find, to be the best entertainment of the kind given in the city for years.

**A VALUABLE FIND.**  
The Key to the Water Power at Oregon City Found by J. W. Draper.

"The luckiest man in Oregon," said a man to a reporter yesterday in speaking of J. W. Draper, the young Oregon City attorney, who has been in the city several days on business at the state land office. While in the Oregon City land office Mr. Draper learned that "Rock Island," the gigantic mass of rock in the middle of the Willamette river at Oregon City, belonged to the government and the state, and that by paying the usual price for such lands he could secure the key to the valuable water power at Oregon City.

Last September, when Dr. Draper applied in the state land office for part of the island, but at that time the state's claim on it could not be proven and the matter was dropped until this week when Mr. Draper went to Salem with abundant proof that the state still owned 7.63 acres, being the upper part of the island. The matter was investigated by the state land board and it was learned that was supposed to be a portion of a donation land claim was in reality school land. Mr. Draper's application being the first one made, was accepted and he got a deed to the upper end of the island for about \$10.

The remainder of the island, and the most valuable part of it, was found to be government land, and as such Mr. Draper filed on it in the proper manner, and by paying \$125 per acre for the remaining 23.9 acres he will have secured the whole of Rock Island and will virtually have control of the valuable water rights at the Oregon City falls, which are estimated to be worth between \$800,000 and \$1,000,000.

Franklin Miles, the eminent Indiana specialist, claims that heart disease is curable, and proves it by thousands of testimonials of cures by his New Heart Cure, it attracts the attention of the millions suffering with short breath, palpitation, irregular pulse, choking sensation, asthmatic breathing pain or tenderness in side or shoulder, smothering spells, fainting, dizziness, etc. A. P. Davis, Silver Creek, Neb., writes: "I used four bottles of Dr. Miles' New Heart Cure, was completely cured after twelve years' suffering from a heart disease. This new remedy is sold by Rogers Bros. Books free."

The readers of this paper will be pleased to learn that there is at least one cure for disease that science has been able to cure. This is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHERRY & Co., Toledo, O.

Sold by all druggists, etc.

# THE STALLION SHOW.

THE ANNUAL REVIEW OF THE HORSE INDUSTRY.

Jacks and Jennies Furnish Missouri Opera, Clydesdales and Percherons in Large Size and Number.

The stallion show held in this city on Thursday of last week while not the largest held in this city, made up in quality for the loss in quantity. It was almost entirely confined to the display of draft and road animals. But one trotter of distinct speed breeding was upon the grounds. During the past few years the stock in this county has increased greatly in blood and the farmers are largely breeding to Percherons.

It was but a short time ago that it was thought that the last named horse was not a good animal for this section, but experiment with them has demonstrated that they are the equal if not the superior of any other class of draft animal.
