The new school house is the best looking building in the city, and it will be filled with pretty children and handsome "school marm's." The team owned by Both & Hibbs ran away Tuesday morning and the wagon attached was broken to pieces. A new wagon was purchased.

If you desire a luxuriant growth of healthy hair of a natural color, nature's crowning ornament of both sexes, use only Hall's Vegetable Sillian Hair Restorer. Rev. J. W. Shreve will hold a basket meeting at the Gaunt's bridge camp ground, Sunday, Sept. 4. Services at 11 a. m. Everybody cordially invited.

Chas. McKinley and Wm. Henderson returned from the coast Sunday. They are fat and from a knowledge of their appetites we think that the elms-beds of Netarts are depopulated. The pile driver owned by the county is now at work at the water plant placing piles in the bank near the ways to save the pumps from the yearly cave-in during the high water.

The planet Venus has been visible during the day time for the past week. This is not a phenomena but is made possible by the wonderfully clear atmosphere of this delightful section of country. A. J. Apperson calls attention to his fall opening of ladies dress goods in this issue. The ladies will remember the pleasant time enjoyed at the last one and will not do wait anxiously for the day to come.

The room occupied by the saloon in the hotel is used as a sample room. Wm. Logan has opened a new barber shop and bath room. It is fitted up with all the modern conveniences, is commodious and well furnished. He has a separate bathroom for ladies and makes the shampooing of ladies' hair a specialty.

A. B. Seal, the best known traveling man in the state, will leave the road and take a position in the house of A. Selling & Co., of San Francisco. You will find them convenient, efficacious, and safe. The best remedy for constiveness, indigestion and sick headache, and adapted to any climate. Delos Underwood, while holding a wedge under a log in Jones & Adams mill, was hit by a splinter from the wedge as the log turned and his under lip was cut nearly off. One of the mill hands sewed it up and Delos is at work again. If the ladies would abandon cosmetics and more generally keep their blood pure and vigorous by the use of Ayer's Sarsaparilla, naturally fair complexions would be the rule instead of the exception, as at present. Pure blood is the best beautifier. The threshing machines of this county will be through with their work within two weeks. Some have stopped work already. The crop, after all the bad reports, turns out to be as good as the one of last year and it was said to be the largest in the history of the state. Merryman, assistant cashier of the First National bank of Kingsley, Kansas, and Rev. S. E. Bussler, of Dodge City, Kansas, called upon J. B. Sellers of this city Tuesday. They are Knights Templar and journeyed west after the great meeting at Denver. They, like everyone else, were greatly surprised at the country. The entertainment given by the Christian Endeavor society, at the opera house on Friday night of last week, is a glowing example of what careful rehearsals can do. Everyone taking part distinguished themselves and the program moved along without a hitch. The entertainment was as well attended as it might have been had there been fewer attractions in the city. The ladies who originated the concert deserve considerable credit for the evening's entertainment.

THE MC MINNVILLE COLLEGE. Courses Especially Adapted to the Needs of Western Students. Two weeks from today, on September 6th, the college will open for another year of work. The steady growth for the last few years and the especially successful year last year leads to the conclusion that the coming year will be still more successful. We shall have the same teaching force as the last two years, only that their experience will enable them to do still better work than heretofore. The changes that were made in the courses of study seem to meet with general favor, so far as I have heard these changes will enable the teachers to be still more thorough in their work; and thoroughness is the first requisite in a good school. As the courses of study now are, students who have fairly mastered the common branches can enter directly into the collegiate department. In that department there are three courses of four years each and a business course of two years. These courses have been prepared with great care after studying thoroughly a large number of catalogues, and are believed to be especially adapted to the needs of those who are able to spend two, three or four years in college. If anyone who reads these lines has not received the last catalogue send me your name on a postal card and I will be glad to send you one. I will also be glad to answer any questions by letter.

THE MC MINNVILLE COLLEGE. Strength and Health. If you are not feeling strong and healthy, try Electric Bitters. It is a Gripper's has left you weak and weary, use Electric Bitters. Johnson and J. L. Stewart appointed appraisers. Guardianship of Max Stewart; Jas. T. Stewart appointed guardian; bonds fixed at \$1000 and approved. Guardianship of Edna Kenyon; inventory approved.

Old People. J. V. S. is the only Sarsaparilla that old or feeble people should take, as the mineral potash which is in every other Sarsaparilla that is known of, is under certain conditions known to be emulating. J. V. S. on the contrary is purely vegetable and stimulates digestion and creates new blood, the very thing for old, delicate or broken down people. It builds them up and prolongs their lives. A case in point: Mrs. Belden an estimable and elderly lady of 610 Mason St., S. F. was for months declining so rapidly as to seriously alarm her family. It got so bad that she was finally afflicted with fainting spells. She writes: "While in that dangerous condition I saw some of the testimonials concerning J. V. S. and sent for a bottle. That marked the turning point. I regained my lost flesh and strength and have not felt so well in years." That was two years ago and Mrs. Belden is well and hearty to-day, and still taking J. V. S. If you are old or feeble and want to be built up, ask for Joy's Vegetable Sarsaparilla. Most modern, most effective, largest bottle same price, \$1.00, six for \$5.00. SOLD BY ROGERS BROS.

As the courses of study now are, students who have fairly mastered the common branches can enter directly into the collegiate department. In that department there are three courses of four years each and a business course of two years. These courses have been prepared with great care after studying thoroughly a large number of catalogues, and are believed to be especially adapted to the needs of those who are able to spend two, three or four years in college. If anyone who reads these lines has not received the last catalogue send me your name on a postal card and I will be glad to send you one. I will also be glad to answer any questions by letter.

We shall have the same teaching force as the last two years, only that their experience will enable them to do still better work than heretofore. The changes that were made in the courses of study seem to meet with general favor, so far as I have heard these changes will enable the teachers to be still more thorough in their work; and thoroughness is the first requisite in a good school.
