CURIOSITY.
A Well-Pouring Forth Air Under Great Pressure.
The well at Mr. Tyler's place is down 126 feet and is still in mind although plenty of water has been found. The well is being cased up to keep out the surface water, when the well will be put down deeper. There seems to be a pressure of some kind in the well now either gas, or air which was struck after a little work with the drill after the casing was put in Wednesday. The pressure is estimated to be 100 pounds to the square inch when confined as it will easily escape after a few minutes with a man standing on the casing. Nothing of this kind has ever been encountered in this section and its visitors are numerous. Mr. Harvey thinks that the water will follow the escape of the air. If it does it will be in quantities.

Public School Notes.
The public schools of this city opened Monday morning, the attendance comparing well with former years on opening day. The attendance to date, by rooms, is as follows: Principal's room, 28; first assistant's room, 20; second, 28; third, 42; fourth, 49; fifth, 58; total 225.
The corps of teachers consists of Prof. Geo. A. Peebles, principal; Miss Ella G. Woods, first assistant; Miss O. Peters, fourth grade; Miss Sarah Marks, third grade; Miss Jessie Johnson, second grade; Miss Nellie Grounds, first grade.
Many of the scholars of last year are out of school on account of hop picking. Parents should recollect that it is important that scholars should enter school at the beginning of the school year.

NEWS RETOLD.
Interesting Paragraphs From our County Exchanges.
[Newberg Graphic, Sept. 2.]
O. V. Allen has disposed of his west side livery barn to the Yamhill Land Co.
Uncle Joseph Hoskins attempted to walk up an inclined board at the end of the platform at Whitmore's feed store Wednesday, when he fell, sustaining several severe sprains and bruises.
If any man needs evidence of the profitableness of fruit raising in Oregon he need only see Rev. E. S. Craven's prune orchard, which this year is bringing him \$3000 or more per acre from eight year old trees.
Wapato lake, which has furnished shooting for our nimrods from time way back, is being drained, and will be put in cultivation. It is said to contain about eight hundred acres of as fine beaver dam land as there is in the state.
E. H. Woodward bought a light completed last with a splendid load of brick it started Monday over the Northern Pacific for Oskaloosa, Iowa, where he goes as a delegate to the yearly meeting of Friends church. He expects to be absent about three weeks.
Postmaster A. T. Hill received word from headquarters at Portland Thursday announcing that the petition of our people for a second daily mail exchange between Portland and Newberg has been granted to take effect today. Only mail going to Portland and Multnomah county will go on the morning train.

[North Yamhill Leader, April 2.]
Three teams are now engaged in hauling gravel for the streets.
Miller Bros. have furnished stoves and other fixtures for twenty-three new hop houses this season.
Frank Hauswirth purchased the Buckingham business property in this city, at sheriff's sale last Saturday.
John Martin, a man quite well known in this vicinity was arrested in this city Tuesday by a deputy sheriff of McMinnville, on a warrant from Hillsboro, where he is wanted for horse stealing.
Mr. Robert M. Miller, of Abernethy, Dauden, Scotland, arrived in this city Monday, and is visiting old friends in making the trip. Mr. Miller was a resident of this vicinity for several years, and has a host of friends who are glad to see him back again. He says that he sees great changes in the country during the ten years.
[Dayton Herald Sept. 24.]
The town water works, like many people, appear to be mourning over days of old, the way it means and grows.
The work of cleaning out snags and obstructions in navigation between Dayton and McMinnville, will be commenced in about 10 days.
M. B. Hendrix, the warehouse man at Wheatland, informs us that he is taking in large quantities of wheat at his warehouse this season. He says that he will take in as much wheat as will be taken in at the warehouses at Dayton. We are inclined to think that if he does he will have to rustle lively. He estimates that he will receive during the season, about 100,000 bushels of wheat.

Yamhill is still in the lead. Sherman Crawford and S. McManey, who own Mrs. Elizabeth Crawford's farm in the hills near Hopewell, rented, raised the best crop to the number of acres, heard from. Off 175 acres they got 6,300 bushels of wheat. This is the best crop ever raised on this place. L. Townsend who has a place adjoining Mrs. Crawford's farm, raised 6,400 bushels on 190 acres.
The threshing machine of Wm. Henry Fletcher [who lives near McMinnville—a Case Agitator—in 15 1/2 days run averaged 2000 bushels of grain per day—mostly wheat. In one day they threshed 2700 bushels the greater part wheat. In that the machine was set twice and moved one mile each time. The engineer, John Williams, offers to wager \$100 that in one minute from the time the drive belt is thrown off, that they will be hitched on to the separator and have the machine running. There are 27 men in the crew and every one will forfeit their wages that this can be done. F. A. Berning who has been managing the cook wagon says that it can be done every time.

Another Railway Scheme.
In the office of the secretary of state W. T. Shortell, Otto Meesman, J. S. Montgomery, Michael Flynn, John L. Montgomery and F. K. Hubbard have filed articles of incorporation of the Falls City Lumber & Manufacturing Co., with a capital stock of \$5000. The object is to engage in a general lumbering and manufacturing business and to build and operate electric lights and telephone lines and tram, steam or electric railways from Falls City, Polk county, to Salem.

In just 24 hours J. V. S. relieves constipation and sick headaches. After it gets the system under control an occasional dose prevents return. We refer by permission to W. H. Marshall, Truck Wick House, & F. Geo. A. Werner, 521 California St., S. F.; Mrs. C. Melvin, 128 Kearny St., S. F., and many others who have found relief from constipation and sick headaches. G. W. Vincent, of Terrace Court, S. F. writes: "I am 60 years of age and have been troubled with constipation 15 years. I was recently induced to try Joy's Vegetable Sarsaparilla. I recognized it at once as a herb that the Mexicans used to give us in the early 50's for bowel troubles. I came to California in 1882, and I knew it would help me and it has. For the first time in years I can sleep well and my system is regular and in splendid condition. The old Mexican herbs in this remedy are a certain cure in constipation and bowel troubles." Ask for

CROP-WEATHER BULLETIN.
For Week Ending Tuesday, Sept. 6 1922.
U. S. Signal Service.
WESTERN OREGON.
There has been very little change in the weather conditions of the past seven days as compared with the preceding week. If anything the temperature was slightly below the average especially on the last two days of the week, viz., the 3d, and 4th. On the latter date the first white frost of the season occurred in exposed localities of Douglas county, injuring tender vegetation to some extent. In some sections the days were very warm, but were always followed by cool nights.
The partial drought of the past few weeks has remained unbroken till the 4th, but at this writing light rains are falling through western Oregon.
The grain crop has all been threshed by this time.
Hop picking is now in full blast in most places. Polk county farmers report that in yards sprayed with whale oil soap the lice don't very little damage.
Corn in a few localities seems to have received a set back from the cool nights. Brownsville folks claim that the largest crop of corn ever raised in the Willamette valley will be gathered this year. Reports from other sections are not so encouraging by any means. The onion crop is now being pulled. The general impression seems to point to a short crop.
Fall apples and pears are ripening. Potatoes must be carefully scoured this year when the same are selling at three cents a pound in some counties.
The consensus of the weekly reports from correspondents in this section is: "Fine weather for harvesting purposes and general farm work." There has been no rainfall at all during the week, but the indications are for a few scattered showers before long and they would be very welcome just at present. Potatoes would receive much benefit therefrom, but that they would clear up the smoke and dust floating in the air and would perhaps improve the ranges.
The temperatures have not been so high this week; the extremes have ranged from 35 to 89 degrees. A light frost is reported from Union county on the 4th, it did hardly any damage at all.
Threshing operations continue in full activity. In portions of Grant county the wheat crop is expected to turn out almost as good as the average crop. Haying has been going on steadily; there is an abundance of it this year. Stock is looking very well. "Potatoes are decidedly scarce" is the cry now heard everywhere except in Malheur county. Our Gilliam county correspondent writes that there is hardly a bushel of merchantable tubers in his district to-day.
Ons are being harvested in Sherman county, and the yield will be fairly good.
Fruit is reported as ripening fast; apples especially. These are remarkably free from insects this season.
