Office at McMinnville Pharmacy. All diseases and ailments of the domestic animals treated day or night.

## JUDGE NELSON'S DECISION.

Speaking of patent medicines, the judge says: "I wish to deal fairly and honorably with all, and when I find an article that will do what it is recommended to do, I am not ashamed to say so. I am acquainted with Dr. Vanderpool (having been treated by him for cancer), and have used his blood medicine, known as the S. B. Headache and Liver cure, and while I am seventy-five years old, and have used many pills and other remedies for the blood, liver and kidneys, I must say that for a kidney tonic in Bright's disease, as an alternative for the blood, or to correct the action of the stomach and bowels it is a very superior remedy, and beats anything I ever tried.

J. B. NELSON, Yakima, Wash. At 25 cents a bottle, it is the poor man's friend and family doctor.

## THE COMMERCIAL STABLE!

Gates & Henry, Props.  
McMinnville, Oregon.

Livery, Feed and Sale! Everything New And Firstclass.

Special Accommodations for Commercial Travellers.  
Corner Second and E Streets, one block from Cooks hotel.

## A MEDLEY OF MARVELS.

THE BIGGEST, SMALLEST, OLDEST, ODDEST, THINGS.

The Tiniest Human Being and the Largest Bible—A Barber of Four and a Doctor of Five—The Finest of Nations.

The smallest fully developed woman in the world and certainly beyond a doubt in the United States is Miss Ellen Tickle of Heno Postoffice, Butler county, Ohio. She is twenty-eight inches tall, twenty-nine years of age and weighs thirty-six pounds. She grew like other children until she reached the age of three. She is symmetrical and has been healthy and strong all her life.

The smallest sea island on record is 9 feet across, and is reported by Captain John Richards of the British ship Cambrian Monarch to have been sighted by him in latitude 29 degrees 2 minutes north, longitude 137 degrees 59 minutes west. The sea was smooth around it, and it was clearly an island, tapering upward in a pyramidal shape from below the surface of the water.

The smallest writing of recent date and authentic record was done by W. Frank Hunter of Topeka, Kan. He wrote with a pen 6,201 words on the back of a postal card, transcribing the fifth, sixth, seventh, eighth, ninth and part of the tenth chapter of St. John. Since the publication of Mr. Hunter's accomplishment, the statement has been made that Walter S. McPhail of Holyoke, Mass., wrote with a pen 10,283 words on a postal card, comprising the chapters of John from the ninth to the twentieth, inclusive.

Mrs. G. M. Rodman of St. Louis is the youngest great-grandmother of recent record. At the age of fifty-two a daughter was born to her grandchild, Mrs. A. N. Fane of Kansas City, who was at that time sixteen years of age.

R. M. T. Hunter of Virginia, elected in 1839 at the age of thirty, was the youngest Speaker of Congress. Jack was thirty-four when chosen to preside over the House in 1811.

The "Vest Pocket Railroad" runs from Keuka lake to Bath, N. Y., eight miles, on a three-foot gauge.

Robert Philson of Berlin, Pa., is the "smallest hanker," and has a four-year-old child as big as he.

Robert H. Huzzo of Lawrence street, Brooklyn, thirty-three inches high, is the smallest man.

The smallest coal-burning locomotive, five feet long, was built by Charles D. Young, a Denver boy of fifteen. It weighs 255 pounds.

The smallest church in New York is the People's, in Harlem, a room over a drugstore.

The youngest Chief Justice on record is believed to have been Guy C. H. Corlies of New York, who in November, 1889, was elected Chief Justice of the supreme court of the new State of North Dakota. He was only thirty-one years of age, and had been a member of the bar of Dutchess county, New York. He is six feet high, broad shouldered and angular, and has intellectuality over 75,000 square miles of territory.

The youngest barler known to work in a shop was Nellie Wick, aged four, in the Globe toilet saloon, King's road, Chelsea, London. She shaved five men in twelve minutes, and received a silver medal for so doing.

Captain Fannie Bailey of the sloop Carrie of Greenport is the youngest girl skipper, being only seventeen years of age.

The youngest "doctor," in the world is an honorary member of the Southern Medical Society in Atlanta. He knows anatomy and goes to college, though only five years of age.

The first French newspaper, the Gazette de France, was started in 1631 by Theophrastus Renouard. He also established the first paper in "Pete."

The first book imported from Europe was brought over by John Sabin of Philadelphia.

The first railroad to use the steam locomotive regularly in this country was the South Carolina Railroad in 1831.

The first high hat ever worn was carried upon the head of a nobleman whose portrait appears among Albrecht Durer's marginal illustrations of the celebrated prayer-book of the Emperor Maximilian. In Just Ammann's "Book of Emblems," published in 1568, a high hat forms the crest of a nobleman.

The first world's fair or universal exposition was held in London in 1851 and the second in New York in 1853. The credit for the first world's fair is generally awarded to Albert, the Prince Consort of Queen Victoria. The first exposition in Paris was held in 1855 and 1867, the first in Vienna in 1873 and the first in Berlin in 1874.

The Egyptians had opera, and enjoyed them. The first use of the term "opera in music," which subsequently gave place to "opera," was in 1656, the first opera performed being the "Orpheus" of Peri.

Gutta-sera was first introduced into Europe from Malaga in 1842. The annual consumption now amounts to 4,000,000 pounds, and the East Indian trees which supply the demand are diminishing at an alarming rate.

Tea was first used as a beverage, so far as we can tell, in China 2000 B. C. Aljeziri Alkhanball says coffee was first made known as a beverage in 807 of the Hegira.

Gold was first discovered at Pike's Peak by a carpenter named Porsbury, in the year 1840. He had gone on a hunting excursion from Bardonia, Ky., and picked up a little crude gold near the headwaters of Platte river. A half century elapsed before the great Pike's Peak gold excitement.

The first "luffer" match was made by John Komerer in a German dungeon in Lindberg.

United States was put on the new coat house at Los Angeles, Cal., in 1891. The first "Stars and Stripes," or "Old Glory," was made by Betsy Ross in Philadelphia in a little brick house on Arch street, above Second.

The first cornet in England or America was blown by a Frenchman, name unknown, and the instrument has since for that reason been generally called the French horn.

The first cable railroad in the United States, and probably in the world, was a product of an Englishman's ingenuity and was built on Clay street, San Francisco. He saw the long wire cables, the story goes, which were used to haul ore up the inclines in the Comstock lode and conceived the idea of applying the same principle to the carrying of passengers on surface railroads.

The first patent in the United States was issued July 31, 1790, to Samuel Hopkins for making pot and soda ashes. Four hundred and thirty-three thousand four hundred and thirty-two patents were issued during the first 100 years of the patent office.

The first trial of a steamboat with a screw propeller, the invention of John Fitch, occurred in New York in 1790 on Collect pond, situated where the Tomlinson prison now stands.

The oldest Egyptian monuments show that the saw was in use at least 1,000 years before Christ.

The first street railroad in New York city was the New York and Harlem, which was chartered in 1823. It was a steam railroad at first, but being forbidden in 1825 to use steam below fourteenth street horse cars were then put on.

The song "The Star-Spangled Banner" was first sung in 1814, but the tune was the old one of "Anacron in Heaven."

The first orthodox Jew to be made a peer of England was Sir Nathaniel Meyer de Rothschild, who was created Baron Rothschild of Tring by Mr. Gladstone on July 9, 1885.

The first smoke consuming railroad locomotive ever built was turned out of the Chicago and Alton car shops at Bloomington, Ill., in October, 1881. Its inventor, A. B. Cuyler, says it not only consumes smoke, but economizes fuel.

The first double deck twin-screw ferry boat in use in the United States is the Cincinnati, which runs over the Pennsylvania railroad ferry from Jersey City to New York. She is 206 feet long, 40 feet wide, and makes 12 miles an hour.

The first electric railroad in Brazil has just been put in operation in the city of Bahia. It is a narrow gauge, one and a half miles long, and the whole plant and equipment were made in the United States and shipped bodily to Brazil.

The first twelve-inch gun ever made for the American navy was shipped from the Washington, D. C., gun foundry to the Monterey at San Francisco January 8, 1892.

The lowest barometric pressure on record is 27.135 inches, which was observed in 1853, during a small but intensely fierce storm over the bay of Bengal. A most remarkable feature about this tempest was its small size. Its diameter was only about 100 miles.

Vessels passing through it escaped with great difficulty owing to the strong central draught.

The most powerful naphtha spring on record was recently opened in Baku on the Taggiel grant. It continues at its original force it will be the richest naphtha fountain in the world.

Lake Baikal of Siberia is the deepest in the world. Its level is 1550 feet under the Pacific, its bottom 3000 feet under it.

Two men, not authors, nor yet publishers, nor even collectors, but plain, ordinary men sat in the Authors' club a few nights ago and exchanged information about books. It is doubtful if the authors, publishers and collectors there assembled would not have been surprised to hear what those two men said.

"Do you know," said one "what is the highest book in New York?" Well, it's the "Antiphonals" the high service in use at the great cathedral in Rouen, done in Latin and beautifully illustrated. It is three feet two inches long, by two feet thick, and is the biggest vellum book in existence. Where is it? In the Astor library, for which it was purchased from the book-seller, into whose hands it came when Charles X's abdication was attending Charles X's abdication."

"But I," said the other "have just seen the smallest book ever known to DeVinne's. Do you know what it is? A volume two inches long by one and one-half inches long and three-fourths of an inch thick, called 'DeVinne's Specimens of Minute Type.'"

"The oldest book in New York, perhaps the country, is the 'Sacred Book of Omens,' a Siamese MS. in Siamese paper, beautifully bound and illustrated. It is in the Astor library."

"Since you know so much—you who have no right to know anything about books, being not even a critic—tell me what book is the most read in this city and in the United States."

"Now you have me. The bible is undoubtedly the most widely circulated book in the world. I can't be said to have had the greatest sales because so many hundreds of thousands of bibles are given away by the American and English Bible societies. More than 1,000,000 copies of Uncle Tom's Cabin have been sold in this country, and as many more abroad. An American novel—in fact several of them—has had the greatest known sale of any book in the country, I believe. And you'll be surprised to hear that it is A. C. Hunter's 'Mr. Barnes of New York.'"

"Haven't you forgotten that General Grant's Memoirs which J. J. Little & Co. printed, had a sale of 25,000?" "I had for the moment. But that was a subscription book, sold by agents.

TRYING TO STAY THE FLOOD OF POPULAR DISPLEASURE.

## Mr. Barnes of New York.

also printed by Little, by the way, has been sold from the counter like any other merchandise, to the tune of \$80,000. Little himself told me today that the first editions of Gunters' 'Mr. Barnes of New York,' 'That Frenchman,' and 'Miss Nobody of Nowhere,' outran any first editions the publishing world has ever known.

"How about the sales of 'Looking Backward' and some of Mark Twain's books?"

"Well, I happen to know that no edition of Mark Twain's books has been sold from the counter like any other merchandise, to the tune of \$80,000. Little himself told me today that the first editions of Gunters' 'Mr. Barnes of New York,' 'That Frenchman,' and 'Miss Nobody of Nowhere,' outran any first editions the publishing world has ever known."

"Yes, it is true," said he, "that I have struck a big blow of vinegar in one of the prospect holes, and I consider it the greatest find ever made in the State, some are inclined to regard such a discovery as remarkable, but it really is not, when it is remembered that in Colorado a spring of delicious vegetable soup has been found, and in Iowa a mine of fair quality of soap."

Nothing is remarkable for Montana. The Indians have known the existence of the vinegar stream for years, and have used it as a beverage, and it has often been spoken of by them but never believed until I accidentally discovered it about a week ago. As soon as the facts were demonstrated I had no trouble in organizing the 'Beveridge Vinegar Mining Company,' and stocking the claim for \$100,000. The stock was all subscribed for at the first meeting, and there is none of it for sale. The well is at present down thirty-five feet and flows four inches of vinegar, equal in quality and flavor to the best product from apples. All of it is at present going to waste, but the company is making active preparations to put it up in barrels. If the flow continues, it is our intention to put in a bottling and pickling plant in the spring. The entire surrounding country has been taken up and will be turned into cucumber ranches next summer, and the vinegar will be used for pickling purposes. You will readily see, to the scheme, which is to pickle the cucumbers right on the vine. The company will also go into the stock-raising business and feed the product of our mine to the live animals, and thus raise pickled tripe and pigs' feet right on the hoof. It is bound to be a great thing, and there will be millions in it. We also expect to inaugurate a new method of making sauer kraut, by irrigating cabbage patches with vinegar. A strange but actual fact connected with the merits of our discovery is that it is a wonderful hair restorer, and I believe it would grow a crop on a billiard ball. We intend to bottle some and put it on the market for that purpose. Work on the mine is still going on, and if our last expectations are realized, pipe lines will be built to the leading cities of the state to supply the demand. It has been suggested that the product could be used for drinking and domestic purposes in Butte, and be a great improvement on the water supplied us in summer. The vinegar mining industry is yet in its infancy, and the possibilities that will grow out of it are yet beyond imagination."

"Have you heard of the big discovery made at Helena?" asked Colonel Doyle the reporter was edging toward the door. "No! Well, I have just received a telegram to the effect that a 200-foot vein of the rankest Schweizer and Limburger cheese had been found right under the town. I understand they are going to develop the new find in connection with their cracker factory. I am going over there in a day or so to investigate, and if there is anything in it I'll let you know."

A negro clergyman was refused a shave by a Lynn (Mass.) colored barber, who is a prominent republican of that city, and now we notice that a republican organ, in Winston, N. C., is denouncing Col. Sutton, a democrat of that city, for giving work to colored carpenters in preference to white ones. This race question is getting milder.

Wonderful Gains.  
Dr. Miles' Nervine not only cures all nervous diseases, headache, blues, nervous prostration, sleeplessness, neuralgia, St. Vitus' dance, fits and hysteria, but also builds up the body. "I am pleased to say that after years of intense suffering with nervous disease, headache, and prostration, I tried Dr. Miles' Restorative Nervine, and in two weeks gained eight pounds in weight. I could not lie down to sleep, but now sleep perfectly easy, and am still improving wonderfully. Cannot say enough for the Nervine.—Mrs. L. B. MILLARD, Dunkirk, N. Y." "One customer used Nervine and gained fifteen pounds in flesh.—BROWN & MAYNARD, Portland, N. Y." Trial bottles and elegant book free at Rogers Bros.

Men After Forty Years.  
There arrived in Oswego last week an old gentleman 70 years of age who walked like an Englishman of 40. After wandering around for awhile he accosted a citizen with the interrogation: "Can you tell me if there is a man living here by the name of Davis?" "Why, yes," answered the other old man, "my name is Davis."

"Yes."

The scene that ensued can be easily imagined. It was a meeting of brothers after a separation of forty years. There was no mutual recognition about it; they did not know one another.

The visitor, Mr. Davis, of Illinois, who is wealthy, is touring through the west, and knowing his brother lived at Oswego, stopped over to see one he had not seen since he was a young man.

Verily, it looks like a family reunion.—Ironworker.

Peter Piper Picked a Peck of Pickled Peppers." is a line of alliterative nonsense, that the children used to say. Nowadays they can practice on the Perfect, Painless, Powerful Properties of Pierce's Pleasant Purgative Pellets. It will impress a fact which will be useful to know. These Pellets cure sick-headache, bilious attacks, indigestion, constipation and all stomach, liver and bowel troubles. They are tiny, sugar-coated pills, easy to take, and a laxative, one is sufficient for a dose. No more groans and gripes from the old drastic remedies Pierce's Purgative Pellets are as painless as they are perfect in their effects.

Something New.  
The new Time Card, which is now in effect, via the Wisconsin Central Lines, with all Western Connections, affords the traveling public the best facilities for reaching all points in Chicago and all points East and South.

The unsurpassed equipment offered to its patrons, combined with speed, comfort and safety, surpassing all its competitors. All through trains are composed of Pullman Vestibuled Drawing-Room Sleepers, with Dining Cars and Day Coaches of latest design.

Two Daily Through Fast Trains each way, making close connection at Chicago with trains in all directions.

For tickets, time tables, etc., apply to your nearest Ticket Agent, or JAS. C. POPE, Gen'l Pass. and Tkt. Agent, Chicago, Ill.

The San Diego citizens have just divorced a girl who lived with her husband only twenty minutes. She thought he was a French count, and when she found out that he was only a sea cook she left him.

## MONTANA WONDERS.

Marvelous Discoveries by a Returned Prospector.

Colonel John Doyle, the mining expert, has just returned from a prospecting tour in Beaverhead county, and also has a marvelous story to tell of recent discoveries made by him. The fact that today is the anniversary of the birth of the man who never told a lie should at least lend an appearance of truth to Colonel Doyle's statement made in an interview with a reporter of the Helena Journal.

"Yes, it is true," said he, "that I have struck a big blow of vinegar in one of the prospect holes, and I consider it the greatest find ever made in the State, some are inclined to regard such a discovery as remarkable, but it really is not, when it is remembered that in Colorado a spring of delicious vegetable soup has been found, and in Iowa a mine of fair quality of soap."

Nothing is remarkable for Montana. The Indians have known the existence of the vinegar stream for years, and have used it as a beverage, and it has often been spoken of by them but never believed until I accidentally discovered it about a week ago. As soon as the facts were demonstrated I had no trouble in organizing the 'Beveridge Vinegar Mining Company,' and stocking the claim for \$100,000. The stock was all subscribed for at the first meeting, and there is none of it for sale. The well is at present down thirty-five feet and flows four inches of vinegar, equal in quality and flavor to the best product from apples. All of it is at present going to waste, but the company is making active preparations to put it up in barrels. If the flow continues, it is our intention to put in a bottling and pickling plant in the spring. The entire surrounding country has been taken up and will be turned into cucumber ranches next summer, and the vinegar will be used for pickling purposes. You will readily see, to the scheme, which is to pickle the cucumbers right on the vine. The company will also go into the stock-raising business and feed the product of our mine to the live animals, and thus raise pickled tripe and pigs' feet right on the hoof. It is bound to be a great thing, and there will be millions in it. We also expect to inaugurate a new method of making sauer kraut, by irrigating cabbage patches with vinegar. A strange but actual fact connected with the merits of our discovery is that it is a wonderful hair restorer, and I believe it would grow a crop on a billiard ball. We intend to bottle some and put it on the market for that purpose. Work on the mine is still going on, and if our last expectations are realized, pipe lines will be built to the leading cities of the state to supply the demand. It has been suggested that the product could be used for drinking and domestic purposes in Butte, and be a great improvement on the water supplied us in summer. The vinegar mining industry is yet in its infancy, and the possibilities that will grow out of it are yet beyond imagination."

"Have you heard of the big discovery made at Helena?" asked Colonel Doyle the reporter was edging toward the door. "No! Well, I have just received a telegram to the effect that a 200-foot vein of the rankest Schweizer and Limburger cheese had been found right under the town. I understand they are going to develop the new find in connection with their cracker factory. I am going over there in a day or so to investigate, and if there is anything in it I'll let you know."

A negro clergyman was refused a shave by a Lynn (Mass.) colored barber, who is a prominent republican of that city, and now we notice that a republican organ, in Winston, N. C., is denouncing Col. Sutton, a democrat of that city, for giving work to colored carpenters in preference to white ones. This race question is getting milder.
