have considerable to do with the build- only 9 per cent. through business. These roads with the exception of the Great Northern is email to the Great Northern is enoming. Oregon will feel the influence of these rates directly as the rates are made to terminal points from Chicago. The freight rate is a good illustration of the tariff and it would be worth the time expended to watch the reduction in the price of goods caused by the reduction of the freight rate. All classes of freight have been acted upon and are included in the new schedules. There is an average reduction of 20 per cent on all freight rates from St. Paul to Spokane, a reduction of from 12 to 16 per cent on the coast rates, and from 2 to 7 per cent on rates te Montana. The only reduction on east bound freight is on lumber which is reduced from 55 to 50. The rates apply on all freight from Chicago, Missouri river and Mississippi river points.

The shaven of legal tenders in excess and gold going abroad no prudent man pays tutes in gold when he can help it. The toans give out legal tenders on every demand and hoard their gold. The each port demand and hoard their gold. The eac
