## Local and General.

Who is ex-Governor Thompson?  
Col. T. R. Cornelius was in the city Tuesday.  
Miss Eva Hoberg is suffering from tonsillitis.  
Hop tickets printed at this office on short notice.  
Mrs. O. O. Hodson returned from Newport yesterday afternoon.  
Mr. C. A. Nutley and wife came down from Eugene Tuesday.  
Miss Myrtle Henderson is visiting friends at Independence.  
The Northern Pacific railroad has gone into the hands of a receiver.  
County commissioner's court will convene to-day for a three days session.  
The annual session of the Oregon conference will convene at Albany next week.  
Editor Barnhart, of the Reporter, and family are sojourning for a few weeks at Ilwaco.  
Wm. and George Hemstock, of University Park, were in the city over Sunday.  
Ed Baker, who is working with H. Sehnak in Portland, was in town over Sunday.  
Marshal Neal and Recorder Vinton returned from Camp Compton Tuesday morning.  
J. J. Flynn, who has been visiting in this county for ten days, returned to Portland Monday.  
A social will be given by the M. E. church at the residence of Capt. Handry on Friday evening.  
District Attorney McCain and family returned from their summer outing in Tillamook yesterday.  
Miss May Cook, of Newberg, won the gold medal in the Demorest contest at Dayton last Friday evening.  
The McMinnville mills started up last Friday after being shut down about month for an overhauling.  
J. O. Rogers, the efficient deputy, will have charge of the office during the absence of Recorder Harris.  
Prof. Fargo and A. M. Sanders will send Mt. Hood, and are to leave the city for that purpose in a few days.  
The sheriff is busy making preparations to levy on the property on which the taxes for 1892 have not been paid.  
Clyde and Lavinia Apperson left yesterday for Oregon City, where they will spend a week or so visiting friends and relatives.  
The Newberg fair will be held September 12th to 15th inclusive. A premium list may be had by addressing N. C. Christensen.  
His owner reports that Lancer D. has fully recovered from the effects of being sold by his enemies at the Port and race meeting.  
The thermometer of the local observatory registered thirty-eight degrees Monday morning. This is unusually low for this season of the year.  
The Oregon City Herald, the new populist paper published two weeks, has been attached for wages by the printers and employees.  
Miss Dora Cooper, of Independence, went home Tuesday morning. She has been visiting the family of her uncle, Postmaster Cooper for a few days.  
B. A. Millsap returned Monday from a two-weeks visit to Yaquina. While away he killed two fine bucks and brought their antlers home as trophies.  
Some of our merchants are having their freight shipped to Dayton by boat and hauled here in wagons, since the raise in rates by the Southern Pacific.  
Shiloh's Vitalizer is what you need for dyspepsia. Torpid liver, yellow skin or kidney trouble. It is guaranteed to give you satisfaction. Price 75c. Sold by Howarth & Co.

# Rev. C. C. Poling will begin a pentecostal meeting at Pleasantdale Friday evening.

A large tabernacle will be erected and a good time is expected.  
For the past ten days there has been a rumor afloat to the effect that the McMinnville express was to be taken off. The report seems to have no foundation.  
Dandruff is an exudation from the pores of the scalp that spreads and dries, forming scurf and causing the hair to fall out. Hall's Hair Renewer cures it.  
While not a large number of the members of B. company are in attendance at Camp Compton, the personal appearance of the men in line has elicited much favorable comment.  
Several interesting parties are anxious about the nonarrival of the plate glass for the front of the Wright building. It was shipped some time ago from the east but the car seems to be lost.  
The boards of trade of several Oregon towns are making preparations for exchanging the resources of their counties at the mid-winter fair at San Francisco. What will McMinnville and Yamhill county do?  
For the first day run Elsie Wright's machine 11,000 out 254 bushels. This was probably in the best wheat in the county, as the amount was taken off of about fifty acres, raised by R. R. McDonald.  
Dr. Goucher's little girl fell off the porch at the residence of Dr. Calbreath on Monday, receiving quite a severe gash over the right eye by striking on the head of a bisque doll, which she had in her hands.  
Geo. E. Bloomer, who was here a few months ago as a member of the Economy flour bin company, is a defaulter. He was treasurer of Jackson county and his accounts are \$900 short. His whereabouts are unknown.  
Last Saturday Eugene Loper left Albany at 7 a. m. on foot and arrived here at 3 p. m. The afternoon train from Corvallis overtook him at Amity and he rode with there. The distance walked was about fifty-five miles. Who has a better record?  
Be sure and put a box of Ayer's Pills in your satchel before traveling, either by land or sea. You will find them convenient, efficacious and safe. They act promptly for constipation, indigestion and sick headache, and adapted to any climate.  
Capt. Wyatt Harris, county recorder, and wife, Mrs. J. W. Gault, and Miss Emma Greene departed Tuesday morning for the east. They will visit relatives, the fair and the National encampment, G. A. R. Friends here will look for their return about the 20th of September.  
The Chinese pay their doctor only so long as he keeps them in health. They believe in preventing rather than curing disease. This is sound sense, and one of the strongest recommendations of Ayer's Sarsaparilla, a medicine which not only cures diseases but prevents them.  
Dray teams from McMinnville come to Dayton almost every trip of the Modoc from Portland, and take over freight that comes on the steamer for McMinnville. Why not build that motor line from that place to Dayton and have a daily boat from here to Portland and return.—Herald.  
Two representative farmers, W. F. Gilkey and A. Klosterman, one a democrat and the other a republican, met on the streets Tuesday and were talking over the situation. They think the yield of wheat and oats in this county will be fully as large as last year. Both are opposed to the free coinage of silver.  
The marshal of Pendleton has a post card from the "Bureau of Protection," Chicago, notifying him to look out for Sells & Renfrow's circus, stating that it was a poor concern, had no connection with the Sells Bros show, and carried a train of convicts, men, tricksters and thieves in its wake.  
Hos. J. W. Hobbs writes from Newport to W. D. McDonald: "We are having nice weather and a good time, you bet. Lowest tide of the season this morning and razor clams had to suffer. Everybody well, but sunburnt and can't get enough to eat. It costs \$1.50 to turn around here; we give them our mind occasionally."  
The presence of the dreaded San Jose scale has been discovered in the orchard of Hugh Finley by R. D. Allen, a member of the state board of horticulture for this district. The pests are yet here made but little progress and it is hoped that this early discovery will result in the eradication before serious damage is done.—Corvallis Times.  
Grant's Pass Observer: "Southward the bums of Oregon take their way." Friday the trucks on the overland were nearly all occupied, still there might be room for one more as there were only ten of them filled. The expression on the faces of the occupants as the train pulled out, and they saw they were good for another station was one of joy and gladness.  
The threshers are beginning to hum in this vicinity. Rummell and Pennington's machine started on Monday just south of town, and on Tuesday Elsie Wright started his machine on the farm of R. B. McDonald north-east of town. Fletcher Bros. machine passed through town on Monday afternoon to G. L. Raker's place, having cleaned up two small jobs that day.  
**Down Go the Rates.**  
The Union Pacific now leads with reduced rates to eastern points, and the through car arrangements, magnificent, equipped Pullman and tourist sleepers, free reclining chair and fast time make it the best line to travel. Two trains leave from Portland daily at 8:45 a. m. and 7:30 p. m. The rates are now within reach of all, and everybody should take advantage of them to visit the World's fair and their friends in the east. Send for rates and schedules of trains, and do not purchase tickets until after consulting Wallace & Hartman, agents, McMinnville, Or.  
W. H. HURLEBERT, Asst. Gen'l Pass. Agt., U. P., Portland, Ore.  
When you want prices on lumber get them of A. S. Briggs as he will save you money. Any quantity and quality. Office with Jas. Fletcher.  
Ab Henderson and Tom Rogers start to Netarts today.

# TO STAY EXECUTION.

Shall There be an Extra Session of the Legislature?  
Governor Penoyer will today send a letter to the members of the legislature requesting their opinion as to the advisability of calling a special session of the legislature at an early date for the purpose of passing a law to stay the execution of judgments. The governor has written this letter in response to requests in numerous letters from Eastern Oregon and other portions of the state asking that some such action be taken.  
The circumstances set forth in the letters asking for such a relief are that the times are hard, money cannot be had on even the very best of security, and the persistence of creditors would have the effect of utterly ruining whole counties of the state. Grain is of good quality but rather under the usual yield per acre in Eastern Oregon, and the price is but three-fourths as much as it was last year. This leaves the farmers not much above the actual cost of production and it is out of the question for them to think of paying heavy debts from the products of their fields. The laws of Oregon at present permit the taking of a man's property for debt and selling it for a mere fraction of the amount it is actually worth. From this procedure the debtors want relief.  
The governor thinks the law now in force would form a considerable measure of relief if debtors would take advantage of all the provisions. In some instances elated the feature of usurious interest would have been ample safeguard against oppression if the law in that particular had been invoked. But the demand seems to be for a definite and distinct stay law that shall give the debtor a year before a judgment against him can be executed. This provision, they think, would take the poor farmers out of the clutches of the money lenders.  
"Would such a law bring the relief which the writers of these letters expect?" the reporter asked.  
"Not unless congress passes a free coinage law," responded the governor, and he repeated it as if it were a well settled conviction with him. "If congress fails to pass such an act," said he, "a state law to stay execution of judgment will only prolong the misery of our debtor farmers. But I want to see what the legislators think about the matter, so that I may act intelligently."—Statesman.

# WHEAT.

Some Reasons Why the Price of Grain is so Low at this Time.  
The present demoralized position, says Bradstreet, of wheat prices is credited to the financial situation in part, but more largely to the immense stocks on hand, particularly at Chicago. A large portion is ascribed to the May wheat deal in the market, which at that time had attracted there 25,000,000 bushels in public and private elevators, and resulted in the advance of prices in Chicago to a figure above a parity with all other markets. When it was found that the deal was not successful prices dropped, but not sufficient to move the cash wheat in Chicago. The carriers saw in the large stocks great profits in handling the wheat, and an effort was made to hold it in store. This was successful, and from month to month huge profits were made on carrying charges, resulting on July 1 in a difference of 7c from July to September. Things ran smoothly until the financial depression reached its full force, and then it was impossible to get money on cash wheat, and the load in Chicago was forced out, driving it below a parity with New York. Toledo led the decline at the start, and at one time showed a new profit of 6c over shipping charges to New York. Inability to handle the new arrivals and inability to sell New York exchange accounted for the disastrous break. When the decline started there was no lot up. The liquidation of the August deliveries drove prices on July 31 to 54c for cash, a price never before seen in Chicago. The highest prices for cash wheat in Chicago this year was in April, when it reached 85c, making a net decline of 31c. During the great movements in previous years low prices have been as follows: December, 1884, 69c; and in October, 1884, 81c. The price made on Monday was 11c below the lowest price ever seen in the Chicago market.  
**OREGON'S FUTURE.**  
Kind Words From the San Francisco Journal of Commerce.  
Oregon will in the future be one of the richest and most notable states of the union and one of the greatest countries of the world. Populated as in England it would give homes and business to forty millions of industrious and intelligent people. Its great waterway the Columbia, is one of the great rivers of the world. Its lumber forests are a mine of wealth in themselves. Twenty-five thousand square miles of the coast range of Western Oregon and the Cascades are covered by a growth that averages from 16,000 to 200,000 feet. At 20,000 feet the total would be three hundred and twenty billion of feet, worth at the lowest calculation two and a half billions of dollars and probably more. Here is a forest wealth greater than the value of all the gold and silver mined on the coast from 1848 to the present day, and only waiting the axe of the woodmen. There are four principal varieties of this lumber and many others of less note, but of great value. Its agricultural resources are wonderful. The Willamette valley, with its wonderful fertility, and the valleys of the coast, and of Eastern Oregon produce wheat averaging twenty-five to fifty bushels per acre. A great variety of other agricultural products and of fruits, give the farmer scope to meet the varying wants of the market at home and abroad. Vegetables, hops and valuable fibres are amongst the products of the soil that flourish. The finest cattle, horses and hogs in the world are raised in this state. Oregon wool is amongst the best in the world, and the room for its production is without limit. The southern and western sections of the state are especially rich in minerals.—San Francisco Journal of Commerce.  
**A New Soil Field.**  
One of Wm. Stratton's boys picked up a large toad at the river last Tuesday, that no doubt belonged to an elephant some thousands of years ago. The number of such remains that have been found about the mouth of Chehalis would indicate that long before the Chehalis valley became famous as a prime growing district, it was a favorite resort for animals of enormous size. Who knows but the Chehalis river once had as wide a reputation as the salt sea now has as a resort for the more brainy inhabitants of the valley? Some one ought to hint to our fossil hunters that this field is much nearer home than the "John Day" country and far easier of access.—Newberg Graphic.

# NEARLY DIES.

The Assessor of Clatsop County Severs an Artery.  
John W. Gearhart, assessor of Clatsop county, was brought in from Gearhart Park Saturday morning by Dr. Alf Kinney, suffering from a loss of nearly every bit of blood in his body through a self-inflicted wound across the artery of the left wrist. Several days ago he showed signs of mental trouble, but at the time it was thought by his doctor that the matter was not very serious and that change of scene and rest from work would soon restore him to complete health. So he was taken to Butterfield's farm, near Gearhart, and adjoining the seaside cottage of Dr. Kinney, who also went away, to be as near his patient as possible. Last Monday the doctor, in Gearhart's presence, remarked that he might perform a cupping operation in order to relieve the pressure of blood on the brain, and it is believed that these words led to the rash act that was committed Friday afternoon, when the assessor was missed from the farmhouse, but thinking he was walking in the neighborhood, Butterfield paid attention to the matter. However, as night came on and he did not appear, and a long search failed to find him. Early yesterday morning the Butterfield children noticed drops of blood in the barn and tracing them for a mile in the direction of Dr. Kinney's cottage came across Gearhart lying on the ground in a dying condition, with a pool of blood by his side. The highest prices for cash wheat in Chicago this year was in April, when it reached 85c, making a net decline of 31c. During the great movements in previous years low prices have been as follows: December, 1884, 69c; and in October, 1884, 81c. # CROP-WEATHER BULLETIN.

For the Week Ending Tuesday, Aug. 15, 1893—U. S. Signal Service.  
The temperature during the past week has been cooler by four degrees than it was the preceding week, the sunshine was about normal. On the 12th the sky became cloudy and the temperature began to fall. Sunday, the 13th, was cloudy, cool and fresh winds, with rain along the northwest coast and along the Columbia river to Hood river. A light sprinkle of rain, not sufficient to lay the dust, fell in the Willamette valley, southward to Lun county, principally close to the river. Smoke from forest fires is appearing in the atmosphere, being more dense in the southern counties.  
A good soaking rain would be of great benefit to the hops, corn, late grain, fruit, gardens and pastures. The winds are dry, making the soil very dry and hard. Hops have good growth and are clean, there being but few lice; but the burr is small, produced by lack of rain; an improvement in the size is anticipated. Peach plums and early peaches and apples are ripening quite rapidly, usually they are ripe by July 10. The codlin moth is developing rapidly, and damage will be done by them to the apple and pear crop. Green corn and tomatoes are in the market. The potato crop is generally good, though it would yet be improved by rain. Harvesting of fall wheat and oats continues; threshing will begin this week. The correspondents all agree that the grain is turning out much better than was expected. Some little threshing has been done, which yielded from 25 to 42 bushels per acre. Spring sown grain does not show much improvement; it will not be harvested for ten days or more; it indicates a yield below the average; not more than 12 to 16 bushels of wheat and 30 bushels of oats to the acre are expected.  
**EASTERN OREGON.**  
The fore part of the week was warm, but the latter was decidedly cooler, with light frosts on the higher elevations; an occasional sprinkle of rain fell, though practically there was no rainfall. The mean temperature varied from 62 to 70 degrees, as against 68 to 72 degrees the preceding week.  
Harvesting is progress throughout the Columbia river counties, in Union and parts of Baker county; in the counties to the south it will begin next week. Some threshing has been done and the yield is beyond all expectations. The wheat, oats and barley crop will be excellent, the total product fully equal to or greater than that of any former year. The quality will be good too. Some farmers are troubled about the rain, to get money to harvest their grain harvested, and how to get sacks to sack it.  
The alfalfa crops are good and reports indicate a plentiful hay crop for next winter. The fruit is ripening nicely and will be free than usual from insects.  
**B. S. PAQUE, Observer.**  
**Pronounced Hopeless, Yet Saved.**  
From a letter written by Mrs. Ada E. Hurd, of Grotto, S. D., we quote: "Was taken with a bad cold, which settled on my lungs, cough set in, and finally terminated in consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Saviour, determined that if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. King's New Discovery for consumption, coughs and colds. I gave it a trial, took in all eight bottles; it has cured me, and thank God, I am now a well and hearty woman." Trial bottles free Rogers Bros. Drugstore.

**Terrible Misfortune—Many Suffering from Nervine cured in 10 days.**  
The cry of misfortune is never heard without a responsive throb of sympathy from those who hear it. Those who have had it gripped, which left them with that constant tired, worn-out feeling, sleeplessness, dull headache, depression, hysteria, etc., have often prayed for relief, and are obtaining it from Dr. Miles' Restorative Nervine. M. Lew Enaynar, Macy, Ind., says: "Your Nervine has cured me of prostration. It is just what your advertisement said it was." "Two bottles of Nervine cured me of sick headache."—Chas. Wilber, Palmyra, N. Y. Sold on a guarantee by Rogers Bros. Call for the doctor's book, "New and Startling Facts," free.

McMINNVILLE, Or. July 29, '93.  
To Whom it May Concern:  
Having purchased of Messrs. JONES & ADAMS one of the Minnie Harvesters, can truthfully say it is as light draft machine as I have ever seen; is easily adjusted and does as good work as ANY machine can do. I am more than pleased with my machine, and to any of my friends and neighbors who are in need of Binders would advise them to buy a Minnie as I know it will give them entire satisfaction.
