An athletic club is being talked of. There is no reason why one should not be organized. There are a number of amateur athletes in this city as good as any in the state and McMinnville should be heard from in the next state events. Organize and hire an instructor. W. E. Martin, the champion live-bird shot of Oregon, has, through the solicitation of his friends, concluded to take well-bred dogs to train. Living in a country full of Chinese pheasants and other game, the dogs under his care will certainly be well broken to field work. Mr. Martin has demonstrated his proficiency in breaking dogs to hunt times without number, and people intrusting their dogs to him can rest assured that they will be all that can be desired, providing they have the breeding and sense. He has made arrangements whereby he can furnish dogs of any age or breed, broken or unbroken, on short notice.

Write your name on a card, and I'll have one of you, and you know, that whatever you say, they can prove it each day. That they are the leading grocers.

Do people really love trashy literature, or do they read it chiefly because it is cheap and easily accessible? Much light is thrown on this inquiry by the experience of the Forum, which is the very furthest removed from sensationalism. This leading monthly reduced its price from \$5 to \$3 a year, and discovered almost instantly that the number of readers of serious literature in the United States was as great—or well nigh as great—as the number of readers of the "popular" magazines. The publishers report a continuous increase and an increase at a faster rate since the January number appeared than before. The edition for February will, it is believed, be larger than any edition of any review ever before published anywhere.

The cantata, "David the Shepherd Boy," with F. E. Rogers as David and Miss Mary E. Cook as Abigail, met expectations, and with the exception of one or two cases of stage fright, was admirably rendered. Miss Cook pleased the audience with her voice and gracefulness upon the stage, but as the part she portrayed did not give her voice an opportunity to be heard in its full power, it is hoped that she will appear before the public again in songs more in keeping with her voice. The chorus was good and the fresh young faces and voices were indeed a pleasure to the audience. The children in their evolutions pleased everyone and many expressions of praise have been heard. Misses Green and Peters deserve a compliment for their patience in training them.

Commodore Jones Dead.

By one of the old pioneers of the state are dropping off. Hale and hearty as they are old men, time is showing its ravages and soon the mysterious beyond will be peopled with the men and women who crossed the plains by ox teams before the railroads had appeared, and whose hands and minds have made Oregon the star of the west. But a portion of eternity has been spent on earth and if their labors are as prolific of good in the misty beyond as they have been here, not a regret at their going should be registered. The last one to feel the blasting effect of time is William T. Jones, better known as Commodore Jones, who passed away Monday evening at his residence on Muddy.

Mr. Jones was born in Dorsetshire, England, on Sept. 15, 1819; came to the Pacific coast in 1846, and lived in California for a short time prior to coming to Oregon. Upon arriving here he settled on Muddy creek where he has resided since. On July 14, 1857, he married Elizabeth Mender, a native of England, at that time a resident of this county. Seven children have been born, all of them alive at this time.

The School District.

A tax of 3 mills has been levied upon school district No. 40. It is now impossible for the entire levy of the county, city, and school district to be over 25 mills, the amount levied by the county alone last year. Five dollars per month has been held from the teachers' salary for a few months past, but we are glad to announce that the directors have restored this amount to the teachers and they are now drawing full salary. The last of the indebtedness on the Cook school will soon be paid.

Officers of McMinnville Grange.

The following is a list of the officers of the McMinnville Grange No. 31, for 1894:

Allen; Ceres, Lydia Thompson; Pomona, Mary E. Allen; Flora, M. L. Pennington; L. A. S., Sadie Funk; Mrs. Bertha Hibbs is organist; J. T. Joly remains county deputy.

To School Clerks.

On account of the lateness of the last apportionment, it is found that it will be impossible for many of the school districts to use all their money before the annual meeting; for this reason it has been decided that the money reported in the hands of the district clerk at that time shall not revert back to the school fund but may be retained and used the following year.

J. B. STYLLWE, Supt.

THREE SWINDLERS.

The Lightning Rod Fakirs Have Arrived on the West Side.

HILLSBORO, Jan. 24.—The lightning rod swindlers who have been operating in Marion county, have come this way. The last heard of them was on the line of the Oregonian railway. They will probably strike Yamhill in the neighborhood of Newberg. There are three of the worthies, but only two of them are together. The third brings up the rear.

On Saturday last we had two inches of snow here, though at Forest Grove the depth was six inches and it is lingering around there yet.

Politics don't seem to swell here yet. The populists had a county meeting here last Saturday, but from the frequent mention of one or two names in their proceedings, it is understood that they were a great amount of unoccupied standing room. The seats were not full enough to break the echoes.

The burning of the Odd Fellows hall is a serious loss to the fraternity. The insurance adjuster estimated the loss on the building at \$100, insured for \$800; on the property in the lodge room the inventory footed up \$900, insurance \$400. Committees have been appointed to procure a meeting place and appliances for carrying on the work of the lodge, so that there will be no break in its records.

The work of raising the required subsidy for the Hillsboro-Beaverton electric railroad is actively in progress with bright prospects for success.

High water is with us, but so far no damage of consequence has been reported. Experience has taught the supervisors to build bridges above high water mark.

An active road agitation is on, and of the various plans advanced, the one now receiving the most favorable comment is that one where the way is made of lumber laid on a well-drained and graded bed. Stringers are discarded.

Our electric light company is laying aside the old 52 volt incandescent lamps and adopting the Puckard 104 volt. The new lamp in some respects is better.

There are evidences of reviving business here. Real estate men are making preparations for advertising and selling real estate.

A country store at Mountain Dale postoffice was burglarized this week and \$50 worth of goods taken.

A distressing case of poverty is in the hands of our surgeons today. A small boy of this place was taken some weeks ago with typhoid fever. He recovered but for want of proper nourishment tuberculosis of the tissues of the legs and bones was developed.

One leg is to be amputated today, and it is feared that the knife and saw will have to be applied to the other.

Fire broke out in the Odd Fellows building on the morning of the 18th at 3 o'clock and was not extinguished till nothing remained except the floors and outside shell. How it caught is not known, for when discovered flames were bursting out of the front. The building was a two-story structure owned by Montezuma Lodge No. 50, I. O. O. F. The ground floor was occupied by F. M. Hidel, baker and confectioner. The second floor was occupied as a lodge room, where, beside the Odd Fellows, the Knights of Pithias, Foresters, A. O. U. W., Encampment of I. O. O. F. and Rebekah degree lodges met. The firemen first checked the fire on the ground floor, but by that time the interior of the lodge room was a mass of flames. A stream was directed into that room which controlled the fire so that the firemen got on the inside and one desk standing near was thrown out. This blazing mass thrown to the street, contained the current record books and is all that was saved. The lodge accounts are lost. The loss on the building is estimated at \$1200, insured for \$800. The furniture, regalia, etc., was worth \$900 and insured for \$400. The loss of the other lodges in regalia and furniture is between \$300 and \$400; no insurance. F. M. Hidel's loss is between \$600 and \$800, insured for \$450. The Odd Fellows own the ground and are out of debt, and will without doubt build in the spring, probably with brick.

Corvallis has a citizen who barely escaped the scalping knives to which Custer and his ill-fated followers fell victims. This person is a paper hanger named E. H. Pickard, and just before the fatal charge on the Indian village where Rain-in-the-Face and his murderous band lay in ambush he was sent to the rear with extra horses and instructions to hurry Major Reno to the front. He heard the fatal charge saw Custer at the head of his brave band dash down the defile in the morning sunlight, and saw Custer as they rode and died.—Times.

Commander Cooper of the department of Oregon, installed the officers of E. J. Babcock post No. 30, G. A. R., last Friday evening. The officers for the ensuing term are: S. A. Howell, commander; J. O. Nieswender, S.V.C.; I. O. Morris, J. V. C.; J. N. Fisher, adjutant; G. W. Hughton, quartermaster; W. D. Riko, sergeant; W. A. Morton, O. of D.; A. J. Hobbie, O. of G.; A. C. Evans, Q. M. sergeant; A. B. Cody, sergeant major. After the installation the commander went into camp and rations of baked beans, coffee and hard tack were served. By the campfire reminiscences of the long ago were rehearsed until tattoo was sounded when all retired to their quarters.—Independent.

When Baby was sick, we gave her Cuticura. When she was a child, she cried for Cuticura. When she became a woman, she clung to Cuticura. When she had Children, she gave them Cuticura.

By order of the council, G. W. JONES, Chairman of F. & W. Com.

Prunes for Hogs.

Mr. C. E. Hoskins has made an interesting experiment this year with feeding prunes to hogs.

When grading prunes his before drying, all prunes which passed through the jinch opening (prunes which would run from 120 to 140 per pound when dried) were placed on the trays just as they came from the grader and dried without cleaning and dipping. These he used to feed hogs with and found the results very satisfactory.

The hogs did remarkably well on their pruned diet and the pork was of unusually good flavor, as might be expected. Mr. Hoskins expresses the opinion that every pruner grower should note this and try the experiment next fall. No prunes of the size mentioned ought to be sent to market from Oregon under any circumstance, and if, as his experience this last year indicates, they have special value as hog feed, they should be utilized for that purpose. The knowledge of such a fact would also be of value in case there should be at any time such a depression in the price of prunes as there is in the price of wheat at this time. Oregon hogs, raised on clover and milk, and finished off with prunes ought to give a product rivaling in quality the famous Westphalia hams, which sell for about double the price of the best corn-fed product.—Rural North-west.

Local Teachers Institute.

The local teachers institute for Yamhill county will be held at Carlton, on Saturday, Jan. 27, 1894.

Our last was a grand success, over 20 teachers being present, while the school room of North Yamhill school building was crowded with earnest and interested patrons. The novel idea of furnishing lunch at the building, thus giving the teachers and friends the opportunity to become acquainted was introduced by the good citizens of North Yamhill and a pleasant time was enjoyed.

The following program has been arranged for the next meeting: The subject of fractions will be introduced by Miss Blanche Miller, of Carlton; History, by Mr. Jas. W. Allen, of district No. 6; Natural History in the public schools, by Miss Allie Stolt, principal Carlton school; How to teach reading, by S. S. Duncan, of North Yamhill schools; Discipline, by Mrs. M. C. Matthieu, McMinnville schools; The Grubbe Method, by John Klough, principal Lafayette schools; Composition by Prof. Buchanan, McMinnville schools. The programme will be interspersed with music, recitations, etc.

Smuggling Pheasants.

Another kind of smuggling Celestials is reported by the Ashland Tidings: Twelve pairs of Chinese pheasants arrived in Ashland the first of the week, consigned to a Pullman conductor of the S. P. R. R. and designed, it is understood, for shipment to Oakland or San Francisco. As the law of Oregon prohibits the shipment of these birds out of the state, dead or alive, neither the express nor railroad company will accept them for shipment, and unless they will be smuggled across the line they will have to be shipped back to the consignor, or disposed of here. They came by express from Tangent.

A Leader.

Since its first introduction, Electric Bitters has gained rapidly its popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant. Satisfactory guarantees with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Rogers Bros.
