

THE REPORTER.

McMINNVILLE, OREGON, JULY 6, 1883.

Newspaper Decisions.

1. Any person who takes a paper regularly from a post-office, whether directed in his name or another's, or whether he subscribed or not, is responsible for payment.
2. If a person orders his paper discontinued he must pay arrears, or the publisher may continue to send it until payment is made, and then collect the whole amount, whether the paper is taken from the office or not.
3. The courts have decided that refusing to take newspapers or periodicals from the post-office, or removing and leaving them in the office, is prima facie evidence of intentional fraud.
4. The Postmaster-General has decided that postmasters who fail to notify publishers when subscribers remove or fail to take their papers from the postoffice, shall be responsible for their subscription.

COMING HARVEST ESTIMATES.

The Millers' National Association has given publicity to the wheat-crop estimate, which promises for the whole wheat belt of the United States only 373,500,000 bushels for 1883, indicating a prospective shortage from the 1882 crop of nearly 93,000,000 bushels in twenty-one States, which represents nearly all the wheat-producing areas. The report is considered quite remarkable in the light of the fact that the millers are generally bears in the markets.

The figures in this connection were presented by S. H. Seamens, Secretary of the National Millers' Association. It is said Mr. Seamens sent out 3,000 letters, asking information. In this report he writes:

"I have only to say that it is based entirely upon replies to my inquiries, which have been carefully tabulated, thoroughly analyzed, and the averages closely figured. In short, the conclusions are arrived at by the most careful investigation of the replies, and are given to you with the confident assurance that so far as it is possible to arrive at the probabilities of the growing crops they are approximately correct."

Following are the estimates by States:

California	45,000,000
Nebraska	15,000,000
Texas	2,100,000
Kansas	23,000,000
Missouri	21,400,000
Iowa	15,300,000
Dakota (approximate)	16,000,000
Minnesota	37,000,000
Wisconsin	18,500,000
Illinois	25,000,000
Kentucky	12,400,000
Tennessee	6,500,000
Georgia	3,500,000
Virginia	3,200,000
Maryland	9,000,000
Delaware	1,000,000
New York	10,000,000
Pennsylvania	22,300,000
Ohio	26,000,000
Indiana	29,500,000
Michigan	23,300,000

Of the crops in the Western States, the Kansas City Journal says:

And now, at the end of six weeks' growing and prophesying about crops, comes the information that the wheat, so far as the berry goes, is going to be first-class, round, well filled and solid. This is due to the cool weather people have been making such a fuss about. And next comes the report that the last few warm days, with the heat in the neighborhood of ninety in the shade, has started up the corn so you can almost see it grow. So everything is lovely. Nor has the river destroyed everything on the bottoms. These annual scares and growls are part of the world's stock in trade, and come every year as regularly as the seasons come. If we were to go by public rumor and people's caprice, there would not be half a dozen good days in a year. And if we could have the kind of weather popular judgment would call for, there would never be a crop of anything raised. Sometimes the clerk of the weather gets a little off, but as a rule he manages things a great deal better than could be done for him by those who grow so much about the way he conducts business. Another thing we notice—that the farmer who never plows or sows until the ground is "just right," always raises the poorest crops.

We commend this to our readers as a sensible view by a sensible paper of the status of affairs in its section.

Active preparations are being made for driving the last spike in the Northern Pacific. The spike will be of gold. It is already made, and is in the possession of President Villard. It has engraved upon it an inscription suited to the occasion. The place selected for its reception is about ten miles from Helena, in the direction of Portland. It was, at first, the intention of the company to restrict the number of invited guests to 100, but arrangements are now being made for 400 people. Quite a number of these will be from Europe. Invitations will be issued from New York by President Villard. A special train will be made up there and will run direct to the spot selected, stopping only at Chicago and St. Paul, to take on invited guests. President Villard will give the spike the first whack. The spike itself will not be the only thing made of precious metal. The sledge with which it will be driven is now being made of solid silver with ebony handle. Both the spike and the sledge will be retained as souvenirs by President Villard. From the site selected a special train will go to the Pacific coast repeating the inspection trip recently made by Villard. The exact date is not yet fixed, but it will probably be in the last week of August.

George Swain, who was foreman, and for a time editor of the Reporter, when it was called the Pacific Blade, and before it was purchased by the Snyder Bros., and who left here to go to Nevada, finally wandered in Nebraska, where he became a desperado and is charged with the commission of several crimes, including theft, robbery, burglary and murder, was recently arrested near Fremont, Neb. He was with a man by the name of Moss at the time Moss was killed by the sheriff's party, and Swain was captured after considerable difficulty, in which one of the sheriff's party was killed. After his capture Swain stated that he was a native of Massachusetts, and a printer by trade. From what we learn from Mr. J. J. Hembree, there is no doubt that the person captured is the same person who resided here.—Register.

TOPICS OF THE DAY.

Wheeler, who was tried in Portland last week for the killing of Schwartz, sometime since was acquitted.

Losses by the recent floods of the Mississippi in three townships in Madison county, Mo., aggregate \$210,000, and in four townships in St. Clair county \$216,000.

Mrs. L. V. Hinckson of Lewiston, I. T., was committed to the insane asylum last week. The cause of her derangement was a disease very much resembling hydrophobia.

The jury in the case of the State vs. Cannon, charged with shooting Senator Voorhees, in Marion county, disagreed and the case was continued to next term of circuit court for that county.

Government surveyors are having trouble with Indians on the Skagit.

Work has been begun on the canal to connect Lakes Union and Washington, near Seattle. It will be 2,600 feet long, with an average depth of seven feet.

The statement of the earnings and expenses of the O. R. N. Co. for the eleven months ending May 31st is published, showing the first to have been \$4,642,910 and the latter \$2,369,307, leaving net earnings, \$2,273,603.

East Oregonians: A party of six shepherds, consisting of Harry Bennett, Ed. Cox, Jas. Farrier, Carl Crow, Marion Knox and Henry Scherzinger one day last week sheared 750 sheep at the ranch of Silas French, on Dry Rock creek. This is an average of 125 each and if the supply of sheep had not given out, they might have brought the number up to 150 each. Ed. Cox led the list with 152.
