

THE REPORTER

McMINNVILLE, OREGON, JAN. 3, 1884.

Hon. Raleigh Stott has resigned the Judgeship of the Fourth Judicial District.

George A. Post, of Pennsylvania, is the youngest member in the house of congress.

Tariff for revenue only would raise the price of sugar to 20 cents a pound; that would raise the most revenue on this coast, and that's what tariff for revenue only means.

The Reporter force has had a New Years in common with other people; they have also had a no small amount of extra work during the week. Hence we are one day behind, and accept our readers apology with good grace.

At present there are wars and rumors of wars in Newfoundland. Last Thursday while Orangemen were parading the streets of Harbor Grace they were fired upon by Roman Catholics and two Orangemen killed. Since that time riot after riot has ensued and serious times are threatened.

Cut this out and paste it in your hat—Oregon farmers must raise 100 bushels of wheat to the acre, other countries do it and we have as good land and a better climate for wheat raising, than any other country on this green earth; verily this generation shall not pass away until this thing be fulfilled.

It is said that Ben Butler is organizing a new party, to be composed of the grangers, knights of labor, prohibitionists, greenbackers, feunians and German brewers. He'll land in the white house if he gets all of them on his hook; besides the bills of our government would not be very protracted after a dose like that.

Hon. M. C. George has been appointed on two important committees of the House,—Indian Affairs, and American Shipping and Ship building. Oregon is getting greatly interested in both of these committees and Mr. George's energy and experience in Congress will surely be of great benefit to the entire Northwest.

How the free tradedemocratic organs haul in their horns since they have seen the magnitude of their blunder in the election of Carlisle. Mene Mene.

The southern cotton factories are thrown into the balance. Tekel.

Ben Buttler and his workmen are found wanting. Upharsen.

At one time Napoleon got mad at England and forbid the importation of sugar into France by a prohibitory tariff on English sugar, at the same time offering large rewards for the best mode of making beet sugar at home. Three years afterward France bought all of her sugar from the Farmer and was exporting sugar to England.

New Years day the Oregonian exhibited considerable journalistic enterprise by issuing a 16-page paper, brim full of news—foreign and relative to our home state. But in its description of Yamhill it errs in one or two instances, viz: "Lafayette has 800 inhabitants," and that "Dayton is the terminus of the Narrow Gauge railroad." Lafayette has a population of from 400 to 500, while the main track of the Narrow Gauge runs around the town of Dayton—only a switch running to the town. We would be pleased if both statements were correct; but as they are not, we take the liberty of making the correction.

If fostering our industries is wrong, why are people so willing to contribute money to establish manufactories in their midst? Is there a town in Yamhill county that is not willing to vote a tax on themselves to establish even a moderate sized manufacturing establishment of such as they have in the East? Such an enterprise would furnish work for our carpenters, brickmasons, painters, lumbermen and teamsters. They would be followed by skilled artisans and operatives who would need houses, schools, churches, libraries, food, fuel and clothing, and every class of their people would be benefited. Let no man talk free trade or every tariff for revenue only, until our lovely valley is peopled by a class of progressive and industrious people as old Massachusetts, Connecticut or New York. We have the natural resources and we must have the development. But there are people who would not give a cent to help any enterprise and would even buy flour at less than cost if England would sell it to them, until all of our flour mills were destroyed and then pay double price for it afterward. Kill the goose for the golden egg.

THE RED TWILIGHTS.

The brilliant red mornings and evenings that we have been witnessing for several weeks is still the cause of much speculation among scientists. The red is surely caused by the sun shining on some substance in a state of vapor or dust. This reflection is seen at least three hours before sunrise and three hours after sunset. Three hours after sunset at the equator, the sun does not shine upon a point immediately over head nearer than 1,500 miles above the earth—more than thirty times as high as our atmosphere reaches. This would seem to indicate that we are

passing through a meteoric belt; then, again, if that is the case, the earth has traveled over one hundred million miles since we entered this belt—too large for our solar system.

Many are the theories advanced as to the cause of this wonderful phenomena, such as—"We are passing through the tail of a stupendous comet." "The atmosphere is full of smoke and cinder from the Java earthquake." We think the sunspots of a few months ago were caused by the birth of a new planet, and all of the other planets are kicking up a dust about it—the same as the San Randall democrats are kicking up a dust about the birth of Carlisle.

C. Caine and wife, Claim No. 36 in T. 4 S., R. 4 W., in Yamhill County, Oregon; thence South 22 and 84-100 rods on the East line and to the South-east corner of Peter L. All of said improvements to be made at the expense of the adjoining property owners.

FACTS ARE FACTS AND SPEAK LOUDER THAN WORDS.

LOOK HERE!—Sit down and read this, and common sense will tell you that any merchant who vertises with a spirit of malice,

Cannot be Trusted.

It is "nonsense and humbugging to blow and try to blind people about good goods." I claim to have **AS GOOD GOODS** as any other storekeeper, and not any better. They all come from the **SAME FACTORIES**, and every merchant has to keep different qualities of goods to suit his trade. For instance: if a man wishes to chase a suit of clothes for \$12 he doesn't want a suit of clothes for \$35, and so vice versa,

Why, it is Ridiculous to say

I keep good goods, and therefore can't sell them as

CHEAP AS MY NEIGHBORS

as every child that goes to school knows better than that.

ALL GOODS that I advertise in our **Local Paper**, the "Oregon Register", and "Dayton Free Press" are

Always to be Found in Stock

and not "just out of them." **TOO THIN!** Furthermore, I will say that I am buying my goods **Strictly for Cash, at Bedrock Figures, and Discount my Bills,**

therefore, I can make a **REASONABLE PROFIT** and still sell goods for **LESS MONEY** than those stores who do that are buying on time and leave the wholesale houses and manufacturers wait from 12 to 24 months for their money. In the first place, they can't expect to buy as cheap as the man who buys **FOR CASH**, and in the second place the wholesale houses will

Charge Interest after four or six Months

whenever the account becomes due. I will add that I devote my **Whole Attention** to the Dry Goods and Clothing trade, and everything pertaining to it, and leave all other outside business alone.

These are all Facts that I am Willing to Prove.

I don't propose to have my goods lie on the shelves for years. Whatever old goods remain over by the 1st of January will be thrown into **THIRD STREET LAKE**, instead of letting moths get a hold of them, as has been the case in **other stores, here.**

Remember that H. Fisher

keeps a

First-Class Dry Goods and Clothing House,

and is receiving goods every day and has always a **FINE ASSORTMENT OF GOODS** in stock. Farmers of Yamhill County, I am prepared to do an **Extensive Credit Business this year in my line**, and all those that are **responsible for the debts they contract** will find it to their advantage to buy their **DRIED GOODS AND CLOTHING** of H. FISHER, as you will **SAVE** from 25 to 40 per cent. in purchasing your goods.

MONEY SAVED IS MONEY MADE.

You will find every week my **GOODS AND PRICES ADVERTISED.**

Very Respectfully Yours,

HUGO FISHER.

What we Believe!

There is no question about it:
B. F. HARTMAN'S

is the place to buy **GOOD GOODS**. No humbugging or blowing about best quality of goods of any kind for less than half what they can be made for. That is simply nonsense, and is only done to get you in their stores to find them "cut out" of the goods advertised at less than half value, or to show you an article too worthless for any use, with the hope of selling you their goods at big prices. Talk is cheap, and so are all kinds of goods, and when you want to buy

Good, Durable Goods,

You cannot do better than to buy them of
B. F. HARTMAN.

Ladies will find all kinds of Latest style Cloaks, Dolmans, Ulsters and Wraps, Dress Goods, Silk Lace, Mull, Bobonett, Darn-Vit Ties, and everything pertaining to Ladies' Wardrobe.

All kinds of Dry Goods, and any and everything in Gents' Furnishing Goods. Also, Groceries, Glass and Queensware, Hardware and is **SOLE AGENT** for

Star Mixed Paints,

the best on the coast. Also, Farming Implements of all kinds, all for the lowest prices. Also, remember 10 per cent. discount is given for cash.

Call and see him.
