AT GREYSTONE.

A Graphic Description of the Home of Samuel J. Tilden.

he Grand Panorama to be Seen From the Tower--- The Lawns and Grounds Surrounding the Castle.

[New York Journal.]

probably the most prominent point just at sent along the lower Hudson is Greystone, ne of Samuel J. Tilden. Nearly all fitors of the Democratic state press e found their way to Greystone and many frequent visitors, taking such advice and as the sage may see fit to As the presidential campaign of 1884 ws nigh, private conclaves are the order Greystone. During the past week or two, as were attended by Messrs. Bigelow, ning, Dana and others.

stone consists of fifty-five acres rolling ground on the east bank of the pison, sixteen miles from the New ork city hall. It has a frontage of) feet on the river bank, and extends three-quarters of a mile toward the island country. The old Albany post ad and the Croton aqueduct run parallel th the river through the property. Grey-me castle is located on one of the highest ons of the estate, and is surrounded by It is a massive four-story ing lawns. nucture, built of native grey granite, quar-d near by, and is surmounted by a tall r from which one of the grandest and st extensive views of this part of the world be obtained. One hundred and eighty thousand dollars was the price asked for stone, which was originally built by Mr. in T. Waring, and it is said that it was until Mr. Tilden had entered the upper unber of the tower and looked out on the surrounding country that he willing to give a decisive answer.

A GRAND PANORAMA.

powerful glass in the tower commanded y of a radius of many miles around To the south the eye follows the ing Hudson to New York bay and for and distance beyond Sandy Hook. Many nts of prominence in New York city may distinctly recognized. The obelisk in atral park, Trinity church steeple, the bridge and all prominent buildings To the right, over the Palin be located. can be distinctly seen the various viles of the Hackensack valley and northern Jersey. Turning toward the north the son gradually widens until it emerges the Tappan-Zee, which at the Kingsland t house near Tarrytown is five miles Along the high ridge of hills, with a lual slope toward the river bank, which ns a continuous chain above Greystone, many turreted castles, the residences of e of New York's most noted millionaires, as Villard and Cyrus W. Field,

THE CASTLE AND GROUNDS.

pward of \$100,000 have been spent on the systome estate since it came into the hands fr. Tilden. Every requisite for the health, fort and pleasure of its occupants has a brought into use. The most rigid sanilaws are enforced both in and about the and all parts are open to the frequent tion of the family physician, Dr. Si-s, who is a modern sanitary expert. interior of the castle is composed of y-four rooms besides the tower chamand basement. All are furnished in a but not gaudy manner, the carpets, ings and draperies all wearing a heavy ssive appearance

TELEPHONE AND TELEGRAPH.

modern improvements such as lightheating, burglar-alarms, telephone telegraph have been brought into With the telephone Mr. Tilden is able talk with the master of his yacht lying at chor off Greystone, and is able to call for his wants among the dealers and business of the city of Yonkers, all of whom are ed and ready to dispatch their employes moment's notice to do his bidding. ith the telegraph Mr. Tilden keeps posted e political points of the day and in givsuch advice to his Democratic circles of ids from Maine to Texas as his active ad may from time to time suggest. Mr. A. Dana, who is one of the most frequent isitors to Greystone, finds it necessary to aske considerable use of the wires, and basiel Manning, of The Albany Argus, also appreciates the "governor's friendly tip." A. Dana, who is one of the most frequent office of the Wall street broker who acts ate ornaments in rooms and produce

The Passion for Art Odd ties.

"Do I consider the taste for oddities a healthy one? Not when it is carried as An Inquiring Young Mind Fastens far as it is by those who make it a specialty. I had a customer once whose taste art was ruined by his fancy in this direction. I had placed in my window a very curious old print of Abraham and On account of a slip of the en-Isaac. graver's burin, Abraham's nose was so enormously large as to interfere with the solemn nature of his intentions touching his son. The young man I speak of was fascinated by this picture. I held it at a prohibitory price, \$75. He determined to have the value of the second the second the second the ber skill as a teacher. It was decided that he should attend a private school taught by a to buy the print, and deposited \$25 on should attend a private school, taught by a it, begging me to nold it for him. After a while he took his prize away, and he a while he took his prize away, and he

has been buying things of that kind ever since. "Now, Miss Ray," said Mrs. Mulkittle, when sae presented the boy to the teacher, "I "A man I used to sell old snuff-boxes dates his passion for art oldition to dates his passion for art oddities is easily governed by kind treatment, and I from the time I sold him a large metal think that he will become very much attached bowl, which he still regards as the gem to you and I feel that you will learn to love of his collection. It is a basin about him." eighteen inches in diameter, surrounded eighteen inches in diameter, surrounded by animals who are engaged in swal-lowing each other. 'A whale, with his tail bent upward so as to form a handle, is taking in a crocodile, who in his turn is disposing of a big-headed donkey; the latter animal is making way with a "Oh, I am quite sure," replied Miss Ray, with that nail." gorilla, who is straining every nerve to "Well, I will leave him with you, Miss swallow a struggling goat; and so on, Ray. until we come to a goose who is gob-bling up a snake, who consoles himself "Don't let me hear any bad reports of by hoisting in a frog. A young devil, who forms the other handle, looks on with a grim smile while he displays a "Nome."

most for oddities which included some kind of a battle. He had a funny thing called 'Dwarfs Fighting.' Their idea

of a knock-out was pulling each other

around by the ears, which stretched

error in a manner so characteristic that it will be of interest to every reader: "LAR-AMIE CITY, Wyoming.- My dear Read: Your paper is of such excellence and reliability that I refer to an item contained therein, hoping to correct an error which the Chi-cago Eye has given currency to, viz.: that I would soon unite myself with the aforesaid optic. It is true thas I have sold my stock in The Boomerang, re-China's foreign trade for 1882 was \$160,900,000, of which England's share was \$58,220,000, or, if we add to this the value of the trade with Hongkong, India, the Australian and other British colonies, the total British trade comes to \$157,520,000, quite three-fourths of the whole trade of China. The United the whole trade of China. The United States comes next in order, with a trade of \$16,614,000, while the whole of con-tinental Europe, Russia excepted, is put down for only \$15,900,000. Russiars trade with China amounted to about one-fourth of the last mentioned sum. As to shipping, of the 17,388,852 tooss which entered and cleared the various ports in 1882 there were under the Brit-ish flag as many as 10,814,799 tons, while only 172,371 were French. The Chinese themselves had a total tonnage closed no of ships and junks of 10,383,363 tons. Thus it appears, says The Baltimore Sun, that if France has little to gain by war with China, the British empire has much to lose. all If you don't want anything this year send for Price List and get posted for another season. E.MOODY&SONS,LOCKPORT,N.Y. truly yours, BILL NYE."

Proposed Political Innovation.

Barkis is willin', but the tem would speedily be recognized. One of the principal uses of a congressman has hitherto been the obtaining of small federal of-fices for his "constituents." Under the dawning regime of reform this degrading misuse of representatives will be done away with, and "open constituencies" will be more possi-
