On his last hunt he shot five fine ducks which he could not retrieve. Born in this city, November 16th, 1885, to the wife of Wm. Campbell, a fine robust boy. Mother and infant doing well. The new pilot boat, Gov. Moody, is not a tug, as inferred by an article in the Statesman recently, but only a schooner. Mrs. Robt. Espy, of Shoalwater bay, sister to A. J. Apperson and Mrs. E. B. Fellows of this city, is on a visit to McMinnville. J. S. Flett will live half way to Jones & Co.'s mill this winter. He has a job on his hands to open the road to the new mill site. We acknowledge a very pleasant call from Capt. LaFollett and a chat about our county affairs which is quite beneficial to the times. Miss Clara B. Martin, the artist, has a fine studio at the college, where instructions in all kinds of painting and crayon will be given. The Oregon Railway and Navigation company has increased the facilities for carrying both freight and passengers on the Wallamet river. Bro. G. E. Tompkins, who has served his party with zeal and fidelity for years, finds when it is too late, that a life long service avails him naught. The statement that vandal hands were catching fish in the Wallamet ladder is disputed. It is said that the ladder is no longer in sight. Secretary Manning ought to come to Oregon. He is very partial to red apples, and would not, if he could help it, eat an apple of any other color with his lunch. A Portland street car line is to be the first in the United States to do away with horses, and run their cars with compressed air, the ignemity of a Portland inventor. The Northwest has arrived, wood cuts and all; after so much puffery the dose is nauseating. We quite agree with the remarks of Mr. Sutherland upon this subject. R. W. Lancelfield of Amity called this week. He informs us that their house is unloading an over stock of very desirable clothing. Mention of the goods is made elsewhere. On joint ballot for Senator on Tuesday, Hon. J. H. Mitchell received 24 votes; Hon. Geo. H. Williams 15; balance of republicans 13 scattering. The democrats voted for Mr. Slater. A Polk county exchange says: F. J. Martin, of Sanders & Martin, of McMinnville, is in town this week delivering and receiving orders for their enlarged photographs which never fails to give satisfaction. Our Washington correspondent this week says those who are interested in the tariff question will be much disappointed when they see the documents that have been received in response to Mr. Manning's circular of inquiry. Of those in attendance at the Christian missionary convention we acknowledge; calls from Prof. Stanley, of Monmouth; Hon. T. N. Faulconer, of Sheridan; Rev. J. W. Webb, secretary and I. G. Davidson, treasurer. A senatorial gas passed over McMinnville Tuesday afternoon and evening. It did not equal a Texas cyclone, but made things very lively along the streets, among signs, lumber piles, etc. No damage was done to speak of. Typhoid fever has been almost epidemic at Amity. Among the deaths are Miss Spiller, teacher of the public school, a child of Mrs. Richardson, and a daughter of Rev. Mr. Hubbard. Miss Getchell, and Mr. James Booth are still dangerously ill. The zeal and energy which legislators show in the introduction of bills indicates that the members are generally and collectively endorse the announcement of the governor that matters of vital importance to the people required the call of the special session.

His work recommends itself and charges are very reasonable. You can save letter writing, postage money order fees, time and trouble, by ordering your newspapers and periodicals at publishers prices through C. Gris sen's subscription agency. Jones & Co.'s playful mule from the sawdust heap at Nestucca, has been transferred to McMinnville for the winter. Most every mule in the country can stand on one leg and wave the other three round in as many different directions, but we think this mule is so docile as to be an exception. P. FRANK, M. D., late of Dayton, having associated himself with Dr. H. V. Y. Johnson, is now prepared to attend to all professional calls day or night. Diseases of women and of the rectum a specialty. Eulogies upon the late Senator Warren, were delivered in the state senate chamber Friday afternoon by Senators Hare, Lee and Burch. The testimony that the witnesses bore of the honorable, upright character of the deceased, was a most fitting eulogy upon quiet, unostentatious, honorable endeavor. The remains of Miss Spiller were conveyed from Amity to Eugene via Portland, for burial. LANCEFIELD & Son, Amity, having an overstock of clothing, mens, youths, and boys, and overcoats; have commenced a clearance sale of the same, at actual cost for cash. And in their entire stock will make it an object for any person with cash to call. It is not only wild oats, that is troubling some of our farmers, but other noxious weeds are taking hold of our farms worse than interest bearing mortgages. The French pink, which got such a start near St. Jo, is a weed that must be closely looked after. Threshers carry it from field to field, and it is a dread to the man upon whose land it takes root. We heartily concur with Bro. Baker, who says: This paper is devoted to legitimate and honorable subjects, those that are calculated to make people happier, wiser and wealthier; and if other papers were more manly and dignified they would do the same. Then there would be no prize fights. It is the daily papers that fan all these destructive blazes. They publish anything that will sell a copy "for only a nickel."

OUR SISTER TOWNS.

Sheridan. C. Whitmer's new residence is nearly completed. The sick folks at P. M. Scoggins are much better. Louis Bozley of Nestucca was in town last week. S. Potter has closed his hotel. Mrs. Potter is nearly well. W. A. Graves, druggist, was sick with sore throat last week. Mail is carried from Sheridan to Grand Ronde on horse back. Literary society adjourned on account of protracted meeting. Cyrus Blair and wife have gone on a visit east of the mountains. The street lamps are up and are a great convenience in the dark nights. A. S. Bible has purchased the Ed. Money property in south Sheridan. A whale fifty feet long drifted ashore near Mr. Pollards, Nestucca, last week. The accounts of Dr. W. T. Slater are in the hands of Capt. LaFollett for collection. W. F. Sleppy has rented the Gardner property and will move into town in a few days. R. Jacobson & Co. purchased the Geo. Stephens farm on the Highlands, sold by the administrator last Saturday. Uncle Billy Chapman returned from the coast a few days ago where he had been water bound for some time. Walter Blackburn and Miss Emma Faulconer, daughter of Hon. T. N. Faulconer, were married November 11, 1885, by Rev. Peter Burnett. Mrs. Ajonzo Nowell of the Highlands died on the 9th. She was about sixty years old and highly respected and beloved by all who knew her. H. W. Scott of the Highlands says that he has a second crop of potatoes, beans, peas, radishes and garden sals generally in his garden and growing. The protracted meeting still continues; is largely attended; persons are deeply convicted, and it is believed that much good will be done. Between fifty and sixty have joined the church. Lee Boggs, James Mays, James Fendall and Harry Boggs, are keeping a bachelors hall in the old drug store building and there are nine widows in Sheridan and lots of girls. Why boys! Prof. Wm. Crowhurst delivered a splendid temperance address Friday evening to a small audience. The citizens of Sheridan who did not attend missed a grand display of reasoning, logic and oratory. Hon. Wm. Galloway, Bird and others from Bellevue, were present. They appreciate a good speech. EXTRA star coal oil at the Sheridan drug store. Go to the Sheridan drug store for blue vitriol. Go to Whitmer's at Sheridan, for pumps, pipes, hose hardware, tinware, etc., etc. SCHOOL books, stationery, toilet articles and perfumery at the Sheridan drug store. WHEN at Sheridan call at Whitmer's and he will give you prices on hardware and nails that will surprise you. Do not fail to see that new and well selected stock of guns, revolvers and ammunition at Whitmer's hardware store, Sheridan. DON'T fail to call and see that fine new stock of stoves and tinware of Whitmer's when at Sheridan. Prices to suit the most fastidious. Carlton. The boom has struck Carlton. Carlton has a brand new shoe maker and his name is Smith. He will fix your old boots or make you new ones. We want now a harness maker, a drug store, a hotel, and a new depot. The boys are getting a pair of boxing gloves. Won't there be fun, and bloody noses. Bob and Bill captured a couple of horned wolves in the mountains west of town this week. No deer to be found now, you know. There will be a meeting at North Yamhill on Saturday the 21st at 10 a. m. to devise means, and raise additional bounty for the extermination of wolves and coyotes. Terpsichore presided at Wm. Merchant's on Friday evening last. Quite a number of the young folks of Carlton attended, and report a very enjoyable time. Wm. Enos has grown just two inches since he killed that deer. A nephew of Mrs. Hanna from eastern Oregon, visiting with her a few days last week, has returned to bunch grass. Mrs. Col. Peckham since her return from her visit to Portland has been quite indisposed, but is getting better. The many friends of A. P. Wilson will in the future find him behind the counters in Blackburn & Peckham's store, where he will be pleased to see them, one and all. One night not long since, as in our sleep we were building castles in the air, we imagined that our name was Hawkeye. That we would like to be post master of Carlton, so we conceived a scheme of send a petition signed by about a dozen worthy democrats; to the unsophisticated at Washington, saying that was our wish; but not telling them, of course, that we were a mugyump, or that we were going to take it from one republican house and put it into another, thinking, of course that they would not require certified details. Then the financial part presented itself, but it was not quite so pleasant to contemplate, for we thought that at present we were making about \$400 per year, but if we got to be post master, we could make only about \$100. So to ease our mind, concluded that we could balance our account by saying, by post office, \$100; by official glory, \$300; total, \$400. I then forwarded my petition, and await results, wondering if my dream had anything to do with Hawkeye's not itemizing last week. But plainly speaking; now that Mr. Peckham will soon have a new store, in which to put the post office, the majority of our citizens, of both political parties, prefer to have it remain where it is. EMERT. Lafayette. We wonder if items are as scarce in other localities as here are? Senator Bird came home on Saturday from the legislature and remained over Sunday with his family. W. W. Nelson, the new county

A photographer's visit to Petra, which opens the magazine, is one of the most attractive and unusual articles, in point of illustration, ever printed. Mrs. E. E. Athey, sister of Mrs. D.A. Mrs. Athey has lived in Oregon city a great many years, having the respect of a large circle of friends, and acquaintances who regret her departure. She comes here with a feeling that the opportunities for her children are better here than there. The Harrington Times has evidently discovered some muckbacks in that live little town. It says: "When you hear a man sneering at the local papers because they are not as big, cheap and newsy as other papers, you can safely bet that he does not squander his health to assist in making them better, and that generally the papers have done more for him than he has for them. The man who cannot see the benefits arising to a town from a newspaper has not the sense of an oyster, and he is about as much value to a town as a delinquent tax list." Wheat screenings, or screenings of any kind are among the least desirable of all food for poultry, though often recommended as such by high authorities. At best they are little better than bran, except that they are in more compact form, which is no improvement. They are often infested with mites, insect eggs and fungus spores, which are liable to produce parasitic disease and are rarely free from food seeds which the fowls are wise to reject and leave to infest the fields. They should never be fed to any animal until they have been ground so fine as to destroy all vitality and then they are of uncertain value. Cash is King. BALL'S HEALTH PRESERVING CORSET. Two-thirds of the weakness and ills of female life are directly attributable to the unyielding pressure of the Corset. This evil has been entirely overcome in this Corset by the ELASTIC SECTIONS composed of a series of fine coiled Wire Springs. These springs are warranted to retain their perfect elasticity till the corset is worn out, and, unlike rubber, will not heat the person or decay with age. This Corset yields readily to every respiration and is equally comfortable in any position assumed by the wearer. Will fit perfectly a greater variety of forms than any other. It is the ONLY Corset Pronounced by the Medical Profession not Injurious to the Wearer. See Indorsements of Chicago's Leading Physicians Below. CHICAGO, October 23, 1880. I have examined Ball's Health Preserving Corset and believe that it is in every respect best calculated to preserve the health of the woman who wears it. It does not seem possible for the wearer of such a Corset to be injured by its lacing. It should receive the favorable endorsement of the Physicians who have the opportunity of examining it. JAMES NEVINS HYDE. CHICAGO, October 25, 1880. W. H. BYFORD. CHICAGO, October 13, 1880. I have examined Ball's Health Preserving Corset, and believe it to be the least injurious to the wearer of any Corset I have seen. A. J. BAXTER, M. D. CHICAGO, October 27, 1880. I do not advise any woman to wear a corset, but if she will do so—and she generally will—I advise her to use one of Ball's Health Preserving Corsets, as it is less likely to do her injury than any which I am acquainted. A. REEVES JACKSON. To secure the best results with this Corset, it should not be laced tighter than necessary to produce a snug fit, and should not be open to exceed one and one-half inches in the back. C. E.
