Dallas was the scene Monday night of a robbery that proved highly successful to the robbers at least. When Postmaster U. S. Grant opened up the office to make up the early mail for Salem he made a discovery that made his blood run cold. The safe door stood ajar and a hasty examination revealed the fact that the money strong-hold had been rifled of its contents. It was found that entrance had been gained to the office during the night by removing a pane of glass from the side door. Once inside the building and in the presence of the safe, the robbers had smooth sailing and went about their mission systematically and undisturbed. They had previously supplied themselves with tools from a Dallas blacksmith shop which they had broken into. Then they set themselves about and noiselessly opened the safe. This was accomplished by drilling into the combination. They drilled around the knob of the combination so that with the assistance of a wire they could drop the tumblers and operate the combination and thus open the door. Little trouble was experienced in getting into the safe, where they found \$800 in coin and currency belonging to the postoffice. This they appropriated, together with \$50 belonging to the postmaster, an with a package containing \$800 worth of stamps and a small bundle of stamps en route to the postoffice at Falls City. They took also a book of blank money orders and a blank book of postal notes. They overtook \$5 in the safe and that is about all of value that did escape them. The loss will fall upon the government, as the postmaster is said to have used caution in the protection of the property.

THE LINCOLN CLUB.

The Name Chosen by McMinnville Republicans. Organization. A good representation of republican strength assembled in Wright's hall Wednesday evening to organize a club for campaign work.

On motion of Spencer a committee of three on constitution and by-laws was appointed by the chair, consisting of E. C. Walker, J. A. Campbell and J. C. Gates.

On motion of O. H. Irvine the board of officers was authorized to appoint five delegates to the meeting of republican clubs in Portland, Feb. 6th.

On motion of Spencer club proceeded to elect a sergeant-at-arms. F. M. York was chosen.

On motion of Walker Messrs. Irvine, Magers and Warren were appointed committee to secure a hall for place of meeting.

Speeches were less eloquent than patriotic ones made by Spencer, Walker, Cooper, Irvine, Magers, Buchanan, Warren and Stilwell, on the question of a name for the club. The name "The Lincoln Club of McMinnville" was chosen finally, with the best of feeling.

Aggressive campaign work will be the object. Oregon will be the first state to vote this year. The largest possible majority should be the aim of all republicans. The Lincoln club enters the fray without dimensions, and a spirit of comradery prevails. Its stalwart membership goes forth panoplied with a firm purpose to aid in the restoration of the country to its former prosperity, and in the language of its president, the roll is open to recruits, the only requirement for entrance being the suggestion that the applicant read and renew his faith in the principles of the grand and undying farewell address of the immortal Washington.

The club adjourned to meet at the same place on the evening of Feb. 14th.

COLLEGE NOTES.

College is improving as usual. Every student seems to have enough to do with his studies to keep him out of mischief. Star gazing parties are becoming popular among the amateur astronomers.

Mr. Rohrer was preparing the chapel stage Wednesday. The appearance of the chapel is thus remarkably improved. Mr. Lotter, of Clatsop, visited his son Johnnie last Monday.

The Philistines had a splendid meeting last Saturday. They decided that churches, etc., should not be taxed. The question for debate next Saturday will be: Resolved, That the imitator is of more use to society than the originator.

The preparations for the oratorical contest have been completed. The orations have been handed in to the judges and the college halls are made to reverberate by constant practice of the speakers. The orators seem to have gone in for business. Among the music there will be instrumental duet, Mesdames Wolfenden and Brownson, vocal solo, Prof. Fargo, vocal duet, Misses Pagenkopf and Riley.

CITY LEVY.—At the meeting of the city council last week, a levy of six mills was made for the current year. The division is: Streets, one mill; general purposes, three mills; water, 1 1/2 mills. Some of the council thought six mills would fall short of the needs of the city, but it is believed it will be sufficient if the town doesn't get too rampant for improvements and metropolitan airs. The total taxable property in round numbers is \$756,000.

Two ESCAPES.—Patsy Fleming of Portland and Norman Terry of Carlton, Yamhill county, two boys at the state reform school, escaped from that institution Saturday morning about 6 o'clock. They were in the basement at the time, engaged in filling lamps, and seeing an opportunity to escape, quietly left the premises. They have been numbered among the late at that place for the fifteen months past. They were tracked a short distance southward from the school but it is thought they started northward finally. Officers are on the hunt for them. Later—the boys were captured at Macley, twelve miles east of Salem, and returned to the school on Monday evening. They were taken in by the constable of that district.

An Editor's Recommendation. Mr. C. F. Davis, editor of the Bloomfield, Iowa, Farmer, says: "I can recommend Chamberlain's Cough Remedy to all sufferers with colds and croup. A Kansas Man's Experience. Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I never would get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by S. Howorth & Co.

Superintendent R. B. Fleming, of the state's big stove foundry at the penitentiary expects to resume operations in the manufacture of stoves, etc., and will continue the work two months. By this means 125 of the convicts will be put to work after an idleness of several months.

Mr. Fleming says the demand for the Oregon manufacture of heaters has been better during the past season than heretofore.

END OF JACK HARKNESS.

A Pronounced Native of Erin Killed By the Cars. McMinnville was set agog last Friday by the report when the afternoon passenger arrived that a man had been run over and killed on the tracks about a mile south of town.

Conquer Daniels went at once to the scene, as did a large number of citizens. The man proved to be John Harkness, known only to a few of those who had gathered. His mangled body was a sickening sight. It was lying across the west rail, the train having passed diagonally over the shoulders. The spine was broken in two or three places, the head broken open and brains scattered hither and yon, and the vitals were generally dismembered. Just a little tissue held the head and shoulders to the body, where the wheels had mashed the clothing upon it on the rail.

Under the body, down in the brook, was found a large bottle of "Walnut Hill O. K. Bournion," unopened, but plainly indicating that more of the kind was doubtless the great first cause. The body was gathered up and brought to town, where hundreds of people viewed it.

Inquest was held the following day. W. A. Henderson, W. G. Henderson, Geo. Easterly, D. Walker, Chas. Holman and E. J. Esom sat as jurymen. Joseph Keho, Southern Pacific engineer of train No. 2, testified that he saw the man raise his head when the train was within 15 to 150 feet of him. He immediately shut off steam and reversed, but could not stop before passing over the body. J. L. Stalker, the fireman, also saw the object, and corroborated the testimony of the engineer.

Mrs. Catherine McDuffy, who lives on the Harkness place, saw the man and saw the train strike him. Doug. Walker testified that he knew Harkness ten or twelve years, and saw him in town on that day. H. M. Bond, Chas. Baker and S. C. Force all saw the man in town about noon, and he appeared to them to be intoxicated. In fact, he refused to give any sidewalk to the latter gentleman, and bumped up against him, without saying a word, in front of Mr. Stilwell's residence. A. M. Waddell said that Harkness had been in his employ more or less since '79 and '80, and was in the habit of sporting considerable. He had given him a check for about \$40 the day previous to the accident. On the body was found \$36.90, which covered the expense of a very decent burial.

Harkness was about 40 years of age and a native of Ireland. He had no known relatives and but few acquaintances. The jury found he was dead from being run over, while presumably drunk.

The way she looks troubles the woman who is delicate, run down or overworked. She's hollow-cheeked, dull-eyed, thin and pale, and it worries her. Now, the way to look well is to well. Her way to be well, if you're any such woman, is to faithfully use Dr. Pierce's Favorite Prescription. That is the only medicine that's GUARANTEED to build up woman's strength and to cure woman's ailments. In every "female complaint," irregularity or weakness, and in every unbalanced condition of the female system—if it ever fails to benefit or cure, you have your money back.

CREAMERY MAY OPEN.—L. Cohen & Co. of Portland have written A. J. Apperson to name a date when they may meet the farmers of Yamhill county, and confer with them on the project of operating the McMinnville creamery. Mr. Apperson has named the date as Saturday, February 10th, when all farmers interested should be in town. Mr. Cohen says if he receives sufficient encouragement he will open the creamery, and will expect to pay cash for cream. As the raising of wheat becomes more unprofitable, it would seem as if farmers would take advantage of other industries that promise a little ready cash. Come in, and investigate the scheme.

Krause's Headache Capsules—Warranted. For sale by Rogers Bros., sole agents, McMinnville.

WANTS TO BE CLERK.—John E. Holman authorizes the Reporter to announce that he is a candidate for the office of county clerk, on republican platform and principles. He is a native Yamhiller, and has farmed all his life. Two years ago a great misfortune overtook him in the loss of an arm, which was caught in a feed cutter. Being thus handicapped for farming, the accident first suggested to his mind the propriety of seeking for an office. A great many friends think his capabilities quite sufficient for the place. He is the first man to announce his candidacy in a business-like way, and now that the ice is broken there will doubtless be others who will come before the public, either in their own behalf or through their friends.

A Thoughtful Person

Teachers' Meeting.

Another very enthusiastic, enjoyable and instructive meeting of the teachers of Yamhill county was held at Carlton on January 27th. More than 25 teachers were present while the house was crowded with patrons and pupils of the public schools.

The exercises consisted of recitations, songs, essays, and discussions along the line of school work. Under the subject of discipline a spirited discussion was called out in which two of our prominent teachers displayed quite a fund of native wit and humor which was highly enjoyed by the audience. The moon hour was spent in pleasant social converse, the teachers being entertained as at North Yamhill in a sumptuous manner at the school building.

A resolution, thanking the citizens of Carlton and vicinity for the splendid programme rendered and the kind courtesies reception and generous hospitality extended the association was adopted. We are pleased to note as guests of the association Miss Anne Myers, of Pacific University, Forest Grove, also Superintendent of Washington county, from whom we received hearty congratulations for the talent, interest and zeal manifested by the teachers and patrons present. A general feeling of harmony and mutual interest prevailed and all were unanimous in pronouncing the meeting a grand success in advancing the interests of the public schools of the county. The next meeting will be held at Dundee, on Saturday, February 24. We hope this will be another grand rally.

A New Cure for Rheumatism.

Joseph V. Dory, of Warsaw, Ill., was troubled with rheumatism and tried a number of different remedies, but says none of them seemed to him any good; but finally he got hold of one that speedily cured him. He was much pleased with it, and felt sure that others similarly afflicted would like to know what the cure was that cured him. He has it for the benefit of the public that it is called Chamberlain's Pain Balm. For sale by S. Howorth & Co.

The Telephone Monopoly.

The monopoly of the telephone business, due to the patent laws, ended on January 30. On that day the patent on the receiver's expired. The original Bell patent on the telephone expired on March 7 of last year, and now that the other patent has expired, both receiver and transmitter will be free to the public. Various manufacturers of electrical apparatus are already at work manufacturing telephones, and now, for the first time it will be possible to purchase a perfect instrument.

The immediate result will be a very large extension of the use of the telephone in villages and small towns, and the erection of private telephone lines. A pair of instruments will not cost over \$35 and thousands of persons will avail themselves of the opportunity to put up private wires. The Bell people will probably continue to control the exchanges in cities for a time, but rates will have to come down, or competing exchanges will be established.

Muscle and Vigor—A Difference.

Many muscular men succumb to fatigues borne with ease by persons far their inferiors in physical strength. Muscle does not imply vigor. In fact, it is not difficult of proof that athletes do not live as long nor enjoy as good health as the average individual who is vigorous—that is to say, whose digestion and sleep are unimpaired, whose nerves are tranquil, and who has no organic tendency to disease. These requisites of vigor are conferred upon those inherently weak, no less than upon those debilitated through wasting disease, by a thorough, persistent course of Hostetter's Stomach Bitters, the leading national tonic, indorsed and recommended by physicians of eminence. It will not enfeeble you with the muscle of a Corbett, but it will infuse energy into your system, and renew the active and healthful performance of its functions. It averts and cures malarial, rheumatic and kidney complaints, and overcomes dyspepsia, constipation, liver trouble and nervousness.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by Druggists, 75c.
