ADVERTISING RATES. Reading notices in local columns...

FRIDAY, FEB. 16, 1894.

The county court of Marion county has ordered a \$5000 rock-crusher.

SOME of the papers have mentioned Fulton of Astoria in connection with the office of governor.

THE Times is a defender of the income tax, and it gives the whole argument away trying to say something spiteful.

A KANSAS judge has stirred up the treasury officials at Washington by issuing naturalization papers to a Chinaman.

THE Wilson bill is not a democratic measure. From top to bottom it outrages democratic convictions and betrays the democratic pledge.

WHAT BECAME OF THE SURPLUS?

The democrats are endeavoring to obscure their own lack of ability to properly conduct national finances by revamping the old lie that the republicans "squandered the surplus" during the Harrison administration.

Here are the official figures of the bond purchases of the Harrison administration:

the cold facts of the case: In September, 1891, the 4 per cent bonds were due to the amount of \$250,000,000. The republican party believes in paying debts, and it prepared to pay this great sum when it matured.

Hence, when any democrat gabbles of "squandering the surplus," he either displays his dense ignorance, or is maliciously lying for partisan advantage.

Whenever we have left open an opportunity to get possession of an office contrary to the true and strong will of the majority, there you will find that party pressing and exercising an ingenuity which even the inventive genius of the American people is inefficient to baffle.
