The literary society in the Cook school building has changed its name from "Facile Princess" to "High School" society. The old name sent too many people to the dictionary. They had a very interesting meeting last week. Why suffer from dyspepsia and headache when Simmons Liver Regulator will cure you? Easter this year comes on the 25th of March, earlier than it has been before for many years. In the year 1863 Easter Sunday was on the 23rd of March, and that was the earliest for more than fifty years before. It can never be earlier than early once in a hundred years. This indicates an early spring. Having made arrangements with some of the leading music publishers, I will get as soon as issued, the latest vocal and instrumental pieces. One night recently dogs made a descent upon Ben Sparks' sheepfold and destroyed quite a number of his young lambs. After satiating their appetites for mutton, they proceeded, canine like, to bury the remnant. A somewhat remarkable incident happened in the case of one of the lambs, which was buried alive. Evidently it had been stoned in the capture and had submitted to the process of interment. When found next morning and released by removing the impression of dirt, it ran off and joined its dam. It never failed to cure dyspepsia and liver complaint. Take Simmons Liver Regulator. There are a few families in town whose condition is sadly in need of alleviation by charity. The writer knows of a good-sized family to whom cast-off garments that hang in a great many wardrobes and woodchests would come as a great boon at this time. The same family has gone without bread a good share of the winter. Let charitably disposed people confer with the poor committee, and see to it that no one suffers from cold or hunger. Members of the Methodist church have been doing good work in this line. Prejudice and ignorance have given rise to Simmons Liver Regulator. It stood the test. The letter which we published this week, written by Capt. Stillwell of Tillamook, giving an account of a battle with Indians, was designed by him to be read before the meeting of veterans held here on the 22d. Capt. Stillwell was for many years a resident of this county and is known to all the older citizens. A company of about 400 men was raised here in the valley to go to eastern Oregon and subdue the hostile tribes that had massacred the Whitman family, missionaries, residing at The Dalles, and were bent upon depredations in other directions. It was a bold undertaking for a little band to go so far into a country that was literally lousy with redskins. But they accomplished their purpose, and the settlement of Oregon continued.

CENTRAL COMMITTEE MEETING.—The county republican central committee met at the court house Saturday, present to call, to appoint the time and make arrangements for the holding of a convention to send delegates to the state and congressional conventions. The wisest counsel also seemed to prevail. When the question arose as to the basis of representation in the convention there were some who favored a large convention and some a small one, but the idea that prevailed was to make it as far as possible a body representative of the people, and 149 delegates was decided upon. On the question as to whether the call should be issued for a convention to choose a set of delegates to represent the county at the state and congressional conventions, or whether it should be called for the purpose of choosing two sets of delegates, wisdom prevailed again, by deciding to merely call a county convention and allow it to decide whether there shall be one or two sets of delegates. It cured me in three days. I am all right to-day, and would insist on every one who is afflicted with that terrible disease to use Chamberlain's Pain Balm and get well at once." 50 cent bottles for sale by S. Howorth & Co.

The Yamhill County Local Teachers' Institute held another of its interesting meetings at Dundee Saturday, Feb. 23th, 1894. Exercises were opened with a song by audience entitled "Labor On," followed by prayer by President Newlin of Pacific college, Newberg, after which Mr. G. A. Prentiss, principal of the public schools of Dundee, made us all feel quite at home by a few well-chosen and appropriate words of welcome. The regular work of the institute was then taken up as follows: The subject of geography was introduced by Mr. Frank Deerpah and discussed by the members present. This was followed by a very pleasing recitation by little Lila Livingsood; Mr. Prentiss then gave an exhibition of his manner of conducting classes, which possessed some new and very commendable methods. Following this a beautiful instrumental solo was given by Miss Prentiss, daughter of the principal. The meeting then adjourned for dinner. The afternoon session opened with the song "America," next a recitation by Master Asa Ryan, followed by a hatched exercise by a class of ten little girls, which was followed by a solo, "Memories of Long Ago," by Mrs. Robertson. A class exercise in history was then conducted by Mrs. Yannie Martin of the Newberg public schools, under the topic "How I Teach History." This is one of those things which is best appreciated when seen. Suffice it to say, it received the hearty commendation of all present. After discussion of question box the subject of arithmetical progression was taken up, the discussion of which developed the fact that many of our teachers believe in going to the root of all these scientific principles and knowing the reasons. The next subject, "Language for Beginners," was introduced by Miss Gertrude Fount of McMinnville, followed by a lively discussion of methods of presenting it in primary grades. Though Dundee is a small town and rather difficult to reach from many parts of the county, yet the interest of the teachers in the work of their profession was again fully demonstrated by the unusually good attendance and earnest interest manifested. The good people of this young and thriving town also wish it understood that they are not to be outdone either for interest in school work or hospitality to the teachers, as was clearly manifested by their presence and bounding dinner provided at the school building for the occasion. The next meeting will be held at Newberg on Saturday, March 31st, in the Pacific college building. Hoping to see a large representation of teachers there, I am, very truly, J. B. STILLWELL, Supt. A Little Deceiver. It cannot be called a little fraud, as it is of too great value and is not to be blamed for being abused. Vick's new branching aster when cut resembles the crysanthemum so closely that only experts can tell the difference, and as it comes in flower six weeks before the "mums," and at a time when flowers are scarce, it is a great temptation to florists to sell these asters for "mums." The branching aster can be easily grown out doors, and the seeds cost only 25 cents per packet, so that every person who has a foot of ground can enjoy a grand treat for almost nothing. If you want honest goods send 10 cents to James Vick's Sons, Rochester, N. Y., for Floral Guide; it costs nothing, as the 10 cents may be deducted from first order.
