F. Fuller, soldiering with the Hawaiian army. It would be worth while for the ladies to bear in mind that if they take a gentle course of Ayer's Sarsaparilla in the spring, they will have no trouble with "prickly heat," "hives," "sties," "boils," or "black heads," when summer comes. Prevention is better than cure. Lincoln club has decided to hold a public rally on the evening of convention day, the 25th. Good speakers will be secured, and delegates from outlying precincts are requested to come prepared to stay over. Mrs. Florence Green, daughter of R. A. Stewart, of this city, died suddenly on Tuesday afternoon of the liver. She was married to Thos. Green three weeks before her death and was 21 years of age. Burial was made at West Chehalis on Thursday. Miss Bertha Simpson went to Portland last Saturday to spend a few weeks with her sister. Don't lay awake at night. Take Simmons Liver Regulator and secure restful sleep. Another supper and social, with literary and musical program, will be given by the Woodmen at their hall next Monday evening. Many rise in the morning with a headache and no inclination for breakfast. This is due to torpidity of the liver and a deranged condition of the stomach. To restore healthy action to these organs, nothing is so efficacious as an occasional dose of Ayer's Pills. A number of Workmen are coming over from Lafayette to visit Charity lodge of this place tonight, and partake of supper together. Dependancy, caused by a diseased liver, can be avoided by taking Simmons Liver Regulator. Beech Walker has changed his residence to the Graves place, near the river bridge. Take Simmons Liver Regulator after your dinner. It prevents dyspepsia and indigestion. Mr. and Mrs. Orville Hodson and daughter Edna, of McMinnville, spent Sunday with Mr. and Mrs. C. D. Chilcott, whom she had not seen for many years, visited her during last week. We notice our friend Doug, McDonald again doing duty behind the counters of the First National Bank. His sojourn in southern California manifestly agreed with him. He arrived home Friday evening. If a consumptive can stand sea air it will benefit him. Just so with regard to ladies riding bicycles. And if they can stand any kind of bicycle more than another it is the light weight and easy running wheels sold by Unruh. When the difficulties of learning are mastered, few can resist the enthusiasm which at once pervades them, and riding "follows as the night day," and improved physical condition results.

The Yamhill delegation stood solidly for Galloway. Clifford Walker spent Sunday with his grandparents at McCoy, returning Tuesday afternoon. Why suffer with sick headache and biliousness when Simmons Liver Regulator will cure you. The supreme court has affirmed the decision of the lower court in the case of Brown vs. Gee. The Yamhill county fruit growers seem to be taking hold of the matter of organizing a cooperative fruit growers' union in the proper spirit. The fruit growers must organize not only in Yamhill, but in every other fruit growing county in the state before they can even hope to compete on equal terms with the organized and experienced growers of California.—Rural Northwest. Upon the petition of twenty-seven law students of the University of Oregon, the supreme court has fixed Thursday, May 31, 1894, 1 o'clock p. m., at the court room in the capitol, as the time and place for the examination of the petitioners, and such other qualified applicants for admission to the bar as may then present themselves, as to their proficiency in knowledge of the law.—Statesman. Investigation shows the way for human progress. Rule 15, which prevented the admission of patent medicines at the world's fair, caused an investigation of all the blood-purifiers presented for exhibition purposes. The result of this examination by scientific men, proved that Ayer's Sarsaparilla was the only remedy of the kind entitled to the confidence of the committee, and worthy of their endorsement. ANKOR DAY EXERCISES—Arlor day was observed by the McMinnville public schools in a manner befitting the occasion and creditable to their spirit of enterprise. At the Cook building the rooms in charge of Prof. Baker and Mrs. Mathews united in a program and those under Miss Woods and Miss Cook did the same. The exercises consisted of recitations, declamations and songs, all of which were admirably rendered. The weather was not propitious for outdoor exercises, so arrangements were made to make the more elaborate for those indoors. The rooms were made rich in arboreal decoration, and flowers in profusion shed their light and fragrance everywhere. One of the unique features of the occasion was a forest of native trees arranged in one corner of the Prof's room, in the shade and in the branches of which were to be seen almost every manner of beast and bird known to Oregon natural history, which had been procured from local taxidermists. A part of the program highly appreciated was the crowning of the May queen by pupils from Mrs. Mathews' room. A number of guests witnessed the exercises and all were highly pleased. A brief address by Director Chas. Grisen, and a talk on horticulture by Judge Galloway lent variety to the exercises. While this was going on, the pupils of the Columbian school were observing Arlor day by carrying forward a program of their own. They had the rooms profusely decorated, and there was no lack of literary and musical entertainment. Four trees were planted by the Columbians. SOME ARE CANDIDATES—Before another issue of the Reporter the representatives will have completed their equipment for the campaign by the selection of a local ticket. Never was a time when so little could be said by way of prognosis just on the eve of a nominating convention as to the probable outcome. Never was a time when the people manifested deeper or more unselfish interest, the doctrine of nearly every voter being that the person for any given office who brings the guarantee of competent, faithful and honest service and can probably command the strongest vote at the polls, is the one to nominate. Personal choices apparently for less than in some former years. A great many persons have been talked about in connection with the several offices. For the legislative ticket Hon. P. G. Gates, J. E. Magers, Lee Laughlin, Henry Lamson, J. F. Calbreath, E. H. Woodward, W. B. David, Jesse Edwards and W. L. Warren have been more or less canvassed. For county judge, Lee Laughlin, J. E. Magers, S. R. Baxter, Thomas Perry, S. Brutscher, D. B. Kingery, A. D. Rannels, J. C. Cooper, and O. H. Irvine present an array of material from which a satisfactory choice ought to come. For county clerk we hear of M. U. Gardner, A. M. Sanders, C. W. Talmg, Wm. Henderson, John Holman, A. E. McKern and D. V. Olds. For recorder there are Wyatt Harris, W. B. Turner, Link Parker, J. O. Rogers, C. H. McKinney, and John Watt. For sheriff, Roswell Conner, J. C. Gates, Watt Henderson, G. M. Allen, Wm. Clemens, L. J. Fletcher, Hamilton and S. R. Buell. For treasurer John Pennington and D. M. Caldwell will be in the race. For county superintendent J. B. Stilwell, J. A. Buchanan and S. S. Duncan will probably make a three-cornered test. No aspirants for the surveyor's office have been heard of. Some of the persons named in the foregoing are candidates in the fall session of the world. Others are not. We have aimed merely to give a list of those known to be such and those most prominently spoken of in public.

There will be an entertainment in the college chapel tonight. The chief feature of the program will be declamations by the seniors. Probably this will be the last entertainment before commencement. The delegates who went from McMinnville college to the state Y. W. C. A. convention which was held in Salem the 13th, 14th and 15th inst., returned Monday. A splendid time was reported. Those from McMinnville were Mesdames Brownson and Wolfenden, Misses Millon, Lynch, Bryant, Davis and Latrouette. Miss Million gave the response to address of welcome. A new walk has been built across the campus east of the college. Miss Laura Myers, 90, of Seio, visited with her alma mater Wednesday. Miss Myers is one of the successful "school marm's" of the state. Miss Ella Carey, a former college student of McMinnville has returned to complete her course. Miss Carey will graduate this year. The seniors gladly welcome her to their ranks. The Philatelists held an interesting meeting last Saturday, and the usual program will be given this Saturday at 7:30 p. m. It is probable that the society will soon adjourn for the remainder of the year. The college executive committee held a meeting last week and made out the order of commencement exercises. My wife was confined to her bed for over two months with a very severe attack of rheumatism. The eyeballs of the sufferer assume a saffron hue, there is dull pain in the region of the organ affected, the tongue is coated, breath sour, sick headaches usually but not always occur, and there is sometimes dizziness on arising from a sitting posture. Constipation and dyspepsia are also attendants of this very common ailment, always in its aggravated form, liable to breed abscesses of the liver, which are very dangerous. Hostetter's Stomach Bitters wholly eradicates it, as well as the troubles complicated with it and which it originates.
