After a contest of nearly twenty years the women of Ohio have, by the action of the legislature, been granted the right to vote for school officers and on all school questions.

The Galveston News strikes a great truth when it says: "The democratic party had better die and blow away than to keep within its ranks and nurse into vigorous life the insidious spirit of communism and anarchy."

DEMOCRATIC senators seem to think they have to pass the Wilson bill in some form, or the party will die. They seem to overlook the plain fact that commensurate national prosperity died when the Wilson bill was introduced.

THE democratic congress does not welcome the Coxeyites with the warm, hospitable greeting which characterized its greeting of the representatives of the sugar trust. The stock of the Coxeyites is not quoted, and has no financial value.

THERE is only one sure and reasonable way to restore good times. Restore the conditions upon which they existed. Remove the prospect of ruinous tariff revision and repeal of reciprocity laws, and labor will find employment and the wail of distress cease to be heard.

A VOTE for the republican ticket in Oregon will be registered in Washington as a vote against the Wilson bill. A vote for the democratic ticket will be counted for free wool, free lumber, free prunes and hops, and a tax on sugar, rice, tobacco and manufactured goods.

AN exchange making an attack on Lord says he cannot expect to get the Roman Catholic vote. Why bless your heart, no, not so long as a member of that faith is the opposing candidate.

GOVERNOR PENNOYER in his speeches is attacking the republican legislature for its extravagance in making appropriations. He would have his hearers believe that the legislature alone is responsible for the exorbitant expenditures which have characterized the governor's administration.

READERS of the Inter-Ocean will be glad to see "A Bystander's Notes" resumed in this paper. The author, Albion W. Tourgee, is one of the foremost political writers of America.

THE Atlanta Constitution, looking at the administration and congress, honestly says: "We see how one victory has wrought more damage than thirty years of defeat."

A DEMOCRATIC organ says hard times are periodic, somewhat like seventeen-year locusts. Well, yes; that's so, and by a singular coincidence the democratic party comes to the surface a little ahead of the hard times, just as the grasses crawl out of the ground before the swarms of locusts appear.

GERMANY has recently completed a commercial treaty with Russia that smacks loudly of reciprocity. The idea was undoubtedly borrowed from America. The funny thing about it is that Harper's Weekly and other papers that denounce the policy at home, refer to the action of Germany as evidence of remarkable wisdom and statesmanship on the part of the emperor.

TALKING about free and unlimited coinage of silver, as a measure calculated to benefit the poor man, probably no more colossal plan could be devised for making "the rich richer." Poor men do not own the silver bullion nor even the earth where it is digged.

THE governor of Oregon, the inimitable Pennoyer, harangued the people of this city in the opera house Wednesday evening. He had a large audience, many people being attracted by announcement that a person of so great note would address them on the political issues of the day.

GOVERNOR PENNOYER slashes at legislative extravagance, the corrupt Portland rings, etc., in his windy speeches, are comparable to nothing except Harvey Scott's democratic editorials in the Evening Telegram. There are not more than one or two states passed by the last legislature in which the governor was not a full partner. The mortgage tax repeal law and the \$100,000 jail appropriation were by his special recommendation.

needed, and the miners and operators are feeling the effects. It is only another illustration, if any were needed, of the fact that there is an interdependence of all branches of human industry, and one can not suffer without others feeling the effects.

FOR GOVERNOR OF OREGON.

Judge William P. Lord, who has just received the republican nomination for governor of Oregon, is well remembered in this state. He is descended from one of the old Delaware families, and graduated from Fairfield college, N. Y., in 1869, with the highest honors of his class.

While Mr. T. J. Richey, of Altam, Mo., was traveling in Kansas he was taken violently ill with cholera morbus. He called at a drugstore to get some medicine, and the druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy.

FROM THE COUNTY PRESS.

Dr. R. H. Barber of Portland has located in Sheridan and formed a co-partnership with Dr. W. Tyler Smith. Dr. Barber is a graduate of the Edinburgh Medical College, Scotland.

The Southern Pacific has begun to lay standard gauge rails on their road from Portland to Sheridan. A car load of rails are expected at Ballston to-day.

The prohibitionsists of this county will run a campaign paper, of four issues. Four pages—three columns to the page.

On Monday eve, May 21, a Democratic medal contest will take place in Dayton. The class is composed of eight young ladies, all good speakers.

It is an unusual occurrence to hear a band of music a distance of ten or eleven miles but Frank Jones east of town, and Mr. Wilson on the mountain, say they could hear the bands playing at the Old Fellows' celebration at Dayton on Thursday of last week very plainly.

WHERE HE FOUND HIS NAME.

Gentlemanly Dick, the Bus Driver Who Defended the Police. "Gentlemanly Dick he was called," and the speaker took his pipe out of his mouth and glanced around the waiting room where he and two comrades were sitting watching for the night express.

"Well, you see, he ester drive for the Brown House. Drove their best bus for eight years, and he allus tipped his hat to the passengers. Some of them he used to call 'mister,' and they'd say some pleasant thing now and then to make a feller feel good.

"All of a sudden one of them fellers let out a string of oaths as long as my arm." And the speaker held up a good brown specimen for illustration.

THE MINERS' STRIKE.

The great coal strike now on, differs from all other contests of the sort in that it is for a readjustment of the price for mining between different coal fields. In some—notably the great Hocking valley coal fields of southern Ohio—the miners do not get living wages nor can the operators make any money.

Then the strike can be settled on a fair and equitable basis; but there can come no real prosperity to the miners until there is a general resumption of business. So long as there is not enough demand to require the work of the normal number of miners, a part of them must go without work, or else they take turn and turn about, each man getting a few days' work per week.

As Friday an Antisocial Day? There are some persons who believe that death and destruction stalk abroad on Friday, and who have any number of facts at hand to prove their position.

by sympathetic heart trouble, and Hood's Sarsaparilla has done me very much good. We have also given it to the children for impure blood and eruptions with very good results.

A POINT FOR TRAVELERS.

While Mr. T. J. Richey, of Altam, Mo., was traveling in Kansas he was taken violently ill with cholera morbus. He called at a drugstore to get some medicine, and the druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy.

WHY CHINAMEN CHANGE SIGNS.

A Washington street Chinaman changed his sign the other day, name and all. One of his customers, after the sign had been changed, stopped in to see if a new Chinaman had taken possession of the place.

"What did you change the name on your sign for?" was asked of him. "Oh, that nothing. Only sign name. That's all."

"Oh, see if I sell place, can't sell place. See? Any name good sign. That's all."

HEARD ON THE CANALS.

A little West Somerville girl was punished one day for something she had done which she was told not to do.

"You are not afraid to die, are you?" asked the weeping watcher by the bedside. "No," whispered the chronic kicker, "but it does worry me to think that I shall soon be with the silent majority, when all of my life I have so enjoyed being in the noisy minority."

For years I have been troubled with indigestion, accompanied by sympathetic heart trouble, and Hood's Sarsaparilla has done me very much good."

"Thanks, old fellow. I say, boy, three cheers for Gentlemenly Dick." And they were given with a hearty will. Then one after another got up and snatched the express. Hope she's looking for this here town."
