

SUN INSURANCE COMPANY. OLDEST PURELY FIRE OFFICE IN THE WORLD. RHODES & RHODES, Agents, PORTLAND, ORE.

LOCAL NEWS.

Hot peanuts every day at Kuns' bakery. Walter Link is visiting his sisters in Eugene. Elsie Wright was in Portland on business on Monday. Forty-two Newberg people left for the coast in one day. Am. Shadden is building an addition to his city residence. Van Brown and Will Housh with their families are over at Tillamook. You will seldom need a doctor if you have Simmons Liver Regulator handy. A. H. Pape, of West Chehalis, was transacting business in the city Tuesday. The families of C. H. Fleming and Wm. Poole will go the Meadows next week. Mrs. J. B. Gardner suffered a slight hemorrhage of the lungs last week but is improving. Mrs. M. McKinney, of Ilwaco, Wash., is here on a visit to her son, C. H. McKinney. If you really want fine photos with proper lighting go to Hogg; he is not turning out low grade trash. J. W. Hobbs and F. E. Rogers with their families have set August 23 as their Nativity date. Simmons Liver Regulator surely cures headache, indigestion and all disorders of the liver. Mr. and Mrs. Will Logan will go to Netarts next week. Miss Woods, of Dallas will accompany them. Accidental insurance men of Hastings, Neb., are canvassing the town, and may organize a local secret order. The Union Pacific is again in running order out of Portland. C. A. Wallace is preparing to now sell tickets for the east. Flint Martin and family, accompanied by Mrs. Parker and Mrs. Mathison, left Monday for a long stay at Netarts. I suffered from biliousness, indigestion, etc. Simmons Liver Regulator cured after doctors failed.—W. D. Bird. Parties running thrasher wagons should call at Walker's meat market for special rates on meat. 29-3 Jim Sharp and Wirt Gardner returned from the coast Tuesday. They will carry a hot brown tan for a week or two. Morgan Baker, an attorney of Seattle, and family are visiting at Granville Baker's, arriving Tuesday evening. To think "nothing ails you," is a symptom of dyspepsia. Take Simmons Liver Regulator. The ladies of the Christian church will serve ice-cream and cake Wednesday night, August 15th, 1894. Just now a man could run a newspaper at Netarts or in the mountains easier than he can at home. A great percentage of the people is absent. See notice of teachers' examination for certificates, to begin August 8th. The new examining board is composed of the superintendent, Mrs. Stillwell and Prof. E. Northrup. The mountain blackberries will be good and ripe about August 1st. Rumor says a great many families are already in camp at Jones' mill ready for the onslaught. Merle Nelson must have an extraordinary breed of hens; at least one of them is a hard worker in hot weather. She enabled Merle to place upon our table an egg measuring 6x7 3/4 inches. Don't suffer from dyspepsia. Take Simmons Liver Regulator. It always cures. It is the testimony of most people that Will Kuns makes the best ice cream in town. He is also an artist on soda water. Choicest confectionery and fruits always on hand in season. Mr. and Mrs. J. P. Irvine and young daughter went out to Newport Wednesday, to remain about five weeks. Clarence is running the business here and Jesse has charge at Independence. Mrs. M. L. Dorris left here today (Thursday) for Albany where she will join her husband's people and go into the Cascades for several weeks' vacation. Of course M. L.'s temporary widowhood will be awful lonesome to him—Independence Enterprise. To EXCHANGE—Some desirable and improved Portland property to exchange for farming lands in Yamhill or Washington counties. Address, Paul A. Osanne, box 710, Portland, Oregon, or Rhodes & Rhodes, McMinnville. The home ball players defeated Independence the fourth time Sunday. Score was 21 to 0. A number of bicyclists went out to that town Saturday to see a race that didn't materialize. The town advertised to award \$120 worth of medals, but it was more money than they could raise. Will Kuns can take a few more contracts for supplying thrasher wagons with bread. Those who wish to be supplied should get in early, or they may get left. A. A. Unruh has in prospect a most delightful outing. He expects nine friends from Valparaiso, Ind., about September 1st, to accompany him on a two months' hunt in the Calapoos mountains. They will go overland, and Marion Rowland, who is familiar with the country, will go along as guide. A complete set semi-porcelain dishes, consisting of 115 pieces, for \$12, or any number of pieces in proportion. Also five other patterns to select from at prices that defy competition. Call and see them, we take pride in showing them whether you buy or not. MILLAR & COOK. Tuesday was a boom day for Meadow Lake. The boys' brigade of the Christian church—a hayrack load of 'em—went under the surveillance of Rev. Denton. Mrs. O. P. Coshaw, Mrs. J. G. Eckman and Mrs. Will Kratz and their children also struck camp at that place on that day. Mr. E. C. Walker and family, joined by McCoy relatives, will go up today.

Go to Dr. G. S. Wright for fine dental work. Hon. O. N. Denny was in the city Wednesday. R. Jacobson and family left yesterday for Newport. Henry Sims has returned from southern Oregon. Ex-Sheriff Warren and family are in the mountains. Mr. and Mrs. T. A. White will camp on the Santiam next week. Jerome Derby did the first threshing of the season on a field of barley yesterday. Mrs. Chas. Griesen, Mrs. M. J. Clark and Mrs. Mollie Allen went to Jones' mill Wednesday. Mrs. W. W. Easterbrook is up from Oregon City on a visit to her parents, Sheriff Henderson and wife. W. B. Gilson's family will move down from Tacoma next week. Mr. G. has prepared a very pleasant home for them. C. D. McDuffie returned last week from four days stay in California. We understand he will take his family to that state. Rev. Thompson preached a very interesting introductory sermon Sunday morning. His church has a good prospect ahead of it. Judge Magers will go to Newport about the middle of August. He is of the opinion that September is the most enjoyable month at the coast. Men are offering to saw wood at 60 cents per cord in Dallas. McMinistry has a sawyer who gets all he can do at \$1 per cord, and backs two steam saws. A government surveying crew in charge of F. H. Sharp were in the city this week, on their way over the mountains to survey a township in Tillamook county. Hopraisers held a convention at North Yamhill last Saturday to discuss prices. It was decided to pay 80 cents per 100 pounds for picking, and \$1 per day for polepilers. Dr. J. H. Nelson and wife returned from Ashland Tuesday, being called back by the serious illness of Mr. Nelson's father, whose condition does not materially improve. People generally seem to possess the happy faculty of adjusting a trip to the coast with a grassed pocket book. With careful management someone might make something selling the secret. Some farmers begin harvest this week, but it is the very earliest. Next week they will be fairly in it. New wheat will not contract above 40 cents, and it is very doubtful if it reaches that figure. A change of proprietors of cigar factory No. 13 is in prospect. It is not yet definitely settled whether Carlin or Griffith will succeed to the business. Elsie Wright holds a bill of sale for Griffith's interest. Prof. J. A. Buchanan and family returned from their visit to southern Oregon Wednesday. The professor did not make his contemplated visit to the great cave in Josephine county, owing to the hard journey necessary to reach it. J. P. Lowe, a watchmaker and jeweler from Vancouver, was in the city yesterday. He has decided to locate here, and carries with him a number of testimonials of his ability from Vancouver patrons. He will quarter with C. Griesen. Capturing crawfish from the Yamhill has developed into quite an industry. Nets are set at night and good hauls obtained in the morning. Ready sale for the catch is found in Portland at 15 cents a dozen. The business has been exceedingly in it in past years, but never to the extent it is this year. The attendance and patronage at the ice cream social at F. E. Rogers' residence Wednesday evening by the ladies of the C. P. was remarkable considering the cool weather. Bean soup or hot mush and milk would have been more in keeping, but by maintaining a brisk bonfire the chilling effect of the cream was soon counteracted. Geo. Kutch had an upset on his way to the coast. He was accompanied by several ladies. All jumped when the wagon went over except Mrs. Kutch, who was driving, and she sustained slight injuries by the fall. George was making a cigarette at the time, and the boys are telling on him that he finished making the cigarette before he pulled the load together again. Mrs. Reasoner and Mrs. Simonds, of Whatcom, Wash., arrived last Friday on a visit to their parents, Mr. and Mrs. O. H. Adams. They are two daughters. One visited here three years ago and the other five. They came as a surprise to their parents, and Mr. Adams was so overjoyed when he met them that he was speechless for about five minutes. They will remain a couple of months. The Rural Northwest reports Yamhill's acreage of prunes 2,392, number of growers 124, and number of evaporators 15. She thinks the average of cured fruit should be 1,000 pounds to the acre, which would give us a total product of 325,000 pounds. Reports covering two-thirds of the prune district of the state give the total number of growers 2,400; total acreage 25,000, and number of evaporators at 175. Dr. Holt Nelson, the dentist, who came here from McMinnville, Yamhill county, several months ago and who has been associated in practice with Dr. A. C. Caldwell since, has been summoned home by the serious illness of his father who has been poorly for some time and requires his son's presence. Dr. Nelson expects to leave with his wife today for McMinnville. They were just getting thoroughly settled and satisfied with Ashland and regret that they have to give up their residence here—Ashland Tidings. M. U. Gortner, the real estate rustler, was over to Tillamook last week. He reports that that town now has a population of about 100. Mrs. Cary May, the superintendent of the building, is erecting a three-story college building that will be a credit to the place. The town was lively with pleasure seekers. Mr. Gortner says the important industry at Tillamook is dairying. He stopped with a farmer who was milking 15 head of cows, and others milk 30 or more. There are two butter and cheese factories producing from 800 to 1,000 pounds of cheese and as much butter daily, and the farmers did not seem to complain of hard times.

CROP-WEATHER BULLETIN. For Week Ending Monday, July 23. The temperature of western Oregon has remained nearly stationary, with a mean of about 68 degrees, during the past week. The maximum temperature has ranged from 70 to 80 degrees and the minimum from 50 to 60 degrees. A few widely distributed and light showers fell the morning of the 19th, from a thunder storm, principally in the northern portion of the Willamette valley. The mornings to 10 o'clock have been cloudy while the remainder of the day has been clear. The weather has been very favorable to farming operations. The hay crop has been practically secured. It is of good quality and as a rule very heavy. In the coast counties some hay is yet in progress. A few headers and binders started last week on the fall sown wheat, but this week will see the fall wheat harvest in full blast. The wheat is turning out very well, the general impression is that the wheat crops did no injury to the winter wheat. In Linn county the opinion prevails over the wheat crop will not be such a large one, though the general average will be maintained; the wheat aphid has done some damage to the wheat. The spring sown grain would be benefited by rain, though it has a good stand and usually a good color. Winter oats are being cut. As a rule the oats are in good condition. The hops have generally a good growth and few lice are so far observable. Many new yards were put out in the spring and are doing well. The cherries and strawberries are now practically over. Raspberries and blackberries are ripening rapidly. The potato crop will be a large one. They are generally in fine condition, though a few localities report a blight. A few varieties of plums are ripening. The codlin moth has made its appearance on apple trees, but with proper care no damage will result. Western Oregon as a whole will have a grain crop above the average. The hay has been heavy, the hops are promising, as are vegetables; fruit will make a good crop. In eastern Oregon the temperature has remained high throughout the week, the mean ranging from 70 to 78 degrees, the maximum ranging from 84 to 96 degrees. There was no rainfall, except a local rain in Baker and adjoining counties on the afternoon of the 23d. At Baker City .44 of an inch of rain fell. Fall-sown wheat is dead ripe through the Columbia river valley and the headers are at work. Considerable threshing has been done, and the grain is plump and large. There has been hot north and northwest winds within the past ten days that have been slightly injurious to the spring sown wheat. Practically all wheat is too far advanced to be materially injured by the hot winds. Barley is a good crop and oats promise well. The corn would be benefited more by rain, though it is at present growing very well. Late spring frosts damaged the fruit and now the hot weather is causing the same to fall. The farmers are all busily engaged in their harvesting operations. In the counties south of the Columbia river valley the hay crop is about ready to cut. Alfalfa will be a very heavy crop. The grain has a good growth and no fears are entertained of any damage being done by the hot winds. The wool is being hauled to the warehouses. Throughout eastern Oregon the reports indicate that if wheat crop will be the largest on record. The hay crop has been good and cattle are in fine condition. The wheat crop of the state will equal or exceed any former crop as to quantity and quality. B. S. PATER, Local Forecast Official.

HOW'S THIS! We offer One Hundred Dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CUNNEY & CO., Props. Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by their firm. West & Truss, Wholesale Druggists, Toledo, O. Walding, Kinman & Marvin, Wholesale Druggists, Toledo, Ohio. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all druggists. Testimonials free.

NOT GUILTY.—Gus. Paulus, whose son was shot last week by DeWitt McDuffie, filed complaint for murder in the first degree against the boy on Monday, and the trial was before Justice Rhodes. Every witness who could possibly have any knowledge of the case was summoned, but the justice found their combined testimony was not sufficient to prove guilt. The only new thing brought out in the trial was that the gun was afterwards tested with like charges, at distances of ten and thirty feet, on paper targets. The short distance showed but little variance of the shot, while in the longer distance it scattered eighteen inches or more. The object of this testimony was an effort to show that the gun scattered too much for the distance of ten feet that the boy claimed he stood from the other boy. The testimony of the McDuffie boy did not vary materially from that given before the coroner's jury and published in this paper last week. McKee's Rocks, Pa., Feb. 31, '91. Norman Smith, Des Moines, Iowa. Dear Sir.—Please ship Krus's Capsules ordered as soon as you possibly can. We are entirely out and missing sales. H. D. KRAMER & CO. For sale by Rogers Bros., sole agents, McMinnville, Oregon.

Notice of Dissolution. Having dissolved partnership, all parties indebted to the firm of Macleod & Macdonald of Carlton will please call and settle. 23th

To the Farmers. I will thresh for five cents per bushel. Stacked grain, three cents. Special bargains on large jobs of oats. Yours Respectfully, J. A. DERRY. MEADOW LAKE.—My team will leave McMinnville Mondays, Wednesdays and Saturdays for Meadow Lake. Special rates when ordered. Round trip \$2. Best fishing grounds in Oregon. Fine health resort. Hotel accommodations reasonable. Plenty of boats. Board, \$1 per day. Stolen. From my residence on Grant street on night of July 22d, a buckskin or yellow pony, age 7, weight about 800 pounds, and about 13 hands high. While hind legs to lock; broad white stripe in face, black roached mane and cropped tail, shod all round with trotting shoes; anchor brand on right flank. \$10 reward for return of pony. JUSTIN GRAY. "Did that young girl that Tompkins befriended at the seashore show any gratitude for what he'd done?" "Well, I should say not! She married him."

It is well to remind people going on summer vacations that boating by amateurs is dangerous amusement. There are often found in boating parties some who, for bravado, "rock the boat," or stand up to show that they are not afraid. In such circumstances could drown without drowning their sensible associates it would not be so bad. Considerable new sidewalk is being laid, but much more is needed. This work can never be done cheaper than now.

Swallowed a Hat Pin. The little child of Charles Cannon, who lives south of Salem, in the vicinity of the Pringle school house, is said to have swallowed a lady's hat pin while playing on Sunday. The child is aged one year and late last evening was suffering considerably from some cause. Whether or not it is the effects of the pin the physicians are at a loss to state. The mother gave the child such an article while it was sitting upon the floor at her home, not stopping to think what the consequences might be, and she is positive in the assertion that the child swallowed it. The physicians could find nothing to indicate that such was the case until yesterday when they visited the Cannon home and found the little one in great agony. Sometimes she screams terribly and cannot endure being handled or moved. These spells continue a few minutes and then she is apparently as well as ever and plays for a time as though nothing had happened. Her appetite is excellent and she is to all appearances in good health. There is now reasonable hope in the minds of her physicians and her parents that by the action of nature the pin may be removed from the system without serious results. The periods of acute pain and suffering are favorable indications, showing that the pin is not lodged in one spot, but on the move.—Salem Statesman.

Belvidere, Ill., Dec. 3, 1891. Norman Lighty, Des Moines, Iowa. DEAR SIR.—Having suffered a great deal from headache for years, and being unable to get relief until it would wear away of itself, I saw Krus's Headache Capsules advertised. I tried them and now am never without them, finding it the only remedy that will give me relief. When I now find a headache coming on I take a capsule and find the relief instantaneous. Respectfully yours, G. W. HIGHTY, Boston, Mass. For sale by Rogers Bros., sole agents, McMinnville, Oregon.
