

Yamhill County Reporter.

F. H. BARNHART. PUBLISHER AND PROPRIETOR. J. G. ECKMAN, Associate Editor.

ADVERTISING RATES. Reading notices in local columns 10 cents per line for first week and 5 cents per line thereafter.

FRIDAY, AUG. 24, 1894.

THE MEN WHO ADVERTISE.

If the writer were to visit a neighboring town and the nature of his business required him to find out the leading business men of the place—the live, energetic and public spirited element upon whose shoulders the destiny and general welfare of the place depended—he would know no better or surer way than to consult the columns of the local newspaper.

This is preeminently a newspaper age and people depend largely for their information upon the newspapers. Impressions and opinions are to a great extent moulded by what they read.

But there is another motive that prompts the business man who combines public spirit with sagacity to the liberal use of the newspaper columns. It is the importance to the community of a well sustained local press.

Liberal support from the business community means excellent newspapers always. A good newspaper field invites good newspaper talent.

Advertisers in the local newspaper are a mutual help to each other. Their combined efforts, which should be directed toward attracting custom to the town as well as to their individual wares, can be made to have a wholesome effect in accomplishing both objects.

The Oregonian and Capital Journal are bringing the cultivation of corn as a substitute for wheat in Oregon farming. There are doubtless localities where corn would make a fairly good crop one year with another, especially if pains were taken to grow the early maturing varieties.

tical farmers who have been experimenting with the crop, call in and knock this newspaper opinion of ours into a cocked hat.

CONGRESS has been far too busy legislating for sugar and whisky trusts to pay any attention to little measures such as the Nicaragua canal.

The populist state government of Kansas is charged with having appropriated \$5,000 for protection against cholera, and instead of using it for the purpose the state officials divided the swag amongst themselves.

When the country was prosperous under protection in 1892, the consumption of wheat was 5.91 bushels for every one of our population.

The talk of the government forcing its lien on the Union and Central Pacific railroads will probably end in talk for the reason that it is easier to give the roads the debt than to buy them.

THE STATE FAIR.

Before Oregon can have a state exhibit that will be the success that it should be, the managing board will have to have and act upon a fuller conception of how to advertise in the state press and pay for it.

We are in receipt of the annual complimentary ticket, accompanied by a half-column reading notice and a request to use any or all of it.

In line with this thought the Hillsboro Independent says: "The fair to be held in Oregon are fearful of spending anything for advertising lest some newspaper may make a pittance.

management, perhaps, considers it sufficient remuneration for a standing announcement if an admission ticket is promised conditioned that the newspaper reporter applies at the secretary's office, east of the north gate, with proper identification."

BARRING OUT ANARCHISTS.

The senate has passed the bill for the exclusion and deportation of anarchists. It has already passed the house, but as the senate amended it, the bill must go to a conference committee.

It declares that no alien anarchist shall be permitted to land in the United States, and authorizes the secretary of the treasury to send back to the country whence they came, all persons who, having succeeded in passing the inspectors, shall be proved to hold anarchistic beliefs.

It will be noted that the bill proscribes the foreign-born anarchist. He is not to be permitted to enter this country. And those already here who have not been naturalized can be sent back.

NEW ZEALAND'S TAX REFORM.

New Zealand is trying a new scheme of taxation, which possesses at least the merit of novelty. It abandons the principle of taxing all property equally, so that all men bear the burden in proportion to their respective holdings.

The new repairs on the steamer Toledo cost about \$1,400. This makes her as good as new.

SCHOOL APPOINTMENT.

Table with columns: DIST. CLERK, AMOUNT. 1 E J Wisner \$42 65, 2 C G Scott 29 60, 3 Samuel Parrott 87 00, 4 T J Jellison 127 00, 5 G M Watkins 37 40, 6 C S Tustin 45 20, 7 Geo W Friedwell 40 00, 8 Maine Perry 68 75, 9 W B Carter 92 50, 10 J L Davis 71 25, 11 J T Fryar 68 75, 12 E O Hadaway 15 65, 13 Thomp Cone 41 75, 14 Jas Egan 29 60, 15 Fred K Kane 28 70, 16 W G Busbee 114 85, 17 Wirt Laughlin 47 85, 18 J T Gowdy 50 45, 19 Fred Little 51 25, 20 A P Magness 33 00, 21 M E Johnston 87 40, 22 D V Oles 178 25, 23 J J Imus 42 65, 24 W H Covert 22 00, 25 J W Covert 31 20, 26 Alex Miller 36 25, 27 John Eisle 52 20, 28 J T Watson 185 30, 29 Moses Votaw 377 60, 30 Paul Fundman 67 85, 31 J S Fairchild 35 65, 32 Samuel T Jones 89 00, 33 Frank Wright 22 60.

degree. But the government, having adopted a non-borrowing policy, found its resources sufficient to meet its needs under the new system, and so there was little occasion to make use of the credit that was offered from sources that had only recently been distrusted.

FROM THE COUNTY PRESS.

Lettye Ledger. Rev. Wood of Portland, has been appointed pastor of the Christian church at Dayton and moved to that place Wednesday.

Miss Lydia Washburn will teach in the Sheridan school the coming term.

Messrs. Rice and Goble are shipping about 30 dozen crawfish from this point daily.

Henry Bertram is building a hop house for J. W. Fletcher. The house will be a large one and will be finished in good shape, and fitted with all the necessary apparatus used for drying and putting up hops for market.

E. C. Armstrong has about decided to move to southern California where he has invested with one of his brothers in land. Mr. Armstrong is a man who is always alive to the best interests of the community in which he lives and we shall be sorry to see him leave Newberg.

H. J. E. McCoy of Salem, with his six men succeeds in constructing that fish ladder at the falls at Oregon City in thirty days at a cost of \$800, as he estimates he will, taxpayers will begin to wonder where that \$10,000 that was paid out for the old ladder was swallowed up.

Married, at the residence of the bride's parents in Gopher valley, by Rev. McCutcheon, John Fryer and Minnie Potter. The two acknowledge and wishes the young couple a life of bliss and usefulness.

Last Friday Mrs. John Lady and three children were thrown out of a cart near P. M. Churchman's house by the runaway of a horse. All were bruised and the baby was rendered insensible by the fall. They were conveyed to Mr. Churchman's house and attended to by Dr. Churchman. Though severely bruised they were not seriously injured.

The new four thousand dollar school house is the admiration of many comers and goers. It cannot be equaled by any town of this size in the county.

Two ladies from near Newberg were in town Tuesday looking for places to pick hops. They say that prices in that vicinity are 25 cents for 7-bushel boxes and 35 cents for nine-bushel boxes.

The Presbyterians have vacated their church building recently sold to Oliver & Colcord. They will hold services in the M. E. church until further notice.

Had the factories been closed and the fires banished. Was there less demand for working power in the big buildings? No to both questions.

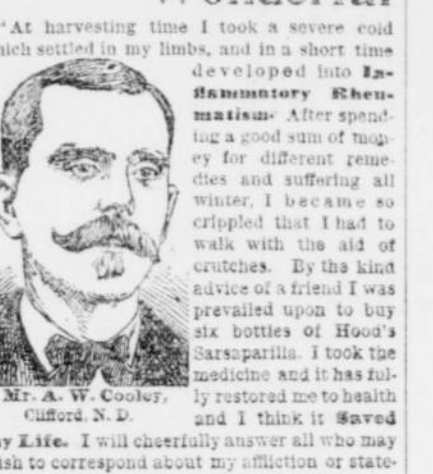

Every man who burned coal was having it fed into the fire boxes a mere spoonful at a time, so as to make the supply last as long as possible.

To some minds the late improvements in smoke consumers is very positive that if furnaces were fed economically at all times the smoke would almost disappear.

Another Calamity Straw. Many people are considerably agitated over a mysterious circumstance which is thought to indicate disaster.

Many people are considerably agitated over a mysterious circumstance which is thought to indicate disaster. It is the appearance of the letter B plainly impressed upon blades of oats growing in fields. Acres and acres in all parts of the county have been found to be thus curiously marked.

Hood's is Wonderful

"At harvesting time I took a severe cold which in a very short time developed into Ephemeral Rheumatism. After spending a good deal of money for different remedies and suffering all winter, I became so crippled that I had to walk with the aid of crutches. By the kind advice of a friend I was prevailed upon to buy six bottles of Hood's Sarsaparilla. I took the medicine and in a few days I restored me to health and I think I saved my life. I will cheerfully answer all who may wish to correspond about my situation or statement." A. W. COOK, Chicago, North Dakota.

Hood's Sarsaparilla Be Sure to Get Hood's Cures

Business Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

LEARNING THROUGH NECESSITY.

Chicago's Lesson Learned From the Coal famine Caused by the Strike. Under the old rule that "it's an ill wind that blows nobody good" the coal famine has taught Chicago at least one useful lesson.

Had the factories been closed and the fires banished. Was there less demand for working power in the big buildings? No to both questions.

Every man who burned coal was having it fed into the fire boxes a mere spoonful at a time, so as to make the supply last as long as possible.

To some minds the late improvements in smoke consumers is very positive that if furnaces were fed economically at all times the smoke would almost disappear.

Another Calamity Straw. Many people are considerably agitated over a mysterious circumstance which is thought to indicate disaster.
