## High Government Authority.

From

No authority of greater experience on food products exists than Dr. Henry A. Mott, of New York. Dr. Mott's wide experience as Government Chemist for the Indian Department, gave him exceptional opportunities to acquaint himself with the qualities and constituent parts of baking powders. He understands thoroughly the comparative value of every brand in the market, and has from time to time expressed his opinion thereof. On a recent careful re-examination and analysis he finds

## Dr. Price's Cream Baking Powder superior to all others in strength, purity, and efficiency. Dr.

" New York, March 20th, 1894. I find Dr. Price's Cream Baking Powder to be superior to all others, for the following reasons :-

1st. It liberates the greatest amount of leavening gas and is consequently more efficient,

and. The ingredients used in its preparation are of the purest character.

3rd. Its keeping qualities are excellent.

4th. On account of the purity of the materials and their relative proportions, Dr. Price's Cream Baking Powder must be considered the acme of perfection as regards wholesomeness and efficiency, and I say this having in mind certificates I have given several years ago respecting two other baking

The reasons for the change in my opinion are based on the above facts and the new method adopted to prevent your baking powder from caking and deteriorating in strength.

HENRY A. MOTT, Ph. D., L. L. D."
