FRIDAY, JAN. 11, 1895.

The Oregon legislature meets next Monday. Governor Lord's inauguration takes place Tuesday, and the vote for U. S. senator a week from Tuesday.

That is good sensible advice from an Iowa paper our Oregon exchanges are passing around. It advises John and Mary to be married at home, instead of going off to town and being married in a justice's office or a hotel parlor.

If, as most people verily believe, free coinage would precipitate the silver coin of 412 grains to its bullion value, nearly half the purchasing power of the silver now in circulation would be destroyed.

This is substantially what Hon. Thos. Tongue said in a speech delivered in this city during the last campaign, or rather, these are the precise words in which his position on the silver question was reported in these columns: "The country does not need more money. The people need work, the opportunity to earn money."

WANTS A CHEAPER DOLLAR.

Mr. Bland has prepared a substitute for the Carlisle currency bill which, at the proper time, he will introduce in the House. There is no prospect of its becoming a law.

The coin of 25.8 grains of gold was made the unit of value, by the act of 1873, but had been the actual unit ever since 1854. By the Bland act of 1878, the name "dollar" was conferred on a coin consisting of 412 grains of standard silver.

Many people are perplexed, in considering these facts, by the fact that a silver dollar will buy as much as a gold dollar. The reason is a very simple one. It lies in the redemption, on demand, of the greenbacks and Treasury notes of 1890 in gold by the United States Treasury.

Mr. Bland's bill is to make the silver dollar the unit, and to replace the greenbacks, the Treasury notes of 1892, the gold certificates and silver certificates, all with what he calls "coin notes."

Another section provides for the stoppage of the issue of gold or silver certificates and Treasury notes. It provides that these certificates and notes shall be canceled and destroyed as fast as they come into the Treasury, and that coin notes shall take the place of them.

This means that the country's finances shall be put on the silver basis. No man who has studied financial questions with any degree of thoroughness can fail to see this. Our money of ultimate redemption will be the silver dollar.

This would mean that a man getting a pension of \$12 a month would get twelve dollars, but each dollar would buy only half as much as now. Every man with \$100 in a savings bank would, in the same way, have its actual value cut in half.

Five bids were opened yesterday for the erection of F. E. Rogers' cottage. The lowest, \$1647, was by Simmons & Arthur. The highest bid was only about fifty dollars above this figure.

OREGON NEWS AND NOTES.

The late storm was death to Portland's universal exposition, and it closed up early in the week.

Rev. I. D. Driver, a farmer preacher of Lane county, is being boomed for U. S. Senator, on the theory that congress needs more preachers to reform it.

Judge Denny, receiver of the defunct Portland Savings bank, has filed in the circuit court a report of its condition. The assets exceed the liabilities \$521,796.

Pendleton had three suicides within ten days. The last one was W. O. Warren, who shot himself as he was being arrested for embezzling \$50 of school district money.

The ladies of Salem have accepted the Statesman's offer to issue a charity number of the paper, and have set January 22d as the date. Mrs. Judge Bean will be business manager.

N. P. Briggs, a Corvallis man, received \$220 the other day in payment of a debt incurred against an estate in Corvallis over 30 years ago.

The check was from the administrator who now lives in Massachusetts. Attorney Geo. G. Bingham was robbed of a fine overcoat at Albany by a tramp, who, after appropriating the coat, boarded the "blind baggage."

The telegraph apprehended him at Junction City, and the coat was recovered. There is doubt whether the sale of the Oregon Pacific railroad will be confirmed. Some sharp lawyers are claiming they have an offer from English capitalists of a larger amount than Bonner's offer, or at least \$200,000, if the confirmation is postponed 30 days.

The judge took the matter under advisement until January 19th. Wm. Davenport was arrested near Lebanon Friday on a charge of counterfeiting \$1 silver coins. He has served a term in the Oregon penitentiary for the same offense.

Ten dollar pieces were made out of solid silver, and then plated with gold, giving the coin a perfect ring and making it difficult of detection. A fiendish step-mother in North Albina compelled her step-son aged 8, to sleep in the woodshed with the dog, without sufficient covering from the cold.

The authorities took up the case and compelled the woman to take care of the child. The father was away from home, and the woman said she did not want the child around. Mrs. Augusta Melcher of Stafford, on Christmas day buried \$1,000, hard-earned savings, in her garden, for fear some strangers who had called would return and steal it.

A couple of days later she went to take a look at her money and was astonished to find it had not only sprouted but had come up. She was almost distracted over her loss. The trial of Steeves for complicity in the murder of Sayre came to a close in Portland on Saturday, by the jury finding the lawyer guilty of manslaughter, after being out over 15 hours. This trial lasted 18 days, and is the longest in the history of Oregon.

The first ballot taken by the jury was as to whether Kelly was guilty of the murder. The jury voted unanimously that he was, and then an informal vote was taken as to the guilt or innocence of Steeves, and it was taken without any discussion of the case, and by mutual agreement no one told how he voted or made any suggestions to anyone. The vote stood six for murder in the first degree, five for acquittal and one for manslaughter. Then a general discussion of the case followed and finally on the 27th ballot they compromised on the verdict which was reported to the court. Motion was made and granted for the customary 30 days for filing motion for a new trial, and Steeves was liberated on bond, but for a brief spell only, as the prosecuting attorney convinced the judge that such action was contrary to the statutes. The order was revoked and Steeves was again placed behind the bars.

Invalid 3 Years, Cured by Hood's

"I had been given good health by Hood's Sarsaparilla. For three years I was an invalid, suffering terribly from Nervousness and Lameness. I was so nervous I could not bear the least noise, and I had to walk with crutches for six months, as I could not get one of my feet to the floor. Physicians did not do me any good, so a friend told me to get Hood's Sarsaparilla, but I believe it will do them good."

"I said There was No Use. However, after thinking the matter over, I decided to give it a trial, and have taken six bottles of Hood's Sarsaparilla, and the result is that I am well as any one could wish to be, and can do any kind of work. I advise all my friends to take Hood's Sarsaparilla for I believe it will do them good."

Sheridan Sun

Public school will begin the 1st of February with the same teachers formerly employed. The report of the secretary of agriculture for 1894, gave a colored plate of the "Hoskins Cherry," originated by Mr. Hoskins of Newberg, Yamhill county. Season in Oregon early in July. It is a seedling of the Napoleon.

We hope that Sheridan real estate will not begin to climb the liberty pole too rashly on the strength of a prospect for a railroad from Salem to Astoria, via Sheridan. Should we fall on railroad extension, we still have the wagon road to the Clam Coast left.

The Sheridan and Portland branch of the Southern Pacific railroad has shortened its time 35 minutes. The train leaves Sheridan at 6:20 in the morning and arrives from Portland at 7:40. The time is made up by faster running.

Tuesday night R. L. Owen, a resident of Roseburg, was knocked down by two unknown men on the bridge and robbed of \$15 and a couple of milk cans he was carrying. Strangely enough, however, they allowed him to keep his watch. He was quite badly beaten with a revolver and then driven back across the river and threatened with death if he came back. Mr. Owen had been out late attending a social party. The perpetrators have not been discovered.
