### Oregon Weather and Crops.

Pague's state weather service for week ending Monday, May 27th, has the following concerning Oregon crop prospects: In western Oregon the weather conditions have been extremely favorable to future growth of vegetation, Mary Derby, daughter of J. F. Derby, though currently the growth has been retarded by the low temperatures. Several Washington county has done: "I have lived in this country for the past 20 good stand. The current rain will be especially beneficial to the spring grain. planting is finished, a larger crop than usual has been planted in many counties. have made an unusual growth; there is yards are in first-class condition. The fruit and berry crop continues to be have crops been so promising and so healthy as they are at the present time. In eastern Oregon general and heavy

rains have prevailed during the past week. The rainfall has been of the greatest benefit to the grain crop, and insures bounteous crops, barring possible hot winds in June. New potatoes of local growth made their appearance at The Dalles on the 25th inst.

A Terrible Visitant. Pain is always a terrible visitant, and often domiciles itself with one for life. This infliction is preventible, in cases of rheumatism, by a timely resort to Hostetter's Stomach Bitters, which check the encroachments of this obstinate and dangerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate life. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons incur a wetting in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of ill effects. Mala-

ria, dyspepsia, liver and kidney trouble. nervousness and debility are also among the ailments to which this popular medsoreness and stiffness of the aged it is highly beneficial. Mr. and Mrs. F. M. Boyer kindly
