

Poon old China will have to pay for the destruction of property of missionaries. She should pay roundly, too, so as to leave a moral effect that will guarantee other American missionaries against insult and outrage.

THE associated press was a little slow distributing the news of Olney's appointment as secretary of state. The *Inter Ocean* got hold of and published it the morning of the 4th, and it only got into the coast papers on the 8th.

THAT is a brilliant idea of the populist newspapers that nominees for the presidency be required to sign an agreement not to veto any constitutional finance bill passed by congress. Wouldn't it be better for the pops to get in and elect a president with financial ideas in sympathy with their own, and fix congress the same way? That is what the republicans propose doing.

What kind of Americans are the "pops" anyway? We understand they are getting up a political picnic at McMinnville for the fourth of July. Have they forgotten their country simply to be politicians? Echo would answer, yes.—*Dallas Observer*.

Information must be at fault, Bro. Doughty, so far as locality is concerned at least, and we hope it is wholly mistaken. The Fourth is the day of all others when partisan differences and animosities should be laid aside and people meet in love and friendship—each conceding to the other the highest right of American citizenship to think and act independently—to celebrate the glories of a common country.

SENATOR MITCHELL writes to a friend in this city that he expects to be in Oregon by the 15th or 20th to take his summer vacation and enjoy life among his constituents. He expresses a sanguine hope that the Yamhill improvement measure will go through all right at the next session, but his letter is a reminder that the work is not yet completed.

To insure an easy passage through congress the engineer's report must have the endorsement of the bureau of engineering and the war department. There is no valid reason why these endorsements should be withheld, but it is an excellent thing for an important measure like this to have an alert friend or two to see that it is not obstructed or side-tracked by corporate or private influence. The greatest danger the measure probably has to encounter now is from this source.

Kentucky and the Republicans. Kentucky's alliance with the democracy is not quite so ancient as is commonly supposed. Before the slavery question reached the burning phase that state gave as few favors to the democracy as Ohio now does. In presidential elections its vote usually went to the whig party while that party remained on the stage.

The whig party was on the point of extinction in 1852, and carried only four out of the thirty-one states, but one of these four was Kentucky, the other three being Vermont, Massachusetts and Tennessee. One of the leaders of the whig party was Kentucky's favorite son, Clay, who, however, died before the election of 1852. In 1856, the whig party having disappeared, Kentucky went democratic.

It gave its electoral vote to the constitutional unionists in 1860, but it has been democratic ever since. On the general economic issues Kentucky will be a doubtful state, and those issues are now at the front. The war questions which put and kept the state in the democratic column have vanished, and with them have gone the old 40,000, 50,000 and 60,000 democratic majorities. The issues of the protective tariff and internal improvements at the national expense made Kentucky once as strongly and reliably whig as Massachusetts. Internal improvements as a comprehensive political scheme has been dead for a third of a century, but the tariff is always with us in some shape or other. The silver question is exciting more interest in that state, as it is in every other, than the tariff at present, and it threatens to drive a large faction of the democrats to the republican party.

In the congressional elections last November the republicans cast more votes in Kentucky than the democrats. The issues which were alive then are fully as lively now. It is clear that the Kentucky democracy will have to make the fight of its life this year if it is to win. Once or twice in the past half dozen years the "boys in the trenches" were appealed to to save the party from overthrow and they responded gallantly, but the chances are that this year they may disregard the summons. From present indications the solid south is going to be broken in several spots this year and next, and

Kentucky is to be one of the spots. Secretary Carlisle's speech-making tour through Kentucky, which has, it is reported, only been temporarily interrupted, will make thousands of votes for the republicans. The sound-money democrats of that and most of the other states see by this time that the way to fight effectively for their cause is to do it within the republican lines.

A canvass had been made of the republican papers of Kansas to ascertain how many favor free and unlimited coinage of silver. This is the result: Out of 102 papers, 17 are for free and unlimited coinage of silver at 16 to 1, while 85 stand squarely on the money plank in the last republican platform. Politicians who claim to know, say this is about the way the sentiment runs in the republican party of this state.

It is reported an agreement in the case of W. W. Taylor, the defaulting state treasurer of South Dakota, was arrived at substantially as follows: Taylor is to return and surrender himself, turn over all his property to the state and take whatever sentence the court may impose. When all this is accomplished, Taylor's bondsmen are to be released from their bond. The attorneys agree that under the law Taylor's sentence will be comparatively light, about one year in the penitentiary.

Says the *Eugene Guard*: We are informed that wheat aphid has been found in the wheat of Jeff Spencer near Irving. It is early fall wheat fully headed, and it is said the aphid is very small, being hardly discernible by the naked eye. One aphid only is found to each head of grain. Last year the aphid was first reported June 20th, but at that time it was fully grown and grain fields were covered with the pest. This season people are looking carefully for its appearance, and the least indication will be reported. Many of the farmers are of the opinion that the grain will not be bothered with it this season.

Camp Hembree, No. 3, I. W. V. N. P. C. met at their annual meeting in Garrison's Opera House.

Meeting was called to order by Capt. C. A. Wallace. The sergeant-at-arms being absent, Lee Laughlin was requested to fill that office temporarily. The roll being called, the following members were found to be present: Capt. C. A. Wallace, W. J. Garrison, G. L. Rowland, Mrs. C. A. Wallace, Mrs. Lee Laughlin, Eli Branson, G. W. Olds, R. L. Simpson, J. T. Fouts, Mrs. G. W. Olds.

The minutes of the last meeting were read and approved. The names of M. R. Calhoun and Robert Mulligan were presented for membership of this camp. On motion, they were admitted as members.

The chairman called for names of members of this camp who had died since our last meeting. The names of R. R. Laughlin, Samuel Staggs and J. W. Wagoner were reported as having died since our last meeting. The chairman appointed the following committee to report suitable resolutions on the death of those who had departed this life: G. L. Rowland, G. W. Olds and Robert Mulligan.

Chairman Wallace reported that by request of the grand adjutant of the grand encampment for contribution of \$5 from this camp, he had, on his own responsibility, forwarded the amount, and asked the approval of the camp, which was granted.

Comrade Simpson reported that he had not been at the meetings of the camp for some time, and inquired how much he was behind with his dues. He was told that the regular fee would be enough, which he paid in.

Some badges were exhibited by Capt. Wallace, and sold to some members of the camp.

The dinner hour having arrived, the camp took a recess until 1:30, and in a body repaired to White's restaurant where they enjoyed a sumptuous dinner.

The camp convened at 1:30. Comrade R. L. McMillen came in and reported as present.

At this juncture the committee appointed to report suitable resolutions on deaths of members presented their report, as follows:

WHEREAS, We have learned with sorrow of the death of our comrade R. R. Laughlin, of North Yamhill, Samuel Staggs, of McMinnville, and John Wagoner, who have all departed this life since our last meeting, therefore be it

Resolved, By camp No. 3, Indian War Veterans of the North Pacific coast, at their regular annual meeting, held this 7th day of June, 1895, that in the deaths of these comrades this camp has lost three honored and respected members, the state three good citizens and the community three kind and accommodating neighbors.

Resolved, That this camp extend its sympathy to the bereaved families of the deceased comrades.

Resolved, That these resolutions be spread upon the records of this camp, and that a copy of the same be furnished to each of the newspapers of this county with a request that they publish the same.

On motion, the report of the committee was adopted.

On motion, the camp proceeded to the election of officers for the ensuing year, which resulted as follows: Captain, C. A. Wallace; 1st Lieut., G. W. Olds; 2d Lieut., G. L. Rowland; Ord. Sergeant, Lee Laughlin; flag bearer, R. L. McMillen; musician, Eli Branson; treasurer, W. J. Garrison.

Comrades G. W. Olds and R. L. Simpson were elected delegates to attend the grand encampment to be held at Portland, Or., June 13th, 1895.

For the good of the camp speeches were made by Capt. Wallace, comrades McMillen, Olds, Garrison, Mulligan, and others.

On motion camp adjourned.

FROM THE COUNTY PRESS.

Dayton Herald.

Two young men of Dayton suddenly took their departure last week under a cloud. They were suspected of being concerned in some petty thefts.

B. F. Lewis and G. E. Detmering left yesterday for Soda Springs, Linn county. They went by train, and go to arrange about taking their families there in a short time.

One-half of the 16 acre prairie orchard originally owned by A. P. Macy, and purchased by D. A. Snyder last season, and afterwards purchased from Mr. Snyder by A. C. Burdick of Portland, has been sold by the latter gentleman to W. R. Bradley, of Seattle.

Last Friday a blaze started in the sitting room at Dr. Smith's residence which, if it had not been discovered immediately by Mrs. Smith, would probably have resulted in the destruction of the house and contents. The blaze caught in the lace curtain to a window, destroying it and several articles in the room. The total loss amounting to about \$20. Insured. The only theory as to the origin of the fire is that the sun shining on a package of matches lying on the window sill started it blazing, the blaze catching in the window curtain.

The steamer Grey Eagle was sold this week to Chas. Spaulding and B. C. Miles. The former owners have been hampered by accumulating indebtedness ever since they began to build the boat, so that they were never able to properly finish and equip her, and since she has been on the water aggravating attachments

have been made from time to time. The new owners propose to finish painting and otherwise fit up the boat so that she may be able to command respect on the Willamette, and thus be able to bid for such work as may come in her way.

The safe at the railroad station was visited again on last Saturday night by the professional safe cracker who has been doing business along the line of the road for the past two years. He seems to keep himself well posted along the line as he never fails to get a safe open when he makes an effort and always makes a very good night's haul when he makes a raid. In this instance he got about \$70 in money, which is very fair these times for a single night's work. On going to the office on Sunday morning, agent C. B. Frissell made the discovery that the visitor had been around again. He had simply knocked off the combination with the hammer, after which there was nothing to be done but open the door and help himself. This is the third time the depot safe has been visited and of course when these visits are repeated about a dozen more times it will begin to be a little annoying to the railroad company.

A lodge of Rebekahs, with eighteen charter members, was organized here last Friday night. We learn that there is a prospect that the number will probably be increased quite materially in a few weeks by others who were not able to be present Friday evening.

About half the business part of Sherwood was burned last Saturday night. A hotel, hall, candy shop, barber shop, general store and part of the depot building were burned, and it was only by hard fighting that the remainder of the town was saved.

Mrs. D. Disney has been suffering for a year or more with a scrofulous ulcer on her ankle, caused by a bruise. Last Saturday it was decided to investigate by cutting to determine what was the real trouble. The work was done by Dr. Littlefield and Dr. McConnell, and resulted in opening a large cavity where the tissues were broken down and decayed. This was properly dressed, and the doctors now think the patient will rapidly recover the use of the limb.

SLEEPY, DULL, languid and morose, is the way you feel when your liver fails to do its work properly, in consequence you suffer from indigestion, biliousness, and dyspepsia. You have a "don't care spirit" and a "pleated out" feeling, and everything tires you.

To set the liver in action, purify and enrich the blood, and to strengthen and vitalize the whole system, take Dr. Pierce's Golden Medical Discovery. Having a peculiar tonic effect upon the lining membrane of the stomach and bowels, it makes a lasting cure of all stomach and bowel disorders. By increasing the blood supply, as well as enriching it, all the organs of the body are strengthened, and the nerves are fed on pure, rich blood.

Scrupulous is the "cure" for nervous debility and exhaustion, sleeplessness and nervous prostration are in most instances the direct result of a starved condition of the blood. The true way to cure these ailments permanently is to take the "Golden Medical Discovery," which was discovered and prescribed by an eminent physician and specialist to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. If you want a medical opinion on your case, write him. It will cost you nothing.
