Leroy is a graduate from a first-class school of dentistry, and he enjoys a pretty wide circle of acquaintances hereabouts who will be glad to see him prosper.

The end of this week will see the threshing about completed. Most of the outposts expect to be through at that time. The grain is a little slow about coming in, owing partly to the low price we presume, and partly to the fact that some of the farmers will store their own. Forty-one cents is the local quotation for wheat, and the oats are worth only fourteen or fifteen cents.

Home-grown peaches are quite plentiful in the market, judging by the display of baskets and crates in the several grocery stores. The price they bring, however, \$1.75 a bushel, makes them seem rather scarce. They are finer fruit than any that were imported to meet the demand earlier in the season. And yet we don't brag much about this being a peach country.

Prof. W. J. Spillman, who has been spending the summer with relatives and friends in the valley, left here Wednesday morning for Seattle to attend the Washington state teachers' association. Mrs. S. and little son will join him soon when they will return to their home in Pullman, Wash., where Mr. Spillman will resume his duties as professor of agriculture in the state agricultural college at that place.

"The sample bar was the best I ever used. I will take two boxes."—Mrs. W. J. Garrison. "It is really very fine soap"—Mrs. F. Sully. Mrs. Judge Galloway orders it every time and will take no other. Dozens of others might be quoted. It is kept for sale by Wallace & Walker, E. L. Weed, Millspaugh & Cook, J. P. Irvine, A. J. Apperson and Grange store. Tallow and grease scraps of all kinds used in making country soft soap can be used and is wanted at the soap factory.

The fall term of the state agricultural college opens Sept. 19th. There are a good many sturdy farmer lads around McMinnville, who are wedded to agricultral pursuits. In this age of application of scientific principles to his calling, that young farmer is wise who avails himself of the best schooling obtainable as an equipment to insure his future success. The agricultural college justly prides itself upon its 209 graduates throughout the northwest, occupying positions of responsibility, and who are examples of intelligent citizenship wherever found. Her equipment is among the very best, her courses of study varied, and the yearly expense of a student need not exceed \$145 per year. Best of all, tuition is absolutely free.
