WAS PARADISE AT THE NORTH POLE?

of Eden Was In the Arctic Regions. In an interesting and highly instruct- ment. question is no nearer answered than it was 2,000 years ago, and that there are man. To one of the latest and most ingenious theories Mr. Martin thus re-

The north pole will seem at first thought of the average investigator the most unlikely site on earth for paradise to have occupied. Nevertheless several sober and thoughtful books and pamphlets have been written in support of the north pole's pretensions. The north not always been so. Geologists tell us that the earth was excessively hot when it first began its course-much too hot to admit of the presence of any living creatures, except, perhaps, a salamander. As it grew cooler vegetation began on it, and then it began to be peopled, first with fishes, and then with birds and beasts, finally with man.

The first spot on earth to get cool enough to use was the north pole. In the process of time it got too cold, but there must have been a long period when the polar region was the most comfortable part of the world. During this period, many eminent geologists believe, there existed around the north pole a continent now submerged, and that on that continent our progenitors were comfortable in their first home. It is known with entire certainty that the polar region was once warm enough for tropical vegetation to grow there. There was light enough also for such vegetation-abundant light, indeed, for all uses and plenty for primeval man. Geology tells us that man might have

lived at the north pole. A Ready Answer.

When Admiral Stephen B. Luce was a stellation, he was known equally for his capabilities as an officer and for his roistering tendencies. His readiness to wit was also a marked quality, as is shown by the following story, that is a favorite in the wardrooms of the navy to this day. The ship was at Newport, and the lieutenant entered fully into the social pleasures of that gay city. As he went aboard one evening, after an afternoon out, the officer of the deck noticed that his step was not as steady as it might be, and in his sternest tones Quick as a flash came the answer, "If Stephen B. Luce, how can he be tight, of the matter. - Cincinnati Times-Star.

I have always found myself one of the most unteachable of human beings. I cannot, to this day, take in anything at secondhand. at that time in Illinois would have takes on infinite importance as a conbeen almost less than human if she had stituent part of a system infinitely 'I perfectly understand von. Mith refused to accept the attentions of the two leading men of the locality. Therefore Miss Todd, being quite human, en-'He called on that day week at that couraged Douglas, and again there was hour. She was ready. They were mar- what nowadays would have been called ried and lived happily several years." a flirtation. This course of action did not spur Lincoln on in his devotion, but made him less ardent, and he concluded, after much self worriment, to break off the engagement, which he did, but at the same interview there were a reconciliation and a renewal of the engage-

THE REGENT DIAMOND.

The One Precious Stone That Comes Nea est to Being Flawless. The Regent diamond, while surpassed in size by the Great Mogul and several other well known stones, is really the finest of all, being nearly faultless in form and purity and the most brilliant diamond in the world today.

Its French history dates back to 1717 In that year it was purchased from its English owner, for the French regalia, by the Duke of Orleans, then regent of France, whence its present name. It had previously been known by a name To any one sending name and address to almost as famous.

credit even was lost, yet under the per sussions of the Scotch financier Law and the French Duke of St. Simon the regent of France, hesitating where every monarch of Europe had refused, finally agreed to the price of \$675,000. Greatly to the relief of the duke, his act appealed to the pride of the French people, and instead of condemnation for his extravagance he received their ap-

ing, the treasury was nearly exhausted.

plause. In the light of subsequent events their approval has a touch of the pro-The first prominent appearance of the diamond in the French regalia was in the circlet of the crown made for the coronation of the boy Louis XV, in 1722. After half a century it was again the center of a new crown, that which in 1775 weighed heavy on the head of the young Louis XVI till he cried out in discomfort, "It hurts me!"

Then come 1789 and the fire and blood and fury of the French revolution. -Charles Stuart Pratt in Lippincott's.

The Army of Tramps

is in a certain sense the maker and H chooser of his own career. The writer's E experience with these vagrants has convinced him that, though they are almost always the victims of liquor and laziness, fully four-fifths of America's voluntary beggars have begun their wide and restless ways while still in their teens, and have been furthered in their

quently proper subjects for state care and guardianship. And the fact that every tramp in the United States has spent some part of his youth in a re- journal and the REPORTER for form school, or, worst of all, in jails, demonstrates that there is a failure somewhere in our system of correction and reformation and makes it necessary and only fair that the sociologist as well as the reformer should know the tramp from boyhood to manhood. Superficial and unsympathetic studies of his character, with shallow theories about remedial measures, have so far failed signally in checking his malign influence upon society. - "How Men Become Tramps," by Josiah Flynt, in Century.

Hospitable. A peculiar epitaph is inscribed on a tombstone in the old churchyard of an Ohio town. General Wayne was at one time in command of the fort mentioned in the epitaph.

Wife of David Gregory, Died Aug. 12, 1821, Aged 66 years. That settled on the Miami above Fort Hamil ton. Her table was spread, and that of the best, And Anthony Wayne was often her guest. -Youth's Companion.

PRESIDENT OF THE UNITED STATES

There can be no doubt that the tramp in a certain sense the maker and E NEW YORK WEEKLY TRIBUNE

OF NOVEMBER 4th, 1896 Public interest will steadily increase, and the disappointment of the men whose votes turned the scale at the last election, with the results under the administration they elected, will make the campaign the most intensely interesting in the history of the country

The New York Weekly Tribune, the leading republican family newspaper of the United States, will publish all the political news of the day, interesting to every American citizen regardless of party affiliations. Also general news in attractive form, foreign correspondence covering the month, trampdom is increased by squads of youths who will soon take and hold the places of their elders, who will naturally drop away with the years. These boyish roadsters are more often illegitimate than lawful children and consequently proper subjects for state care
