

Did You Ever

experience a dull, throbbing, shifting pain in your teeth, sometimes accompanied by soreness of the tooth, earache, headache and slight swelling of the face? If so, you have had an abscessed or ulcerated tooth and know all its misery. Most abscessed teeth can be saved at any stage without further pain by skillful treatment. But no operation in dentistry requires more skill and knowledge of the surrounding parts and effects of the various medicaments used than treating a dental abscess. My preparation and practice in this line of work have been thorough and successful. All operations done thoroughly, but carefully, gently and with minimum pain. All plates and artificial work are unexcelled and done by the latest methods only. Prices very reasonable. Call and let me examine your teeth.

There is unusual activity about Hodson's place of business just now. He has two extra men employed in the tin shop—George Hively and A. H. Steiner of Salem. The cornice for the Jacobson block is being turned out, besides which the demands of hop and fruit dryers stimulates business in that line to considerable extent.

Dr. Goucher and family reached home Friday evening, having made a tour through the Cascades to Prineville, thence north to the foot of Mount Hood and home by way of Oregon City. They visited the great natural curiosity known as Clear lake in the Cascades, and the Doctor affirms all the wonderful things that have been said of it. The water is so clear and deep that persons in a boat realize a sensation of being suspended in mid-air. The petrified forest at the bottom assists the illusion.

About next week R. Jacobson & Co. will be heard from. The senior member of the firm has been in San Francisco several days selecting fresh stock, and in the meantime to make room for it a temporary gallery has been erected in the room they now occupy. Dave says they won't have room to fairly unpack the goods that are coming.

The fortunes of base ball are too complicated for the average person to comprehend. A short time ago the Salem team came over and the McMinnville boys just knocked the socks off them, winning by a score of 13 to 1. Then the McMinnville team played the Chemawas, expecting to win from them the championship emblems of the state, but came off considerably short of feathers. Now bobs up again the Salem team that couldn't hold a candle to McMinnville and wrests the championship from the sons of the forest.

Rev. Jos. Hoberg has sold his desirable residence property to Jno. F. Adams of Pendleton. Mr. Adams is a leading citizen of Umatilla, being a banker and holding the office of county commissioner. His family resided here during the winter and he was here much of the time, while his two boys were in college. The acquisition of property means that the family will reside here for a number of years, and probably will become permanent citizens.

Our farmer friend D. B. Kingery has always made a practice of holding his wheat until it reached a figure approximating his own views as to what the market ought to be under known circumstances. He is not one of the kind who go it blind, and because wheat is higher this week than it was last conclude that it will be still higher next week, but he reads the newspapers and watches the crop and market reports. There is not a bit of the element commonly called "luck" in his method, but in nearly every instance he has made money by holding. This year he has got it figured out that wheat is going to be worth a dollar a bushel, though in answer to the question whether he will hold for that figure he declines to be definitely committed.

We understand that James Stewart of Carlton threshed a field of wheat last week that went over 40 bushels per acre. This is the second 40-bushel yield reported from that neighborhood, and threshing has hardly begun.

The true standing of an editor is appreciated after death if not before. A lawyer sent the following words of consolation to the widow of an editor: "I cannot tell you how pained I was to hear that your husband had gone to heaven. We were bosom friends, but we can never meet again."

It begins to look like old-time scenes down at the Dallas foundry, says the Observer. There will be about twenty-seven tons of castings put out there within the next few weeks. This is the first casting on and breaking from the grave yard link that so firmly held these works closed from Harrison to McKinley.

A family named Hilton, recently from Minnesota, have rented the dwelling house of Mrs. Anna Henderson in the northwest part of town. It is the intention of Mr. Hilton to engage in business of some kind, we are informed. He was here last winter prospecting for a location, and decided upon McMinnville on account of its superior educational advantages. Mrs. Henderson contemplates moving to Watsonville, Cal., in the fall.

Deputy U. S. Marshal Humphrey came up from Portland last Friday and arrested Mr. O. A. B. Grosser, who lives up above Willamina, for opening a letter not addressed to him and for sending obscene matter through the mails. Mr. Grosser was brought before T. N. Faulconer, ex-officio U. S. commissioner, and was put under bonds of \$100 to appear before the U. S. grand jury.—Sheridan Sun.

The eighty-acre field on the Baker place near town was threshed Monday and gave a little over 32 bushels per acre. The quality was most excellent. A few loads delivered at the Hendrick warehouse overran standard weight about 13 pounds to the sack. Wright's new threshing with wind-stacker attachment worked like a charm and handled the straw at a safe distance from the machine without the assistance of a man.

Mel David is home from Idaho where he has been surveying. He with two companions played a huge joke all the way home. They gave it out that they were just from Clondyke and had brought home \$350,000. They were teased everywhere, given free board, and held attentive audiences spellbound with the narration of the hardships of the Clondyke regions. In Walla Walla a prominent citizen drove them around in his carriage and showed them every honor. They received free board at the best hotel and people flocked around to hear something of the new Eldorado. This is a good sample of the wild credulity of the public under gold excitement.—Graphic.

A pleasant and enjoyable occasion was the surprise social tendered to Mrs. Grover at the college last Saturday afternoon by the members of the local W. C. T. U. White ribbons to the number of seventeen, completely captured the good lady, but as she is always equal to the occasion they were soon made to feel at home and the afternoon was spent most delightfully. Ice cream, cake and lemonade were served in the dining hall, after which the party led by the hostess ascended the stairs to the cupola and enjoyed by spy glass the magnificent view of the surrounding country, Mount Hood etc. Those participating were: Mesdames Cook, Dr. Cook, Cozine, Latour, ette, Mills, Harding, Neal, Henderson, Wallace, Noll, Macy, Brown, Shadden, Grover, Grandma Grover, Long, Miss Mills, Master Fay, Mills, and Miss Faith Boardman. At five o'clock all reluctantly wended their way homeward feeling it was good to have been there.

The smoke settling down in the valley comes from a big fire near the head of Baker creek, that is said to have destroyed a good deal of valuable timber. At last accounts it was within about two miles of the Eagle sawmill and traveling in that direction at such speed as to make the owners of the mill feel not a little nervous.

G. S. Wright's suit against Charles Spaulding for leaving Oregon City with the steamer Gray Eagle without the McMinnville crowd on board, was heard in Justice McPhillips' court on Monday. The judge reserved his decision until 10 o'clock to-day.

Hop lice are creating some alarm in parts of the valley. Mr. Miller, a well informed hop dealer of this city, said to the writer Wednesday evening: "On the bottom lands the insects are on the increase, the rank growth of foliage protecting them from the effects of the warm sun, but on the uplands they are decreasing. I do not think the injury to the crop will be serious in Yamhill county."

Mrs. Houck and two children residing near Whiteson were driving to town Wednesday, and when near the Cozine creek bridge their horse became unmanageable, wheeled about and upset the buggy. The occupants were thrown out against a wire fence but not seriously hurt. The horse ran a few rods, and after freeing himself from the buggy became perfectly docile.

We give away, absolutely free of cost, for a limited time only, The People's Common Sense Medical Adviser, by R. V. Pierce, M. About Fencing.

This is to notify the public that I have secured the agency for the Kitzelman fence machine, and am prepared to sell the machines or build fence to order. This machine is capable of making a great variety of styles, suitable either for stock farms, orchards, poultry yards or ornamental lawns. It is the best steel wire fence on earth in point of cost, strength and durability. The machines are so simple and inexpensive that almost any farmer can afford to own one. Do not buy fencing material before seeing me.

McMinnville College.

Work for the Year '97-'98.

The Editor: May I be permitted to say a few words to your readers regarding the college and its work for the ensuing year?

The school year opens Sept. 15th next. Prospects are excellent for a largely increased attendance of students. Many new students will be present from abroad and the more immediate field of the college will contribute a larger number than formerly. The vacancies in the faculty caused by Prof. Glen's resignation and Miss Trumbull's inability to come to the college this year have been satisfactorily filled. The musical interests of the college will be in charge of Miss Katherine Glen. Miss Glen comes to us from a similar position at Pacific college, Newberg, where the greatest satisfaction was given. She is already well known in this community and most highly esteemed for her exceptionally fine gifts and attainments. Both as vocalist and instrumentalist Miss Glen holds recognized high rank among the musicians of the northwest. The college is to be congratulated upon her coming.

The chair of English and Latin has been filled by the election of Miss S. Etta Lewis of Salem. Prof. Lewis is an alumna of the university of Oregon, class of '91, and a teacher of large experience. She made Latin a specialty in her university course and is ranked as one of the best Latin scholars ever sent out from the university. The college is fortunate in securing her. In other respects the faculty remains as last year.

With a larger faculty than ever before, with superior facilities for instruction and with expenses as low as the lowest, little is left to be desired by young people seeking an education. If you have not seen the new illustrated catalogue, send or call for a copy. Carefully consider the advantages offered by our own home college and come to us in the fall.

Respectfully,

H. L. BOARDMAN,

President.

Teachers' Examination.

McMinnville, Ore., July 28, 1897.

The regular quarterly examination of teachers will be held at the court house in McMinnville, Aug. 11th, 12th, and 13th. Examination will begin at one o'clock p. m., Wednesday, Aug. 11th. G. A. PRENTISS, School Supt.

A Remarkable Cure of Chronic Diarrhoea.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50 cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, HENRY STEINBERGER, Allentown, Pa. Sold by S. Howorth & Co.
