

# Did You Ever

experience a dull, throbbing, shifting pain in your teeth, sometimes accompanied by soreness of the tooth, earache, headache and slight swelling of the face? If so, you have had an abscessed or ulcerated tooth and know all its misery. Most abscessed teeth can be saved at any stage without further pain by skillful treatment. But no operation in dentistry requires more skill and knowledge of the surrounding parts and effects of the various medicaments used than treating a dental abscess. My preparation and practice in this line of work have been thorough and successful. All operations done thoroughly, but carefully, gently and with minimum pain. All plates and artificial work are unexcelled and done by the latest methods only. Prices very reasonable. Call and let me examine your teeth.

Harry Watkins will speak on the immortality of the soul in the Christian church next Sunday evening. The pastor and his family are enjoying a few days camping on Haskin's creek.  
It is quality as well as price that counts in teas. Will Kuns has the best in town for the money.  
Miss Eva Hembree, who has been visiting her sister Rose in San Francisco, arrived home Wednesday. She begins a term of school near Hillsboro Sept. 6th.  
One of the architectural features of the Jacobson building not hitherto mentioned, is a large light-shaft 16 feet in diameter, extending from the skylight to the lower story, which will be of great value in lighting up the large room.  
Henry Gee complains of the conduct of a coyote in the foothill region, that has carried off 20 of his young kids and persistently refused to show himself to anybody with a gun, though provokingly tame and frequent in evidence at other times.  
Charley Kuns hop-picking crew was to start in on the Morrison yard yesterday. About 60 have enlisted under his banner, and by his method of payment, which strikes as as the fair thing, they stand a good show to get a dollar a hundred for the work. The market price of hops at this time justifies the payment of good wages in the yard.  
The family monument that is to mark the resting place of the late Jacob Wiscarver arrived this week. Mr. G. H. Wright of Moline, Ill., who sold the work and contracted for its delivery, is on the road with his family and expected to arrive in a few days. It is his intention, we understand, to open a marble yard on the business lot purchased from Mr. Wiscarver.  
A rumor was current hereabout yesterday that a firm stand will be made by the hop-picking fraternity for 40 cents a box, it being held that any less a figure would be inadequate and not in keeping with the general advance. W. A. Holmes, a grower near Wheatland, said yesterday that he "intended to pay 45 cents per box and was looking for twenty-five people to go to his place at that figure."—Statesman, 24th.

S. P. Smith, foreman of the state agricultural college farm, is spending a part of his summer vacation in this city. He is the son of our fellow townsman Alfred Smith, and was a graduate from the college in 1895, when he succeeded to the responsible position he now holds. The college, he says, is anticipating an enlarged student body this year approximating the 500 mark. Yamhill is now well represented, having eleven students on the roll. He thinks the new president, Prof. Gatch, is the man to meet the need of the hour, being both a scholarly man and a man of affairs.

The Southern Pacific will make a one fare rate from all points on their lines in Oregon to the Oregon state fair which opens September 30 and closes October 8. A big harvest and a big fair. A clean, vigorous, delightful, and comprehensive exposition of everything pertaining to the farm and the farmer. Good races and amusements of all kinds. Special attractions every day. With the present crop prospects and the extremely low railroad rate of one fare for the round trip, the people of Oregon can afford to patronize the state fair that benefits all classes. Popular admission of 25 cents.

D. R. Hurbut and Capt. Hunt, of the light-house, last week received a letter from John Campbell, a brother of Oscar Campbell, who writes from Alaska that he has struck it rich, having disposed of a mining claim recently for \$40,000; and he states that he is holding an interest in another claim which is worth \$100,000. Campbell last year worked at the light-house by the day until a short time before going on his trip. He sold some village property in McMinnville, and, accompanied by his mother, sailed on the ill-fated Willapa, which was wrecked, but the passengers who were taken safely off, were transferred to another vessel and continued their voyage to Alaska, and Campbell states that he is now in clover.—Tillamook Herald.

For Sale—A good horse, phaeton and harness, cheap. Inquire at this office.  
Wheat has sold more freely at this point than at other places in the vicinity. Up to Wednesday Mr. Hendrick stated that he had bought about 20,000 bushels.  
Are you going to paint your house? Consult Elsie Wright about paints and oils. He will give you the best material at least cost.  
Thirty-three people from McMinnville Sundayed at Baker creek falls. They lunched at ten, dined at noon, lunched again at four and ate melons between times.  
Order your peaches from Wallace & Walker or Irvine & Son. They handle Post's superb varieties grown on the rich sandy bottoms of the Willamette.  
Though no definite time has been agreed upon it is practically settled that the public schools will not open till the last week in September or the first in October.  
An old man with a "nigger baby" outfit set up shop in town Tuesday. He wasn't built for the business but got mad when the boys gazed.—He ordered a young fellow from Salem off the sidewalk and in endeavoring to enforce the order ran up against something that made his eye black.  
Ed Sutherland returned Monday evening from a tour of eastern Oregon and Washington, having visited Pendleton, Baker City, Colfax and other prominent points. He was seeing the country prospectively to relocating in business, but after having seen a good deal of the country east of the mountains and felt the temperature at 103 to 114 for several days, he has about come to the conclusion that Yamhill is hot enough and good enough for him.  
Do you know that Elsie Wright carries a full line of lubricating oils for machinery? Owners of valuable harvesting and other machinery cannot afford to experiment with poor oils. He carries the best on the market and they are warranted not to gum.  
A rifle said to be over 100 years old is on exhibition in W. L. Hembree's window. It is the property of Eli Branson, handed down from his grandfather, and must have been a piece of some account in its day, judging from the get-up. The stock, which extends the entire length of the barrel and is provided with patch-box at the breech, is of curly maple, brass mounted and richly inlaid with pearl and silver. The evidence that it would shoot a long distance is the length of the barrel, 46 inches. The lock, which may or may not be the original one, bears a London trademark.  
Mr. Maris, the gardener, has returns from the sugar beets he sent for analysis to the experiment station at Corvallis. The variety was the Klein Wanzlebene, and the average weight was 13.6 oz. The percent of sugar in the juice was 21.4, which is considered remarkably good, as the average is about 12 percent. The coefficient of purity, which is another way of saying the ratio of sugar to other solids, was 92.04. The average is only 75 to 80. Mr. Richard Kuehne, of Tigardville, who is an experienced beet sugar man from Germany, was in the city this week on his way to Corvallis on a similar mission before the experiment station. He said Mr. Maris' beets according to this analysis would be worth for sugar purposes about 47 percent. They will yield about twelve tons per acre, and had they not been pulled until a month later, would have been richer in sugar. They were raised from government seed.

B. A. Millsap and family returned Saturday from Elk City. They experienced very cool weather during their absence.  
The finest peaches on the market are raised by F. L. Post. Leave your orders with Wallace & Walker or J. P. Irvine & Son.  
Miss Bertha Simpson and Mrs. Clara Patterson and children of East Portland are visiting their mother, Mrs. A. D. Simpson.  
The new line of fall cloaks, capes and dress goods at Apperson's will attract deserved attention the next few weeks. Notice what he has to say in his ad.  
Mrs. Ida Foster of Portland, president of the Rebekah Assembly, will be in McMinnville next Tuesday night, and a large attendance of the membership is desired.  
The Grange & Farmers' store received two very large invoices of new goods this week and the store is almost completely filled with new things at low prices.  
Wm. Chrisman came in from Hebo last week for a load of supplies, returning again early in the week. He is about the first man out and the last man in when it comes to camping.  
Why do Millsap & Son enjoy the best grocery trade in town? Answer—they handle first class, clean, pure goods, sell them low, and always endeavor to treat their customers right.  
The annual convention of the W. C. T. U. for Yamhill county will be held at Newberg, August 31st and Sept 1st. Opening session 2.30 p. m. on Tuesday. Achia M. Morris, president, Ida Macy, secretary.

Mrs. A. C. Davis and family have received payment of the \$2000 beneficiary in the Workmen lodge carried by Mr. Davis, deceased, and feel very grateful to the local lodge for its promptness in securing the adjustment.

There are two classes of people. One is going to Klondike, the other to stay at home. The latter needs clean, pure, fresh groceries at lowest living prices to protect his health and pocketbook. Millsap & Son can meet his wants better than any other firm in town.

J. Hogg, the photographer, left yesterday morning for Nelson, British Columbia, where his son Morley is located, and where he is having more work than he can do. The studio here is at present in charge of Mr. S. B. Fay and Miss Edith Hogg. Mr. Bradley of Dayton will take charge in the near future.

A business change that will interest a good many people is involved in the sale of the blacksmith shop and business of C. D. Johnson. E. F. Sutherland is the purchaser, who will hereafter do business at this old and well known stand. Mr. Johnson commenced business there in 1866, thirty-one years ago, and has staid with it up to this time. As the result of industry, steady application and honorable methods in business, he has been prosperous. The sale of his shop does not necessarily mean retirement, but to take the opportunity to settle up his business before venturing on any new enterprise.

There have been some recent developments in the Redmond failure. Before Mr. Redmond made an assignment he executed several chattel mortgages, aggregating about \$6000, upon his stock of merchandise. It was evident that the goods were insufficient to satisfy the mortgages in full, and there was besides an additional indebtedness of about \$4,000 to other creditors, Flesher, Myer & Co. of Portland being the principal. Now come Flesher, Myer & Co., representing the interests of the unprotected creditors, and ask for the appointment of a receiver in the person of A. Oberdurger, which request has been granted by Judge Sears. Their purpose is to contest the validity of some of the mortgages. McCain, Irvine & Vinton represent the contesting creditors.

E. C. Apperson expects to occupy his new residence by September 1st.  
W. L. Warren and Dave Neyberger are back already from their coast trip.  
Bricklaying began on the second story of the Jacobson block yesterday morning.  
Miss Eva Archbold of Hillsboro was visiting her cousin, Nona Nicklin, this week.  
George Hibbs lost a good horse on Tuesday, being the second loss of the kind this season.

It is reported that Rev. P. Brown has bought the Capt. Stewart place in the northwest part of town.  
Any one who desires second-grade peaches can obtain them at Post's orchard at 40 cents a box, by going after them.  
Minnie and Jennie Howell left yesterday to join their parents near Oregon City. Dexter will remain here a few weeks.  
Miss Eva Martin is in Portland selecting stock and preparing for the fall millinery campaign, which promises to be a lively one.  
Mrs. J. B. Gardner and daughter and Miss Minnie Schenk returned home from Jones' mill yesterday. But few camps are left up there.

It is only a little more than a fortnight till college opens. There are assurances that the attendance this term will be the largest in the history of the school.  
The Garrison opera hall has recently been touched up and improved. If it could be enlarged to about double capacity it would better serve the needs of the city.  
When harvest is over and a little chance to breathe is found, let the road question be revived and more good and thorough work put in. It is work that pays.  
The snagboat is working an extra crew at the mouth of the Yamhill, removing the sandbar which, aggravated by the extremely low stage of the river, threatens to impede navigation.

The marriage of Miss Julia Grace Veazie to Mr. Irving Mackey Glen, of the state university, is announced. The marriage will occur August 31, at Lyle farm, near Dallas.—Sunday Oregonian.  
There are being built quite a number of fruit evaporators this season. There is still an opening at this point for some enterprising man to start a dryer and use up the fruit that annually goes to waste.  
Mrs. John Evenden wishes that all of her pupils and those desirous of commencing lessons, would communicate with her before Sept. 1st in order that she make arrangements for time of lessons.

R. M. Wallace of Salem received telegraphic returns from a carload of Bartlett pears shipped from the Wallace orchard to New York, saying they sold at \$2.15 a crate. This is equivalent to about \$1.25 a bushel net.  
County Treasurer Caldwell is a subject for sympathy. He is doing his own cooking, his folks having gone to the hop fields. He says it wouldn't be so bad if his early education in that line hadn't been sadly neglected.  
Dr. Minty has some very nicely preserved specimens of heather flowers sent him from his native country. The plant is very attractive and after seeing a specimen one can understand why it is celebrated in Scotch literature.

Wheat was worth 80 cents in the local market yesterday. There was a sharp advance in the New York market of 5 cents, but the local effect was lost by an advance in charter rates by boat owners waiting for cargoes in Portland.

Are you going to fence? If so do not fail to see Mr. Reed, of the McMinnville fence works. He has the cheapest and best fence on earth for any and all purposes. It will turn stock of all kinds and is strong, durable and ornamental.

D. B. Kingery was the first man to land a load of prunes in the packing house, which was on Wednesday morning. The others were but a few hours behind him, and the picking and packing campaign is now under full steam. What with the wheat and prunes and hops to care for, these are busy times.

Mr. Chas. Miller, a druggist who has done business in Forest Grove for several years, has leased the Tyler building and will open out a stock of goods about September 1st. Mr. Miller is a relative of J. P. Irvine. The Campbell building one door west is being fitted up for W. L. Hembree's stock of books and stationery.

While the summer season, generally speaking, has been mild and agreeable, the last two weeks will go into the weather record as a period of unprecedented high temperatures. Not only has the warmest day in years been scored, but an unusual number of days on which the mercury reached an altitude about or close to the 100 mark.

The library and some of the personal effects of Elijah Carpenter, who suicided near Newberg several months ago, have been placed in the hands of the county treasury by the coroner to be sold. The library is composed of 50 to 60 volumes, some of them valuable books. An old Adams arithmetic published in 1841 is among the collection. There is a chance for some school district to obtain a bargain on a Webster's unabridged dictionary.

Nearly all the campers by the seaside and in the mountains have returned, but the call from the hop yards and prune orchards make the town seem desolate still.

The Mark sisters, milliners, have decided to move to Walla Walla, Wash., and are engaged in packing their goods for shipment. Miss Sarah is at present in that city where she finds the situation most encouraging for a first-class millinery store.

A Home Industry.  
The "McMinnville broom" has made a place for itself upon its merits, but there is another reason why it should be preferred. Its manufacture is a home industry. The output of the factory this season will be chiefly from corn grown in Yamhill county, and the ready sale of the goods will benefit a score or more of farmers. Something like 100 acres is being grown, in promising condition, and a market for the product not only means the support of a home manufacturing business, but the promotion of a profitable farm industry. Buy only the McMinnville broom.

In 1862, when I served my country as a private in Company A, 167th Pennsylvania Volunteers, I contracted chronic diarrhoea. It has given me a great deal of trouble ever since. I have tried a dozen different medicines and several prominent doctors without any permanent relief. Not long ago a friend sent me a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after that I bought and took a 50 cent bottle; and now I can say that I am entirely cured. I cannot be thankful enough to you for this great Remedy, and recommend it to all suffering veterans. If in doubt write me. Yours gratefully, HENRY STEINBERGER, Allentown, Pa. Sold by S. Howorth & Co.

Small Farm for Sale.  
45 acres near the city, all in cultivation, good house and barn, and all kinds of fruit. For sale at a bargain, or will trade for a smaller place. Address Box 119, McMinnville. 38w4

Scientific calculation has demonstrated that the waters of the oceans hold in solution ten billion tons of gold. The ocean is public property, consequently every person on the earth has something like ten tons of gold to his credit.

The workman often eats his lunch on the same bench where he does his work. The office man turns his desk into a dining-table. Neither gets the out of door exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order. In such cases Dr. Pierce's Pleasant Pellets come to their assistance by aiding nature in taking care of the food. The cause of nine-tenths of the sickness of the world is constipation. From this one cause come indigestion; disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. The "Pleasant Pellets" are tiny, sugar-coated granules. They will perfectly cure the worst case of constipation and indigestion. If the druggist tries to sell you some other pill that pays him greater profit, just think of what will best pay you.

THE FOLLOWERS OF MR. BRYAN last fall made their rallying cry "More money." They did not get Mr. Bryan into the presidency, but they and all of the rest of the people "are getting more money," and that speedily. The only way to get money is "by work. By the passage of the Dingley bill the home market has been restored to American manufacturers. The wheels of industry are already beginning to turn, and a wider opportunity to labor is being offered to the American people. There will be plenty of work in the near future, and plenty of work means plenty of money.
