VOL. XXVII.

Entered at the Postoffice in McMinnville, as second-class matter.

M'MINNVILLE, ORE., FRIDAY, SEPT. 3, 1897.

SUBSCRIPTION PRICE \$2.00 PER YEAR. One Dollar if paid in advance. Single numbers five cents.

NO. 37.

The Blue and the Gray.

Both men and women are apt to feel a little blue, when the gray hairs begin to show. It's a very natural feeling. In the normal condition of things gray hairs belong to advanced age. They have no business whitening the head of man or woman, who has not begun to go down the slope of life. As a matter of fact, the hair turns gray regardless of age, or of life's seasons; sometimes it is whitened by sickness, but more often from lack of care. When the hair fades or turns gray there's no need to resort to hair dyes. The normal color of the hair is restored and retained by the use of

Ayer's Hair Vigor.

Ayer's Curebook, "a story of cures told by the cured." 100 pages, free. J. C. Ayer Co., Lowell, Mass.

NORTH YAMHILL.

Hop picking is now in full blast. Uncle John Hutcheff is very near death's door at present. U. L. Frayzer of Monmouth spent Sunday with the Bunn family. Miss Mary Burton of Tillamook is the guest of Miss Mabel Brown. Miss Grace Trullinger is visiting her grand parents in Hillsboro. Pearl Stewart of Gaston visited Mrs. Bedwell the first of the week. S. Fairchiles has just finished building a new roof on R. Baird's barn. Mrs. Warren Merchant and son of Portland are visiting in this city. J. A. Campbell and wife spent a few days of this week in the city of Portland. Miss Mena Murton of the state school for the deaf is the guest of her aunt, Mrs. J. Williams. Carl Trullinger and Sue Johnson drove down to Forest Grove Sunday and visited Mrs. Webster. Maude Reed and Warren Glandon rode their wheels to McMinnville after the shower on Tuesday.

Mrs. Lute Morris is very sick, and her mother, Mrs. H. M. Daniel of McMinnville, is staying with her.

Dr. Dixon, a dentist from Newberg, will be in this city every Saturday for a few months in the future.

Maud Brisbane returned home from Sheridan, Wednesday, where she has been visiting for the past three weeks.

Miss Rose Haines returned to her home in Portland the first of the week, after an extended visit with friends in this city.

H. L. McCann has gone to Wichita, Kan., to visit relatives until school begins in this city, which will be about October 1st.

C. V. Kuykendall is hauling material and will soon begin the construction of a windmill, which will greatly improve the appearance of his place.

Hon. Lee Laughlin went over to Tillamook this week, where he will remain a few days, and Mrs. Laughlin will accompany him on his return home.

M. D. Hoffstatter received a severe gash on his head Saturday, while working in a well, the result of a thirty-pound iron bucket falling from twenty feet above him and striking him on the head. Dr. E. O. S. Barton dressed the wound and said he could not tell at present whether or not the bone was fractured.

Frank Shepherd was hurt on Tuesday by the wagon and a load of wood falling on him. He was coming down a steep hill, when the brake gave way, and the wagon was going at a rapid speed when it struck a stump. Frank fell from off the wood and the wagon and wood fell on. He was rendered unconscious and when found was carried home, and after careful examination it was discovered that two of his ribs were driven into his lungs. His condition is yet unknown, as it was a severe accident and may prove fatal.

"My boy" came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. Drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkable short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by S. Howorth & Co.

IMPORTANT TO SUBSCRIBERS.

Since February, 1892, the following notice has appeared regularly at the head of this paper: "Subscription price \$2.00 a year. One dollar if paid in advance." There is a difference equal to the dutchman's one per cent, and on the face it looks like a pretty steep charge for carrying a small account. Now the time has arrived when it is meet and proper to do a little talking about squaring delinquent accounts, and what we have to say will be to the point. It is this: Any subscriber who calls and settles his account can do so at the rate of \$1 per year for the time since Feb. 15th, 1892. We do not want the extra dollar a year from any subscriber who aims to deal squarely with the publisher, and we are willing to take the public into business confidence to the extent of saying that the \$2 rate is maintained solely for the benefit of the class who attempt to avoid payment after their accounts have accumulated. The \$1 rate is so low that a publisher can not afford to incur expense in its collection, and the \$2 rate is none too high in case he is obliged to.

CASTORIA.

The famous signature of *Chas. H. Fletcher* is on every wrapper.

DAYTON.

C. K. Spaulding was in town Sunday. Robert Miller is putting a new roof on his barn.

Ben Lewis, Willis Starr, and families returned from Sodaville on Saturday.

The Demorest silver medal contest is to come off to-night at the Methodist church.

J. M. Crawford received word Monday that his aunt, Mrs. Stevens of Oregon City, is dead.

With four mails and a boat daily, Dayton is not far removed from the world of business and activity.

At the regular meeting of the school board last week they settled on the 13th of Sept. as the time for school to commence.

William Dile, a druggist of Pendleton, and wife were in Dayton last week visiting with Mrs. Dile's sister, Mrs. Carrie DeForde.

Paul Limerick, who has been working in the Mutchler wagon factory, has gone up on the upper Columbia for a short stay.

Each up-river boat is loaded with hop pickers for the up-river hop fields. They are jolly crowds, and more resemble excursion parties than they do people going away to labor.

The new school house on the Larkins place is being built rapidly and is going to be an honor to its section of the county. It is modeled after the Waddle school building.

The proudest man in Dayton at present is Charlie Moore, as he now is a father, and that of a boy. Mr. Moore, as he now wishes to be called, walks up the street not wearing his accustomed soft hat, as that would be too undignified for a man with such a fine son, but with a derby on his proud head and a look of pride upon his face that equals the pride of Dombey in the famous work "Dombey and Son."

Simpson, the Oregon poet, in his beautiful "Ode to the Willamette," says, "Time that mars us, maims and scars us, leaves no track or trench on thee," but a person coming down the river at the present time would come to the conclusion that Father Time is making as much of an impression on the river as he is on the human race. The river is changing and shifting continually; land that was on this side five years ago now is in the middle of the river, and land that was in Yamhill county ten years ago is now in Marion county. At other places land that was in Marion county is now in Yamhill. It is not known in the fall in what channel the river will be in the spring. In some places the river runs in two channels, and at this time of the year it is only by continuous hard work that the boats can be kept running. Capt. Hatch with the new U. S. snag boat, Mathaloma, has about thirty-five men employed building wing dams to throw all the water into one channel, driving piling and filling in with dirt and fascines to keep the water from cutting through the slotgths. A crew of men is also employed at the mouth of the Yamhill river, so that the boats can run up to Dayton. Many who have investigated the matter are of the opinion that the locks which are to be put in the river should be put in at the mouth instead of at the Denny place just below Lafayette.

Licenses to Marry.

Aug. 23—Arl A. Versteeg, 22, and Malissa Irene Cook, 22.
Sept. 1—Roswell L. Conner, 31, and Myrtle M. Apperson, 25.

LOCAL NEWS.

Will Logan will shortly move to the Hi Peery farm in Happy valley, and his residence here will be occupied by Mr. and Mrs. R. L. Conner.

Moses Johnson lost his thrasher and engine by fire Friday. He was threshing near the county line beyond Gaston, and left the machine and went to dinner, and when he returned the machine, engine and considerable grain was destroyed.

Ripe strawberries grown in the Suburbs of Corvallis, are shipped every day to Portland and other markets where they are sold at three boxes for a quarter. So far as known, no other place is marketing fresh strawberries at this time in the season. The fruit being shipped is grown on the Berlin fruit farm.—Times.

The Workmen in some of the Portland lodges have decided to contest the graded assessment plan lately adopted by the grand lodge. Members of the order in McMinnville who have given the change the most thought believe it to be a good one, and that the action of the Portland brethren is ill-advised. They are members of long standing, too, upon whom the change bears hardest.

The first meeting of the choral union after the summer vacation was held in the Presbyterian church Wednesday evening. The meeting was not largely attended, but those present were enthusiastic in the determination to continue the organization, and remarks were made along this line by President Lewis and F. E. Rogers. Owing to the busy season, adjournment was taken until the first Wednesday evening in October, when election of officers and other business will be attended to.

WEEKLY CROP BULLETIN.

PORTLAND, OREGON, August 30, 1897.

The past week was much cooler than the preceding one, and the week closed with southerly winds, thunderstorms and rain. The mean temperature for the week was 67 degrees, being 11 degrees cooler than for the preceding week. The maximum temperature averaged 79 degrees, the highest being 82 degrees and the lowest 72 degrees; the minimum averaged 55 degrees, ranging from 50 degrees to 62 degrees. The rainfall amounted to from a trace to .25 of an inch. Showers occurred in the southern counties Saturday night; during Sunday and to-day they were general, being, as usual, heaviest along the northern coast. The smoke became more dense during the week, but was less dense to-day, owing to the southerly winds and to the showers. Fall-sown wheat is safely stored in warehouses, etc. Threshing of spring-sown wheat is nearly done. All reports agree as to the excellent yield and quality. Spring-sown grain is considerably above the average. Oats are safely out of the way; they are of a superior quality, and the yield has been excellent.

Prunes are ripening rapidly; large quantities are being shipped for fresh fruit, and those over ripe go to the driers. The driers are all starting up. The prune crop is much heavier than was anticipated. The shipment of Bartlett pears and Crawford peaches continues. Trainloads of fruit consigned to the Middle West and the Atlantic Slope cities have left this city every other day for the past two weeks; the fruit has arrived in good condition and commands good prices. The main crop now demanding attention is the hop crop; the weather prevailing is not favorable. Picking has commenced in all sections. The hop louse is bad. Mould has appeared in some yards, and the total product will be less than heretofore expected. Hop pickers are not over plentiful. The quantity and quality of the hops will not be an average. The apple and late peach crops will be good, the former being freer from the effects of the Codlin moth than usual. Corn is a good crop for Oregon. Corn in Oregon does not grow to that perfection that is found in the Mississippi valley. Pasturages are now at their poorest, though stock is yet in good condition. Potatoes continue to be reported a big crop. Melons, squashes, cabbage, etc., are prolific. Grapes are a better crop than usual, and the early varieties are now ripe or ripening. Within a few weeks all crops and produce will be gathered, and plowing for next year's crop commenced.

B. S. PAGE.

A Cure for Bilious Colic.

RESOURCE, Screven Co., Ga.—I have been subject to attacks of bilious colic for several years. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the only sure relief. It acts like a charm. One dose of it gives relief when all other remedies fail.—G. D. SHARP. For sale by S. Howorth & Co.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

Up about Tacoma they are stealing horses to take to the Klondike. This is one of the bad features.

L. N. Roney was awarded the contract for building Lane county's new court house foundation; the price is \$8700.

The letter-carriers at their coming convention at San Francisco will be given a round trip passenger rate from Chicago of \$62.50. It will be open to the public.

Ex-Senator Breckinridge of Kentucky, against whom Miss Pollard holds a judgment for \$15,000, passed through Oregon last week. Hope he isn't going to locate.

Everything points to greater prosperity on the Pacific coast. A new oriental steamship service has been secured for Portland, which provides for one steamer every 28 days between Portland and the leading ports of China and Japan. This will afford the best transportation facilities ever enjoyed by the Pacific northwest.

Shingles are one of the chief products of the lower Columbia section and their unprecedented low price for the past three years has been a serious matter to the lumbermen of that section. Of their rise in value the St. Heiens Mist has the following to say: Shingles are now said to be selling \$1.12 1/2 in Portland, and retailing at \$1.20. Six or eight months ago shingles were a drug on the market at 70 to 75 cents. Is it a short crop of shingles in Europe that has brought about this change?

The Oregon Land Company of Salem will begin operating its fruit driers on Monday, September 6th, and will prosecute the business so vigorously as to make it profitable for all concerned. This firm is also engaged in shipping green fruit, and expects to send away from ten to twelve carloads of green prunes, plums and pears to Eastern markets. The firm is now offering \$10 per ton for good prunes, delivered, and has also made arrangements to buy the entire output of several orchards, taking the fruit on the trees. This company expects to dry 15,000 to 17,000 bushels of all kinds of prunes, the most attention being paid to Italians and petites. The output of the company's own orchards will also be carefully handled and placed on the market.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means not-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cordial. For you know that indigestion makes poison, which causes pain and sickness. And that Shaker Digestive Cordial helps digestion and cures indigestion. Shaker Digestive Cordial does this by providing the digestive materials in which the sick stomach is wanting. It also tones up and strengthens the digestive organs and makes them perfectly healthy. This is the rationale of its method of cure, as the doctors would say. Sold by druggists, price 10 cents to \$1.00 per bottle.

At Eugene this season of the year hop checks pass current for money, and no inconsiderable amount of business is done with them.
