FRIDAY, SEPT. 10, 1897.

LABOR day should be abolished or rechristened. It is a day of enforced idleness to some people who prefer to work and a matter of great inconvenience to the public.

THE Corvallis Union says it is the intention of Senator Mitchell's friends to keep him out of the senatorial race and run him for governor. It is very doubtful if Mitchell would bother with the governorship, except as a possible stepping-stone to his former place.

THE San Francisco Call has proved, by the publication of a fac simile of Mr. Bryan's letter asking for the same, that the popocratic idol rode all over the Pacific coast on a railroad pass, on the occasion of his recent visit out here. This is not very important, except that it is one of the small items in a large general account, that will in time convince the popocratic mind that its idol has feet of clay. That was all that ailed Mr. Cleveland as an enduring popular idol. His feet were of clay.

HON. T. T. GEER wanted the Portland collectorship and was given the registership of the Oregon City land office instead. There is said to be little more than a bare living in the land office. In our opinion it is shabby treatment and seems to demonstrate what has often been said in politics, that it doesn't pay to be always loyal, patriotic and honest. There is no man who more thoroughly deserves a good place than T. T. Geer, and he is as capable as he is deserving, but somehow the political gang who manage things are always fighting him.

The truth is, Grover Cleveland gave the country a thoroughly and pitifully un-American administration. It was alien in character and sympathy. This was shown in all sorts of ways, beginning with the withdrawal of the Hawaiian treaty and permeating the whole administration, and operating as a general frost. American interests were nipped and cut down, if not killed, by that frost. There could not be any healthy growth of these interests. William McKinley is not simply a protectionist. He is every inch an American, and every American interest responds to the quickening touch of his Americanism.—Inter Ocean.

The Chicago Record prints the following letter from Governor Lord, of Oregon: "Reply to your recent question, I have to say that, in my opinion, the most important subject to be taught in the American public schools are the common English branches. In my judgment, it is not properly within the province of the state to furnish higher education for the public. Something must be left for individual ambition and energy, and I believe the state does its duty when it provides a good, common school education." The governor is eminently correct.—Eugene Journal. That depends upon what the governor considers a good common school education. If he is in favor of embracing more than the "three R's" in the common school curriculum it is evident that his opinions have been influenced somewhat by the false notions that have sprung up in the northern and eastern states and some of the southern states in the last half century. Our forefathers, some of them, "fit" nobly against the encroachment of higher education in the common school, and log school houses and pine benches were good enough for them. They believed in leaving something for individual ambition and energy.

Grass has started up fresh, which is likely to shorten the feeding season and put stock in condition for winter. The plows are also started to running early, insuring a good area of fall seeding for the next crop.

CURRENT NOTE AND COMMENT.

New York city has a lot, 104 square feet, which has an estimated value of \$1,728,000. That beats Klondike.

The long Arctic night soon to close down on the Klondike will not deprive that region of its interest as a news center.

The railroads are employing 100,000 more men than at this time last year. It is hard to keep the run of all the items of republican luck.

At a reunion of the Smith family in Blair county, Pa., the attendance was 4000, and this was only one-third of the number entitled to be present.

The Grand Army, which reached highwater mark in 1893 with a total of 403,024 members, has now decreased to 319,456. It is still a great, but a vanishing, host.

The philosopher of the Philadelphia Enquirer gives out the following sound prophecy: "The woman who marries a man to reform him is willing to let out the job after the first year."

Canada has 12,000,000 bushels of barley that she wants to market in the United States, and doesn't like the Dingley bill. The Dominion also has a big crop of potatoes ready to ship in.

At the next session Congress will be asked to add two regiments of artillery to the army to look after coast defense. Much work has been done of late on a general plan of coast fortifications.

Lord Wolsey says the range of modern rifles makes it madness to carry flags into action, and that it would be equivalent to ordering a color-bearer to be assassinated. The German regiments use bare poles, which are less conspicuous.

The rich Cherokee bosses in Indian territory who have a good thing in holding "land in common" are violent in their opposition to the new order of "land in severalty." It knocks the pins from under them, and they propose to fight. They will soon get tired of it. The arrangement to give each Indian his home is right, and will stand.

An esteemed contemporary yesterday introduced a letter from Joaquin Miller dated Chilkoot Pass with the statement that when received at San Francisco it "had become almost obliterated in some parts, evidently by rain." More likely, we should say, Mr. Miller must have dropped his manuscript in the soup at the Seattle hotel where he is reported to be comfortably tarrying while he supplies his newspaper syndicate with picturesque accounts of imaginary adventures in Alaska.—Globe-Democrat.

Supposing W. J. Bryan did travel on a free pass while he was on the Pacific coast—Friend of Man. No just-poising mind can suppose such a thing. The widest-scattering imagination shudders to imagine a gifted young foe of corporations journeying D. H. It is necessary for Mr. Bryan to travel, for he feels the irresistible impulse to spread himself over the country and communicate himself to the world. But there should be no reason to believe that he travels on a free pass. He has beauty, eloquence, dramatic talent, a hundred ways of paying his way if he does not care to help the accursed corporations by paying his fare. And above and beyond all these endowments stands his unsurpassed skill in reading the future. The man who foresaw that wheat would be worth 25 cents a bushel if McKinley was elected, has no need of free passes. He can make money selling futures.—New York Sun (Dem).

W. C. T. U. County Convention.

The meetings were held in the Union rooms, Newberg, Aug. 31st, 10 a. m., found the president, Mrs. A. M. Morris, in the chair, with a goodly number of delegates present. As is the usual custom of the organization, the session was opened by devotional exercises conducted by Mrs. Jane B. Votaw. In the absence of the recording secretary, Mrs. E. Martin filled the vacancy until the arrival of the secretary, Mrs. Ida Macy, at a late hour. The morning and afternoon sessions were largely occupied in the reading of the annual reports. Many of these showed effectual work accomplished. The treasurer's report was gratifying to the convention as it showed all debts canceled and a few dollars in the hand. The thorough work done by the superintendent of hygienic physiology shows that interest on the part of teachers is increasing and the subject of scientific temperance instruction is receiving marked attention. At noon-time the business of the convention was put aside and the time devoted to prayers. Some of these were vocalized, with others, the silent utterings of the heart were heard by God alone. During the noon hour tables were spread with all the good things of the land, and for two hours the social feature was at full height.

At the opening of the afternoon session there was a marked increase in the audience, owing to the arrival of delegates and visitors from various unions. The opening consecration service was very impressive. Near the close of the afternoon session the election of officers resulted as follows: county president, Mrs. A. M. Morris, Newberg; recording secretary, Mrs. Neal, McMinnville; corresponding secretary, Mrs. M. Wessner, Newberg; treasurer, Mrs. Ida Macy, Dayton.

As there was still much business on hand an evening session was indispensable. This was opened by Mrs. Lumm, of Dayton, in a praise service. After the report on mercy and peace a touching appeal was read from Mrs. M. P. Round, state superintendent of these departments, inspiring us to a fresh impetus to the work.

Space forbids comment on the full reports in the various lines of work done by the unions. Several new unions have been organized during the year. An interesting letter was read from the Grand Ronde union.

The following persons were elected superintendents of departments: Evangelistic, Mrs. Jane B. Votaw; S. S., Systematic Living and Sabbath Observance, Mrs. Anna Cook; Mothers' Meeting, Mrs. M. Grover; Demorest Medal Contest, Mrs. E. Martin; Narcotics, Petition and Franchise, Mrs. Webber; Peace and Mercy, Mrs. E. C. Johnson; Flower Mission, Miss Mand Faulconer; Parlor Meetings, Lynda Tallman; Scientific Temperance Instruction, Mrs. Lornea Hodson; Purity, Literature and Art, Mrs. Lumm; Literature, Mrs. Jennie Groff; Loyal Temperance Legion, Mrs. Walter Terrell.

The time for holding the next county convention was left with the county executive.

Mrs. Ida Macy was appointed a delegate to the state convention to be held in Albany in September. The following resolutions were adopted:

Resolved, that the county convention in annual assembly, through the work of our superintendents, see that our work has made grand progress during the past year, and that our president and others have done such efficient work and new members are joining our ranks all over our county, therefore be it Resolved, that the individual members of this convention take on new enthusiasm and zeal for this work in Yamhill county and that we lend our most earnest effort in whatever way we see will bring more of Christ's kingdom on earth and good health, intellect and morals to mankind.

A Home Industry.

The "McMinnville broom" has made a place for itself upon its merits, but there is another reason why it should be preferred. Its manufacture is a home industry. The output of the factory this season will be chiefly from corn grown in Yamhill county, and the ready sale of the goods will benefit a score or more of farmers. Something like 100 acres is being grown, in its promising condition, and a market for the product not only means the support of a home manufacturing business, but the promotion of a profitable farm industry. Buy only the McMinnville broom. 36tf

Frank Brown, superintendent of the Reed & Howe stock farm of North Yamhill, was in the city yesterday. He is making arrangements for a exhibition at the state fair. Their herd of shorthorns, 10 in number, will be headed by the prize-winning cow, Woodruff Bell. Paroli will head their stud of Percherons, and a fine exhibit of Southdown and Cotswold sheep will be on the ground.

"Sweet Bells Jangled Out of Tune."
How much of woman's life happiness is lost for lack of harmony. A hundred sweet melodies ruined by one little note of discord. Women who ought to enjoy the perfect happiness of love and wifehood and motherhood are miserable from one year's end to the other, because of some weakness or disease of the delicate organism of their sex. These delicate complaints, which make a angling dissonance of so many lives, are not by any means a necessity of womanhood. They may be overcome and completely eradicated under judicious treatment. There is no need of repugnant examinations. There is no need of resorting to any unauthorized medication compounded by an unskilled, uneducated person. Doctor Pierce's Favorite Prescription cures the troubles of the feminine organism positively, completely and safely. For nearly 30 years Dr. R. V. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. He is an eminent and expert specialist in this particular field of practice. Any woman may write to him with perfect confidence, and will receive, free of charge, sound, professional advice and suggestion for self-treatment by which 99 out of 100 cases of female complaint, even of the most obstinate kind, may be completely and permanently cured. Address him as above.
"While I was living at Eagle Rock, Botetourt Co., Va.," writes Mrs. G. A. Connor, of Allegheny Spring, Montgomery Co., Va., "a lady friend came to me and said: 'My daughter, aged 15 years, has repeated hemorrhages at the nose, and she has never had the necessary indispositions of womanhood.' I advised her to get Dr. Pierce's Favorite Prescription. The lady purchased one bottle and it cured her daughter. She was well and happy when I left there."
Constipation is the all-embracing cause of ill-health. Dr. Pierce's Pleasant Pellets cure it. They never gripe.

Notice to Taxpayers.

A Sure Thing

Is what all are looking for in GROCERIES

Most people would rather trade where they know they will get a good article at the lowest living figure, and one which when delivered at your door is ready to use, is just what it was represented to be when sold, is full weight and full measure, rather than to have a lingering conviction that you need a house scales, an analyzing microscope, or a blue room in which you can retire and swear in order to get even with your grocer.

THIS EXPENSE IS SAVED

if you trade with us. Our idea of the grocery business is BEST SERVICE POSSIBLE AT LOWEST FIGURES. Not to secretly cut weights and measures down, make slight reduction in price as a bait, and yet skin the customer on the measure he gets. Such methods bring sure defeat.
