NO. 40.

AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

March 8, 1897.

Do Not Be Deceived.

Do not endanger the life of your child by accepting a cheap substitute which some druggist may offer you (because he makes a few more pennies on it), the ingredients of which even he does not know.

"The Kind You Have Always Bought" BEARS THE FAC-SIMILE SIGNATURE OF

BURNS & DANIELS

Have an immense stock of furniture. They have to keep a big stock, because they have a large territory to supply. Prices on everything in our store are surprisingly cheap just now. If you want proof of this, come in and price the goods.

WALL PAPER. UNDERTAKER'S SUPPLIES.

A Little Cool Occasionally

And likely to get cooler. Do you need a Heater? We claim an excellent assortment of Stoves at most reasonable prices. Inspect them.

Plowing and Seeding Season

is also here. Plows, Seeders and Cultivators get old and worn and do poor work, spoiling your temper and wasting your time. Our goods in this line are first-class, and it is a pleasure to use them.

Boiled Oil and Paints

we have put away down in price, to enable our patrons to make a cheerful-looking home for the winter as well as preserve their houses from the decay of rain, wind and sun.

DAYTON.

Fred Robertson is on the sick list. Mrs. O. N. Denny was visiting here last week. Rev. L. F. Belknap was in town Thursday.

School opened Monday with a good attendance. The Gray Eagle is now making daily trips to Portland.

Grandma Knauche, who has been seriously ill, is slowly improving.

W. K. Curtis of Forest Grove is in the city visiting friends and relatives.

Threshing is completed in this vicinity and hauling straw is the order of the day.

Dr. Leroy Lewis of McMinnville was in town Saturday doing some dental work.

Mr. and Mrs. King of Priary, Wash., who has been visiting with Mrs. D. M. Dorsey, returned home Tuesday.

Most of the hops in this vicinity are harvested in good shape. Very little damage from mold or lice is reported.

Louis Hoskins of Newberg was in town Monday, and reports everything in a flourishing condition at that place.

Rev. Lee is to fill the Methodist pulpit for another year, which causes great rejoicing throughout the camp at this place.

Eugene Wooster is confined to his home with the ague. J. H. Flower is filling his place at the drying plant of Wooster & Robinson.

L. R. Alderman left Saturday for Eugene where he will attend the state university. He will spend Sunday with his uncle, Gen. W. H. Odell of Salem.

Born, to the wife of Carl Launer, on Sept. 17th, a girl. Weight 7 3/4 pounds. The beaming smile on Carl's face is visible quite a distance before he comes in sight.

Dr. E. M. Smith is working on an invention, the nature of which he keeps to himself. So look out for a perpetual motion apparatus, a flying machine or a rudder for a cyclone.

A. L. Alderman is occasionally seen in front of his residence in his wheel chair. He is slowly recovering the use of his limbs, and it is thought that he will soon be able to walk again.

We are very sorry indeed to lose our merchant, Mr. Matthias, as we were just getting acquainted with him and to appreciate his value as a business man and citizen. May success go with him.

Rev. Gordon and wife of Forest Grove paid this place a short visit Saturday, shaking hands with friends and relatives. They left Monday for Drain where he will take charge of the Methodist pulpit.

D. A. Snyder (the pioneer fruit merchant) is working his evaporator night and day and expects to keep it in operation all winter. Onions, potatoes and carrots will principally receive his attention.

Prof. Harry Simmons of Seattle is in town on a business trip. He has just returned from London, and is sent here to investigate the mines west of McMinnville that created such an excitement last year. So look out for another Klondike.

Adam Rosner is going to the Klondike in the spring. He was in Alaska prospecting in 1870, and his party had just found good indications of gold when their food gave out and winter came on. Ever since his return he has had a desire to go back and is now determined to go in the spring.

The Shakers of Mount Lebanon, a community of simple, honest, God-fearing men and women, have prepared the Shaker Digestive Cordial for many years, and it is always the same, simple, honest curative medicine that has helped to make the Shakers the healthy, long-lived people that they are. The Shakers never have indigestion. This is partly owing to their simple mode of life, partly to the wonderful properties of Shaker Digestive Cordial. Indigestion is caused by the stomach glands not supplying enough digestive juice. Shaker Digestive Cordial supplies what's wanting. Shaker Digestive Cordial invigorates the stomach and all its glands so that after awhile they don't need help. As evidence of the honesty of Shaker Digestive Cordial, the formula is printed on every bottle. Sold by druggists, price 10 cents to \$1.00 per bottle.

It Saves the Croupy Children.

SKAVIEW, VA.—We have a splendid sale on Chamberlain's Cough Remedy, and our customers coming from far and near, speak of it in the highest terms. Many have said that their children would have died of croup if Chamberlain's Cough Remedy had not been given.—KELLAM & O'BRYEN. The 25 and 50 cent sizes for sale by S. Howorth & Co.

NORTH YAMHILL.

Hop buyers offering 13 cents. Foggy mornings, soon comes winter. School will take up early in October, soon as families return from the hopfields.

A white Russian sunflower on exhibition here measures 44 inches in circumference. Can you beat it.

Oats are not coming in to the warehouses as in former years, leading to the belief that the quantity for export will be small.

This coming week will see many of the hop yards finished up and the people returning to their homes to prepare for winter.

Mr. A. J. Chapman, who is well known here, has just arrived from Umatilla, where he reports everything booming on account of the good prices.

Wheat is worth 75 cents net. Buyers seem to know that many of the farmers' payments are due October 1st, and down goes the price to meet the emergency.

Mr. Perry's warehouse has taken in so far about 18,000 bushels of wheat, which is more than the amount for either of the two preceding years, but far below the old time figure.

Miss Hoffstatter has left us for the present to take a college course in your city. Higher education wanted for women. Men need all the education they can obtain.

A rumor was afloat that Geldard's thresher had burned up in Moore's valley, along with some stacks. It seems that the thresher was saved, but two stacks of grain burned for Mr. Smith. Loss perhaps about \$300.

Someone returning from a dance the other night, by some means got rid of one wheel of the buggy. Dancing is costly. One of our revival preachers here last week designated the dance hall the "ante-room of hell." Think of it, young people and parents.

Word comes from one hop yard that there was danger of a shooting scrape, and that one man was knocked on the head with a rail and another severely beaten. When will men learn that arbitration or anything else is better than brute force to settle disputes.

The demand for draining tile is increasing every year as our farmers become alive to their own interests. Our tile factory is adding to its facilities, and a car load of tile left for Hood River this week, and more to follow. The very clay of old Yamhill is ahead when manipulated by brains.

The lovely Indian summer weather of the last week has helped out the farmers and hop growers. Threshing is almost done and hop-picking in the late yards will likely be over by the 30th, if this weather holds out. Hops are still in fair condition, and any doubtful hills are being left, but the quality will not be all first-rate. The grain, with the exception of some oats, will mostly pass as first-rate, and none lost so far.

The roads leading to town from the hop yards are not as pleasant to travel over as usual, owing to the fact that some of our strangers who are helping gather the hop crop seem to forget the dignity that ought to pertain to man and womanhood and American citizenship, and their appearance and actions would lead one to believe they had been drinking something stronger than water. Our roads are only sixty feet wide, and ought to be made broader or the license of some of the citizens curtailed. The hop business may be good to bring in money at times, but the final reckoning may prove that we would be better without it.

Tax Notice.

By order of county court, all taxes not paid by Oct. 15, 1897, will be declared delinquent and costs added.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros. drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased, and in a remarkable short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism I know of no medicine or prescription equal to it. I consider it a household necessity." The 25 and 50 cent sizes for sale by S. Howorth & Co.

Rev. A. Laurence Black preached his farewell sermon last Sunday, as he returns to McMinnville college to acquire further education and eventually enter the ministry. Mr. Black is a young man attending college, and during the vacation earns money to finish his education. He has, during the past three months, filled the pulpit of the Baptist church in this city and given excellent satisfaction. He leaves with the very best wishes of his congregation. The church has been well filled every Sunday, and the general opinion expressed is that Mr. Black will eventually make a minister of more than usual ability.—Independence West Side.

It is said that more than 2000 horses have been taken to Skaguay, Alaska, since the Klondike excitement broke out. At least three-fourths of this number will be shot or die of ill treatment before winter, and there is likely to be a fresh demand for a large number of horses there next spring. In the wheat section of eastern Washington there were not enough horses this year during harvest operations. If we can get rid of the cayuses which are eating up the grass on the ranges without developing into any value, the average price of horses would advance rapidly. Really good horses are already in demand at fair prices

Royal makes the food pure, wholesome and delicious.

and those farmers who have well bred draught horses of suitable age are no longer finding it difficult to dispose of them. The demand and supply of horses is pretty well readjusted and it will not be strange if we pass through a period of high prices while a fresh supply is being grown.—Oregon Agriculturist.

WEEKLY CROP BULLETIN.

PORTLAND, Sept. 20, 1897.

Except on Tuesday when scattered showers occurred, especially in the southern counties, fair weather has prevailed with higher temperatures. The first light frosts were observed on the morning of the 15th. The mean temperature of the week, 65 degrees, is 6 degrees higher than for the preceding week. The maximum temperature averaged 79 degrees, and the minimum 50 degrees, the highest maximum, 88 degrees, occurred on Saturday, and the lowest minimum, 42 degrees, occurred on Wednesday. The total rainfall varied from a trace to 0.10 of an inch. The winds were generally northerly, and the atmosphere was very clear.

The weather was favorable for threshing, hoppers, fruit-drying, plowing and seeding. The rains the fore part of the month did little real damage to the wheat, and reports at hand show no total loss; some wheat and oats sprouted, some were bleached, but the dry weather coming at an opportune time allowed of practically no damage to the grain crop. Threshing has been actively prosecuted and is nearly all done.

About one-third of the hop crop has not been picked and is lost—due to lice in the first place, and secondly, and the main cause, to the rainy weather producing mold. The hops are now practically all picked, and the drying will be finished before the close of the month. The rain caused the petite prunes to crack open, but drying being active, little loss resulted. The prune crop is reported to be the largest ever produced in the state, and of extra quality.

Grapes are ripening nicely; they are a larger and much better crop than usual. Wine-making has commenced. Figs have ripened in Curry county, and it appears that they can there be grown with profit. The apple crop is very heavy. The flax crop for fibre has been safely gathered, and is now being prepared.

Potato digging is in progress and large yields are reported. Carrots, onions, sugar beets, etc., are reported to be immense crops. The experiments have demonstrated the successful growth of sugar beets containing a very high percentage of saccharine matter.

The soil is in fine condition for plowing and seeding, both of which are being pushed vigorously. The second crop of clover is being cut. The pastures are again green and stock is assuming a prime condition. Everything this year has been successful except hops, and even that crop is good where it was properly attended to. B. S. PAGUE.
