Ask "honest John Gill" whether fusion politics is a good thing or not.

The word popocrat this year means a man who explains what he thought he meant a year ago.—Globe-Democrat.

It is reported that every one of the union party managers either fainted or swore when he heard of the Bourne check transaction.

Europe wants our beef and pork this year as well as our wheat and cotton. The microbe on American produce is no longer in evidence.

"The republican party is responsible for the prosperity which we have with us. I make the assertion from the standpoint of a business man."—Mark Hanna.

Last year the American crop of cotton alone was worth five times as much as our silver output. The silverite party is nursing a very small issue with very poor success.

The 600 dead horses scattered along the trail near Skaguay are a lamentable waste of provisions. A horse steak will be a great luxury in Alaska before the snow stops flying next spring.

If anybody ever said that prosperity in this country could never come under the gold standard, he should be allowed the privilege of silence. A mistake as big as that demands humane treatment.

Don't crowd the average populist too hard. Let him just grasp the idea that wheat can go up without silver, and that prosperity is not tied to Bryan's coattails, and he will be in condition to learn more.

When the banks all over Kansas are "keeping open until 6 p. m." to enable farmers to cash their checks or make their deposits, it doesn't look as if the "working millions" and "the plutocrats" were so far apart after all.

The postal savings banks of England have proved a grand success. The banks of the United Kingdom received last year \$181,291,750, paid interest thereon to the amount of \$12,303,223, paid out \$142,446,643, and had a balance of deposits on hand Dec. 31, of \$540,193,204. The figures speak for themselves.

HON. T. T. GEER has declined the appointment of register of the land office, tendered him at the instance of the congressional delegation. C. B. Moores of Salem has been recommended in his stead. The latter recommendation appears to meet with general favor. The hubbub stirred up over the recommendation of Geer had its origin largely in the belief that he was turned down from the collectorship in order to keep the place warm for one of ex-Senator Mitchell's chief henchmen, and that the plainly indicated wish of the people was being disregarded. Whether the belief was correct or not, it raised a feeling of protest practically universal in this neck of the woods.

CONGRESSMAN TONGUE has in mind a measure of considerable importance to the people of the Willamette valley, that he will introduce in the form of a bill when congress meets in December. It is not for publication, he says, but a measure will be set on foot to condemn the locks at Oregon City for public use. The support of Chairman Hooker of the river and harbor committee, who viewed the site recently, is promised. The charge for lockage at Oregon City is 50 cents a ton, which is a heavy tax on the commerce of the river. The lockage amounts to as much as the freight charges to Dayton. Mr. Tongue should not imagine an easy job in putting the measure through, as he will doubtless find a community of monopoly interests opposing.

LOCAL NEWS.

Trespass notices cheap at this office. A new line of boys' and gents' clothing at the Grange store.

Just received at the Racket store, new lot all wool remnants.

Four pounds of Red Seal lye for 25 cents at the Grange store.

To save your harvest expense buy your groceries of Bettman & Warren.

Miss Bessie Taylor of Independence is visiting Mrs. Chas. Harding this week.

Mrs. Durgin and daughter of Portland are visiting at R. Nelson's home this week.

Chas. Nelson, manager of the Grange store, made a business trip to Portland on Wednesday.

Kay & Todd are now ready for the fall trade with a complete line in all departments.

The county Christian Endeavor convention will be held about the middle of October. It will probably convene in Amity.

When Adam was a young man he evidently went barefoot as there were no Racket stores or any "Brown's Star 5 Star" shoes there. Try a pair of them.

Mrs. Warren invites the ladies to examine her stock of goods, which will be ready for inspection Saturday, Sept. 25. All that is necessary is for them to call. The goods speak for themselves.

The air has been full of rumors concerning prices of hops this week. There seems to be a difference between the quotations of buyers who want to buy and buyers who are not ready to close deals. There are not many changing hands.

A. A. Unruh is building a machine of his own invention for spreading prunes on the trays in drying. It is said to do the work of three or four persons. His brother at Dayton has one of them in use and another has been built for the dryer at Carlton.

There are two classes of people. One is going to Klondike, the other to stay at home. The latter needs clean, pure, fresh groceries at lowest living prices to protect his health and pocketbook. Millsap & Son can meet his wants better than any other firm in town.

Mr. E. G. Heath, from eastern Oregon, has bought the interest of Jesse Edwards in the McMinnville tile factory. We understand that he is an experienced potter, and it will be one of his first plans to test the merits of the clay surrounding here for the manufacture of sewer pipe.

Hon. John Gill, joint representative of Yamhill and Tillamook counties in the legislature (by grace of the union party) was in the city Saturday last. That was all right. Some mischievous busybody who was nosing around into other people's business, somehow got onto the fact that he went to a local bank and cashed a hundred dollar check.

There was nothing very remarkable about that either, in view of the well known fact that prosperity is returning to the country and even popocrats have more checks and money items about their clothes than they used to have. But, say the busybodies, this check was signed by Jonathan Bourne, who managed the legislative hold-up last winter in which Hon. John Gill participated, and it must have been the consummation of a corrupt transaction. It is not necessarily the case by any means. It is probably true that during the legislative assembly an intimate friendship sprang up between the statesman from Yamhill and the statesman from Multnomah. It has been remarked that they were much in each other's company, and it is not improbable that some time when the statesman from the metropolis ran a little short in the pocketbook he called upon his rural friend for the loan of five twenties. The fact that the said check was dated June 9th, 1897, and was not presented for payment until Sept. 18th, is no evidence of political jobbery. There is positively no evidence that it was drawn earlier than indicated on its face and dated ahead to keep a string on the Yamhill statesman in the event of a special legislature. The more probable theory is that farmer Gill, acting upon the thrifty idea of having a personal friend in Portland, consigned his June rake-off of pork to said friend and received his check in return. Fear of embarrassing the banks by its presentation at a critical time, when so many were in doubt about the return of prosperity, and all were watching with the sense of caution that comes from the knowledge that there is a "hen on," would easily account for its being withheld. Yet none of these theories may be correct. Even if the base presumption of the busybodies in the case of Mr. Gill were allowed to stand, it does not establish the fact that all the populists and union party members but one, as charged by one of their members, were bought with money, notwithstanding they all performed exactly as Mr. Gill did in the legislative holdup.

The public schools opened Monday agreeable to public announcement, with an attendance somewhat light owing to so many children being at work. The ceremonies, that were of a semi-public character, were pronounced eminently successful.

The condition of Mr. H. Mills has undergone no marked change, beyond a gradual weakening of the system in consequence of being unable to take nourishment. The naturally strong constitution has asserted itself already to a remarkable degree in keeping spirit and body together.

Congressman Thos. H. Tongue was at Lafayette Wednesday, conferring with the people there in reference to the building of the locks. They were joined by a number of citizens of this place who took a sufficiently lively interest in the matter to be present. Mr. Tongue came to McMinnville in the evening and remained until the following morning. In reference to the building of the locks, he said to a Reporter representative that he felt confident the work would be got under way without further delay. It appears to have been held up partly by some slight misapprehension on the part of the people of Lafayette and partly by a misunderstanding of their attitude toward the enterprise at government quarters. No unfriendliness, or other feeling than that of a desire to conserve the best interests of all parties, has probably existed at any time, and when it comes to a question of now or never with the building of the locks, the people of Lafayette are as much alive as anybody to the public welfare and as ready to make personal sacrifices to advance the measure. So there will be no further appearance of obstruction from that quarter, and if there is any future delay at headquarters some other pretext will have to be set up. Congressman Tongue is showing commendable zeal in this matter, as in all others involving his duty to constituents. There was very little "politics" connected with his visit. Aside from meeting a number of personal friends his time was given to the Knights, who had prepared for his reception in the evening.

TO THE NORTH POLE.

The "secret of the pole" will probably be wrested from the Arctic ice-king before the end of the century—which is only three years distant. No less than three expeditions are getting ready to move into the eternal snows of the polar zone, and it may reasonably be expected that one or all of them shall reach the goal of their ambition, and find the north pole.

Arctic exploration is now much safer than it ever was before. Expedition after expedition has pushed the line of discovery nearer and nearer the pole, and the distance yet to be explored is short compared with what it was fifty years ago. When a given point has once been gained, it is but little trouble for succeeding explorers to reach it again, and make it the starting point for a further forward movement.

Aside from the increased knowledge of Arctic conditions gained by exploration, with the advantage it gives, the difficulty of carrying subsistence has been much lessened by the great advances made in the methods of preparing condensed foods. The less weight to be carried, the farther an expedition can go. And the distance is now so short that it will be a wonder if the pole is not reached by next year's explorers, even if Andree has failed in his hazardous attempt by balloon.

Woman's Work

Is never done, and it is especially wearing and wearisome to those whose blood is impure and unfit properly to tone, sustain, and renew the wasting of nerve, muscle and tissue. It is more because of this condition of the blood that women are run down.

Tired, Weak, Nervous, Than because of the work itself. Every physician says so, and that the only remedy is in building up by taking a good nerve tonic, blood purifier and vitalizer like Hood's Sarsaparilla. For the troubles Peculiar to Women at change of season, climate or life, or resulting from hard work, nervousness, and impure blood, thousands have found relief and cure in

Hood's Sarsaparilla

The One True Blood Purifier. \$1 per bottle. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

A Nebraska man has invented a machine which lifts sugar beets out of the ground and tops them leaving nothing to be done by hand but to pick them up.

It is reported that Rudolph Spreckles who owns a poultry ranch in Sonoma county, California, on which there are 10,000 fowls has added an X ray plant to his outfit to determine which hens are laying and which are not. All hens which have no eggs in them are sent to market.

Let Canada be for Canadians and let our government study the interests of Canadians and Canadians only.—Belleville Sun. This is a new note. Hitherto Canada has been for a foreign country—England, whose warships rest in Canada's harbors, whose soldiers and whose military roads traverse Canada's land, and whose flag floats over all. "Canada for Canadians" is the breathing of a sentiment that up to now has been suppressed in Canada—the sentiment of patriotism.—New York Sun.

Blind-fold. A woman has no right to "go it blind" in matters of life and health. She has no right to shut her eyes to the plain facts of her physical being and the consequences of neglect. She has no right to be wretched and ill when she might be happy and free from pain.

Women who drag through life weighed down by some torturing, dragging weakness or disease of their sex are not doing their full duty to themselves. They are not taking the means which enlightened science affords them of being well and strong and capable.

These special complaints from which so many women suffer are not necessary. Dr. Pierce's Favorite Prescription positively cures even the most severe and obstinate cases.

It is not a haphazard medicine. It is not a "cure-all." It is a scientific remedy devised by an educated and experienced specialist for the one purpose of curing the special diseases of women.

Tens of thousands of women have been restored to perfect health by this wonderful "Prescription." In many instances they were actually given up as hopeless by physicians and family doctors.

"I have taken both your Golden Medical Discovery and Favorite Prescription for chronic inflammation of the uterus and bladder," writes Mrs. M. A. Scott of Park Rapids, Hubbard Co., Minn. "I also had stomach trouble which was terribly distressing. I have been cured of all. I had suffered untold misery for four years previous to taking your treatment, but began to feel the good effect at once."

NOTICE OF SHERIFF'S SALE.

NOTICE is hereby given, that the undersigned as sheriff of Yamhill county, state of Oregon, under and by virtue of a writ of execution, dated August 19th, 1897, issued out of the circuit court of the state of Oregon for Yamhill county, upon and to enforce the decree in favor of the plaintiff and against the defendant for costs and disbursements amounting to the sum of \$27.99 taxed to the defendant and made a charge on the hereinafter described lands set off to him in the suit for partition wherein Sarah D. Cole was plaintiff and Elijah M. Cole was defendant (said execution being directed to the undersigned for service,) did on the 13th day of September, 1897, duly levy upon the hereinafter described real premises belonging to said defendant, Elijah M. Cole, and that the undersigned will, by virtue of said writ of execution and said levy, at the court house door in McMinnville, in Yamhill county, state of Oregon, on SATURDAY, THE 16TH DAY OF OCTOBER, 1897, at one o'clock p. m. of said day, sell at public auction for cash the following described real premises, to-wit: Beginning at a point on the south line of the donation land claim of William Dodson and wife, claim No. 42, notation No. 2840, in T. 2 S. R. 5 W. in Yamhill county, state of Oregon, where the section line between sections 26 and 27 crosses said south line of said claim, and 11.90 chains south of the 1/2 post on said line and running thence north 25.55 chains; thence east 22.19 chains to the division line of said claim; thence south on said line 21.85 chains to the south line of said claim; thence west on said line 22.19 chains to the place of beginning, containing 61.74 acres, and that said real premises will be so sold to obtain funds to satisfy said sum of \$27.99, which said sum is made a charge on said real premises by said decree rendered in said suit on the 22d day of October, 1896, and to pay the accruing costs and charges on said execution. Dated September 16th, 1897. J. W. HENRY, Sheriff of said Yamhill County.

A Sure Thing Is what all are looking for in GROCERIES. Most people would rather trade where they know they will get a good article at the lowest living figure, and one which when delivered at your door is ready to use, is just what it was represented to be when sold, is full weight and full measure, rather than to have a lingering conviction that you need a house scales, an analyzing microscope, or a blue room in which you can retire and swear in order to get even with your grocer. THIS EXPENSE IS SAVED if you trade with us. Our idea of the grocery business is BEST SERVICE POSSIBLE AT LOWEST FIGURES. Not to secretly cut weights and measures down, make slight reduction in price as a bait, and yet skin the customer on the measure he gets. Such methods bring sure defeat. Wallace & Walker.
