AN OPEN LETTER TO MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought and has the signature of *Chas. H. Fletcher* on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

The first meeting of the Yamhill County Teachers' Association was held in this place Saturday, Sept. 27th. County Supt. G. A. Prentiss presided, and after singing and prayer, the subject of civil government was introduced by Miss Findlay of the Dayton school. An interesting discussion followed, but all seemed to be of the opinion that the subject should be taught in our schools. Mr. Hagerty of the Carlton schools gave his views on teaching current events. His remarks gave rise to a spirited discussion and the daily papers came in for their share of criticism. After dinner, which was served in the basement, Prof. Morrison of Pacific college gave an interesting talk on "Experimental Science in the Public Schools." His remarks were interspersed with several experiments which no doubt will be of much benefit to the teachers who were present. The customary question box was not a prominent feature of the day, but a few minutes were spent in a general discussion of several questions of more or less importance. Mr. Hagerty proposed the customary vote of thanks for the entertainment given the teachers, and the meeting was adjourned to meet the last Saturday in October. The library association met and elected officers for the ensuing year immediately after the adjournment of the institute.
