J. G. ECKMAN, Associate Editor.

Subscription \$1.00 Per Year.

### ADVERTISING RATES.

Reading notices in local columns 10 cents per line for first week and 5 cents per line thereafter. Display advertisements, annual rates, one inch per month \$1; each additional inch 50 cents per month. Obituary and marriage notices not exceeding 10 lines published free, if furnished in time to be current news. Additional matter 10 cents per line.

FRIDAY, OCT. 8, 1897.

It is said that in his coming message, President McKinley will recommend a substantial increase of the navy. Probably he agrees with Secretary Long that a strong navy is a guarantee of peace and pleasant relations with the world.

The total mortality in the present outbreak of yellow fever has not yet reached fifty. No great epidemic seems within the bounds of possibility this year. In 1853 and in 1878 the disease became established in May, the mortality aggregating 7849 in 1853 and 4056 in 1878. The epidemic of 1897 will be comparatively a small matter.

Bryan's intimation that wheat next year will be down to the price which prevailed a few months ago, is, of course, based on the assumption that crop failures such as that of 1897 in Europe seldom occur two years in succession. That failure, however, is only one of the causes of the wheat advance. The business improvement, which increases the consumption of wheat in this country, would have sent the price up even if an average crop had been harvested in Europe, though the advance would not have been as great as it is now. There is a very strong probability that the business revival will last many years. Consequently a large wheat crop in the outside world in 1898 can not send the price of wheat in this country down to the low line around which it oscillated during the greater part of the last four years.

A PROJECT to build a railroad to the gold region of the Klondike having Spokane, Washington, for its initial point, is being discussed. It is said to be quite feasible, and that the route can be kept open to travel during the winter months without much trouble. If gold production continues, as no doubt it will, a railroad to the Klondike is one of the most probable achievements of the next year or two. This is not all. For some years it has been the dream of people gifted with prophetic vision that in the not very distant future a continuous line of rail would unite New York and Paris, by way of Behring strait. The long line penetrating the Siberian regions, being pushed forward by the enterprising Czar, was the inspiration of the thought, and now that railroad building on this continent gets an impulse toward the same objective point through the discovery of new gold fields, the proposition to unite the two hemispheres becomes less chimerical in appearance.

The time is coming, says the Oregon Agriculturist, when a bare summer fallow will be hard to find in the Willamette valley. In place of bare ground there will be fine fields of corn which will be saved for feeding purposes in silos. It is a common thing in the Willamette valley and elsewhere in western Oregon to secure from twelve to fifteen tons of corn silage per acre, or enough to feed two cows every day for a year. No other method has been found by which the value of a crop of corn can be so fully obtained as by making it into silage. Recent experiments at the New Jersey experiment station show that the silage from an acre of corn yielding less than eleven tons thereof will produce 55 pounds more butter than the cured fodder, including ears. The 55 pounds of butter gained by turning a crop of corn into silage will in Oregon go a long way toward paying the whole cost of growing the corn and making it into silage. The silage is as valuable proportionally for feeding young steers as milch cows. The land on which a crop of corn is grown is in prime condition for a crop of wheat. There are a good many places east of the Cascade mountains in Oregon, Washington and Idaho where corn can be grown and although corn fodder can be easily kept in those sections it will be found more profitable there as well as in western Oregon to turn the crop into silage.

PROSPERITY and business activity began the moment a republican president and a protective congress were elected. Was it mere "luck?"

Democratic papers are harping on what the deficit in revenue will be in January. They use their estimates now for fear the deficit will disappear before the advance importations are worked off.

THERE is something of a contrast between conditions under the McKinley administration and those under the Cleveland administration. It is but a short time since President Cleveland was selling bonds to bring gold into the treasury, while now the McKinley administration is actually rejecting offers of gold which come to it from various parts of the country.

The iron and steel industry is universally recognized as a faithful barometer of trade, and the activity in that line is telling the story of present business conditions. Rolling mills, steel plants, and furnaces generally are actually rushed with orders, and what is of great significance is the fact that the enormous demand is perfectly legitimate and without the slightest tinge of speculation. Railroads, manufacturers, and builders are all busy, and when they are busy there is a demand for iron and steel.

Debs' recent mild denunciation of the "torch" and "blood" shrieks of some of the leaders of his social democracy is creating great fun for the newspapers. Of course the vapors of these individuals were merely an echo of Debs' rant in St. Louis a few weeks ago. Debs, Sovereign, O'Neill and the others who threatened to subvert the government and pull down the pillars of society, are personally harmless. They are too cowardly to endanger anything, even themselves, but their wild howls for arms and for the overthrow of the courts and the plutocracy might, in times of excitement, nerve some of their followers who have more courage and less cunning to do something which would get them into trouble. This is the only way in which Debs has ever been a menace.—Globe-Democrat.

### TAKE CARE OF WINTER APPLES.

A large number of inquiries are coming from the east about winter apples, and it appears probable that eastern houses will be represented by buyers here about the first of November. Of course the freight rate of one cent a pound makes a big hole in the price of apples shipped east, but the probability is that all good, clean winter apples which are properly packed can be sold at 40 to 50 cents per box with higher prices for fancy fruit.

Special pains should be taken in packing the fruit. All apples intended for shipment should be picked from the trees. Those which fall to the ground and all wormy apples, as well as those which are disfigured with scab are to be sorted out. If the orchard is large a packing shed should be put up in the orchard. The boxes are lined with white paper and the apples packed in tiers—four tiers or five, according to the size of the fruit, and all apples in one box should be of uniform size as possible. The packers must leave out all imperfect, wormy or scabby specimens. The boxes must be more than full so that considerable pressure is used in nailing down the cover.—Rural Northwest.

### Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

Notwithstanding the raise in clothing by the tariff bill Kay & Todd are selling their \$12 suits for \$10; their \$15 suits for \$12; their \$10 suits for \$8.50.

To Cure a Cold in One Day  
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. For sale by Rogers Bros.

## LOCAL NEWS.

The merry-go-round and the bowling alley have come back to town.

Choicest and freshest candies in town can always be found at White's restaurant.

The district convention of Christian churches meets at Dayton next Thursday and Friday.

A daughter was born to Mr. and Mrs. J. A. Young on the morning of the 7th inst.

Mrs. Emma Fitzhugh of Roseburg is visiting Mr. and Mrs. L. Root, who raised her. Her little son is here with her.

The ladies' aid society of the C. P. church has 30 pounds of carpet rags for sale at 10 cents a pound. Inquire of Mrs. Andy Baker.

Mrs. J. C. Cooper has the agency for America's largest cloak manufactory. Call and see samples of cloth and latest styles of finest capes and jackets.

There is some talk of the old school Presbyterians organizing a church at this point. A representative of the faith was here last week looking over the field.

Ripe strawberries are not common at present, but Wm. Hemstock exhibited a few specimens yesterday, and he said there was promise of quite a crop in his patch.

Wednesday evening at the college chapel, Mr. Joseph H. Kirk of Linn county, was joined in marriage to Miss Maude Grover, President H. L. Boardman officiating. Later in the evening the happy couple were serenaded by a large band of college students.

Mr. and Mrs. Peter Thomason, on college side, buried their infant son, aged five months, last Sunday. Two years ago, almost to a day, they sustained a like bereavement and the sympathy of the public is deeply touched by their double misfortune.

The Oregonian Wednesday had a picture of Dr. Littlefield's winter residence at Skagway, and also a letter from the Doctor. We learn from his son Ed that the old gentleman is doing finely, being engaged in transportation and general traffic. Mrs. Littlefield is to join him soon.

H. B. Reed is the all-round fence man. He not only makes and sells the combination picket and wire fence, but has two or three styles of all wire fencing, and also common barbed wire. He is in the fence business, and it will pay you to see him about anything in that line.

While there is a general verdict of good times throughout the valley, it is the common remark of traveling men, who have the best chance for observation, that no town is showing as much life and business activity as McMinnville. "The best town in the valley" they all declare.

Again at its regular meeting Tuesday evening, with as much gravity as if the routine had not already become laughable from oft repetition, instructions were given by the city council to the water and light superintendent to enforce the ordinance in reference to collections with strict impartiality.

The city council at its meeting Tuesday evening appointed election officers as follows: First ward, judges, H. Rummel, R. Nelson, Jos. Hoberg; clerks, U. S. Booth, M. D. L. Rhodes. Second ward, judges, C. D. Johnson, Thos. Turner, J. B. Gardner; clerks, W. T. Vinton, J. H. Nelson. Third ward, judges, W. J. Langhary, J. W. Ballinger, A. H. Gaunt; clerks, J. W. Hobbs, Chas. Grissen.

Al. Dunn, Chas. Simler and Leo Grace were before Justice Baxter's court in Dayton Wednesday. They were charged with ill-treating a small boy, the offense having been committed some weeks ago. A small boy who had been left to watch a fence gap, was seized, stripped of his raiment and tantalized in such a manner as overgrown youth could devise for its own amusement. By some kind of a compromise, we understand, Grace pleaded guilty and paid a fine of \$5 and costs, amounting to about \$15 more. Deputy Prosecuting Attorney Talmage appeared for the state and Irvine and Vinton for the defense.

### Obituary.

Eleanor, beloved daughter of Mr. and Mrs. F. Florey, died at her home near Wapato station, Yamhill county, Oregon, Sept. 29, 1897, at 3 o'clock p. m., of lung trouble, aged 25 years, seven months and 13 days. Miss Florey was a member of the McMinnville Baptist church. She was an exemplary christian, beloved by all who knew her. She was born and raised near Wapato station and was educated for a teacher, which position she filled with credit until a short time before she was called to join her sisters Clara and Emma, who died in the same faith and in hope of eternal life. All three died within the last six years. An aged father and mother, three brothers and three sisters mourn the loss.

The Sultan will get what he asks in Crete, as nobody opposes him except the six great powers.—Ex.

Why suffer with coughs, colds and laryngitis when Laxative Bromo Quinine will cure you in one day. Does not produce the ringing in the head like sulphate of quinine. Put up in tablets convenient for taking. Guaranteed to cure or money refunded. Price 25 cents. For sale by Rogers Bros. 38m6

## Nervous

People often wonder why their nerves are so weak; why they get tired so easily; why they start at every slight but sudden sound; why they do not sleep naturally; why they have frequent headaches, indigestion and nervous

### Dyspepsia

The explanation is simple. It is found in that impure blood which is continually feeding the nerves upon refuse instead of the elements of strength and vigor. In such condition opiate and nerve compounds simply deaden and do not cure. Hood's Sarsaparilla feeds the nerves pure, rich, red blood; gives natural sleep, perfect digestion, is the true remedy for all nervous troubles.

## Hood's Sarsaparilla

Is the One True Blood Purifier. \$1 per bottle. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent cough remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by S. Howorth & Co.

In the case of the state vs Garner in circuit court, an attempt was made to place the crime on a brother of Walter Garner, who made affidavit that he was the guilty party. Judge Burnett very promptly remarked that affiant was a witness in the trial and made oath that he would tell the whole truth, and afterwards making an affidavit contrary to his testimony, he could not be believed.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea since the war and have tried all kinds of medicines for it. Last fall I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by S. Howorth & Co.

The choral union met for reorganization Wednesday evening. Dr. Lewis was re-elected president, F. E. Rogers vice-president, J. G. Eckman secretary, W. T. Macy treasurer, M. U. Gortner assistant director, Miss Gortner accompanist, and Mrs. Strong member of executive committee. An effort will be made to secure an instructor from abroad. The next meeting will be held in the Presbyterian church on the evening of the 20th inst.

Dr. Thos. Mark of St. Vincent's hospital, Portland, a graduate of the college here, and later a graduate in medicine at Portland, was visiting friends in the city over Sunday.

Penny tablets at Hembree's.

The mystery of womanhood is full of deep unanswerable enigmas. Why should women be compelled to suffer simply because they are women? Why is it that the source of their highest joys is at the same time the cause of their greatest wretchedness? The very attributes which make it possible for women to be happy wives and mothers also render them liable to the most physical misery and pain. The sufferings of body and mind caused by some weakness of the distinctly feminine organs are so almost universal among women that the question might well be asked: "Is this Nature's punishment for the crime of being a woman?" The true answer is No! These sufferings are neither natural nor necessary. They would not exist if the organism was healthy. No woman ought to endure such troubles. There is no need of it. Dr. Pierce's Favorite Prescription is a perfect and positive cure for feminine weakness and disease. It gives health and strength to the special organs and nerve-centres; heals inflammation; stops weakening drains; promotes functional regularity, and restores the normal, vigorous and painless condition which Nature intended.

It is the only medicine of its kind invented by an educated and experienced physician. It is the only medicine which makes baby's coming safe and comparatively painless. Any woman who would like to know more about this medicine and about her own physical make-up should send 21 cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., to pay the cost of mailing only on an absolutely free copy of his thousand-page illustrated book, "The People's Common Sense Medical Adviser," or, 31 stamps for cloth covered.

A sure and permanent cure for constipation is Dr. Pierce's Pellets. One "Pellet" is a gentle laxative, two a mild cathartic.

## NEW AND Seasonable Goods

—OUR—

## FALL OPENING SEPT. 1st.

Just now the demand is for Campers and Hop Pickers' Supplies.

### HOP GLOVES

25 to 75c a pair—Good Value.

We guarantee our goods and prices to be just such as we recommend them to be. The better the goods the stronger the guarantee. Cheap goods cannot be guaranteed by any one.

## A. J. APPERSON.

## A Sure Thing Is what all are looking for in GROCERIES

Most people would rather trade where they know they will get a good article at the lowest living figure, and one which when delivered at your door is ready to use, is just what it was represented to be when sold, is full weight and full measure, rather than to have a lingering conviction that you need a house scale, an analyzing microscope, or a blue room in which you can retire and swear in order to get even with your grocer.

### THIS EXPENSE IS SAVED

if you trade with us. Our idea of the grocery business is BEST SERVICE POSSIBLE AT LOWEST FIGURES. Not to secretly cut weights and measures down, make slight reduction in price as a bait, and yet skin the customer on the measure he gets. Such methods bring sure defeat.

## Wallace & Walker.
