FRIDAY, OCT. 15, 1897.

SILVER and wheat keep together. Yes. They are each worth about a dollar a bushel.—Ex.

THE Hon. Ike Patterson should lose no time in commencing an action for criminal libel against Dr. Harry Lane. If he didn't put sawdust in the cornmeal he furnished the state the people want to know it.

THE receipts under the new tariff law are steadily mounting upward. For the second half of August, the first half of September, and the second half of September they were, respectively, in round numbers, \$9,000,000, \$10,000,000, \$11,000,000.

No wonder Mr. Bryan swears that prosperity under the gold standard is a curse. Formerly he got \$1500 for delivering a calamity speech; now it is reported he has "consented" to appear at an Arkansas fair for \$500. Prosperity that advances the price of wheat and depresses the value of wind and silver is not the kind of prosperity Bryan is looking for.

HAVE the gold bugs captured Colorado? That state, it is now announced, will add \$20,000,000 to the gold of the country this year from her own mines, and it is probable that the total gold production of the world in 1897 will aggregate \$250,000,000, a sum vastly greater than is needed to keep pace with the growth of population and business of the world.

The sound-money democrats see now that they were wise in standing firmly against the silver craze. It is being abandoned by even the men who led last year's fight, and the bulk of the democracy is making ready to fall in line with the former leaders of the party. A considerable element, however, has been swallowed up in the populist movement, and it will take years to recover lost prestige.

REPORTS from Ohio show that the democrats have absolutely abandoned the silver issue. Aside from the opening speech of Mr. Chapman, their candidate for governor, no democratic orator has opened his lips on the silver question, and those who attempted or proposed to do so were promptly deported from the state by the chairman of the party. When it is considered that the democratic platform adopted in that state only ninety days ago discussed nothing but silver, the rapidity of the change which has come over the public mind under the prosperity following the enactment of the protective tariff is phenomenal.

If Mr. Corbett is not seated in the senate when congress convenes in December, it will not be because his appointment was not regular and legal. It will not be because he lacks the support of every republican senator. It will be because a handful of free silver senators, calling themselves republicans and acting in conjunction with the free silver democrats from the south can muster votes enough to bar him out. The same course would be pursued toward any other senator from Oregon who was in open harmony with the principles of the republican party. Our opinion is that Mr. Corbett will be seated, and our opinion is worthy as much as that of those who are predicting the contrary.

MR. T. B. KAY, who recently returned from the east, where he was looking after the interests of the Salem woolen mills, before starting home visited some of the principal manufacturing cities of the New England states. He is a keen observer in both business and political matters—of political matters especially in relation to the business in which he is engaged. At the time he was in Lawrence, Massachusetts, Mr. Bryan had just been lifting up his sonorous voice telling laboring people that factory wages had not been advanced, and consequently prosperity had not come to them. In-

telligent factory hands with whom Mr. Kay talked seemed to take a different view. While it was not contended that wages have advanced, something else of more primary importance has occurred, they averred—employment has been secured. During the Cleveland administration the factories that were not shut down ran on half time and alternated crews, so that even the most skilled operators obtained only about three days' work a week. At present they are running full crews, working day and night, and without any raise in wages, Mr. Kay says, the workmen feel as though they had struck what amounts to the same thing as prosperity.

At this year's election legislators are to be chosen in many of the states who will participate in the choice of United States senators to fill the vacancies arising on March 4, 1899. There will be thirty vacancies. Thirty senators will go out of office on that day, thirty go out of office on March 4, 1901, and thirty on March 4, 1903, the total number of states now being forty-six, and the total number of senators, with a full complement, being ninety. Of the thirty senators who will go out of office in what has sometimes been called "the next batch," fifteen are democrats, eleven are republicans, three are silver republicans and one is a populist. The loss to the democratic side will probably be more serious than to the republicans, not merely in numbers, but in respect of the men who go out. Among democrats whose terms expire are Arthur P. Gorman of Maryland; Chas. J. Faulkner of West Virginia; John L. Mitchell of Wisconsin and David Turpie of Indiana. Senator Gorman has been in the senate since 1882. Senator Faulkner became a United States senator in 1887.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

British landlords are said to own 20,000,000 acres of land in this country, an area larger than that of Ireland. It is not comparatively much of a slice in our domain.

The United States imports 1,700,000 tons of sugar and produces only 400,000 tons. This is the one great item in which our farmers and manufacturers are behind the times.

LOCAL NEWS.

Penny tablets at Hembree's.

Notwithstanding the raise in clothing by the tariff bill Kay & Todd are selling their \$12 suits for \$10; their \$15 suits for \$12; their \$10 suits for \$8.50.

There is something very attractive at Millsap and Son's. They have just got in a new lot of decorated chinaware which includes the up to date novelties in this line. The Copenhagen decorations are all the rage, and they are very quaint and pretty. They have a very large line of crockery in different grades.

Why suffer with coughs, colds and lagrippe when Laxative Bromo Quinine will cure you in one day. Does not produce the ringing in the head like sulphate of quinine. Put up in tablets convenient for taking. Guaranteed to cure or money refunded. Price 25 cents. For sale by Rogers Bros. 38m6

There was a big row at the Grand Ronde reservation Sunday night. It grew out of a barrel of hard cider, and the net results so far are one dead Indian, Jim Young, and another with a badly damaged head. There are a variety of reports as to the manner in which Young was killed. Some say he was struck with a club, others that he was killed from a blow in the face from Dowd's fist, others think he was hit with a slungshot. Coroner Fenton went to the agency and held an inquest Tuesday, and the jury decided that Young was dead and that he came to his death at the hands of Dowd. Up to yesterday morning no warrant had been issued, but some of the people from the agency were in town for the purpose of lodging complaint.

A few weeks ago the editor was taken with a very severe cold that caused him to be in a most miserable condition. It was undoubtedly a bad case of la grippe and recognizing it as dangerous he took immediate steps to bring about a speedy cure. From the advertisement of Chamberlain's Cough Remedy and the many good recommendations included therein, we concluded to make a first trial of the medicine. To say that it was satisfactory in its results, is putting it very mildly, indeed. It acted like magic and the result was a speedy and permanent cure. We have no hesitancy in recommending this excellent cough remedy to anyone afflicted with a cough or cold in any form.—The Banner of Liberty, Libertytown, Maryland. The 25 and 50 cent sizes for sale by S. Howorth & Co.

Estate of Christian Richter. Final account filed and Tuesday Dec. 7th, 1897, at 1 p. m., set to hear same.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham of Gaurs Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea since the war and have tried all kinds of medicines for it. Last fall I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by S. Howorth & Co.

It would not surprise us if the "turning down" of Mr. Geer in the federal appointment scramble should make that gentleman governor, at least the candidate of the republican party for the position. If the public gets the idea that a man is abused it is very liable to make a martyr of him. And, by the way, Geer would make a pretty decent governor. He would not be controlled by any political ring.—Eugene Guard, democratic.

A stray bullet from a Canadian rifle corps killed a farmer two miles distant, the bullet passing entirely through his body. The range of the modern firearms should be kept in mind by those who handle them.

DID IT EVER OCCUR TO YOU

That a watch which does not run is better than a poor one which does run? A watch which does not run is right twice a day while a cheap watch that runs is never right.

Cures

Prove the merit of Hood's Sarsaparilla—positive, perfect, permanent Cures.
Cures of scrofula in severest forms, like goitre, swelled neck, running sores, hip disease, sores in the eyes.
Cures of Salt Rheum, with its intense itching and burning, scald head, tetter, etc.
Cures of Boils, Pimples, and all other eruptions due to impure blood.
Cures of Dyspepsia and other troubles where a good stomach tonic was needed.
Cures of Rheumatism, where patients were unable to work or walk for weeks.
Cures of Catarrh by expelling the impurities which cause and sustain the disease.
Cures of Nervousness by properly toning and feeding the nerves upon pure blood.
Cures of That Tired Feeling by restoring strength. Send for book of cures by

Hood's Sarsaparilla

To C. I. Hood & Co., Proprietors, Lowell, Mass.
Hood's Pills are the best after-dinner pills, aid digestion. 25c.

Don't think that your liver needs treating if your bilious. It don't. It's your stomach. That is, your stomach is really what causes the biliousness. It has put your liver out of order. See what's the matter with your stomach. Sick stomach poisons liver and then there's trouble. Shaker Digestive Cordial cures stomach and then all's well. That's the case in a nutshell. Shaker Digestive Cordial is no secret. Formula on every bottle. But it's the simple, honest way it's made, the honest Shaker herbs and other ingredients of which it's composed, that make it so efficacious. Any real case of indigestion and biliousness can be cured with a few bottles of Shaker Digestive Cordial. Try it. Sold by druggists, price 10 cents to \$1.00 per bottle.

The secretary of agriculture assures the farmer that the red-headed woodpecker is one of his best friends. But nobody can induce a farmer to put any confidence in the silver-spangled jay of last year's campaign.

Many a man who would be startled at the bare thought of sitting down and deliberately drinking a dose of poison, allows himself to be regularly and systematically poisoned day after day by accumulations of bile in the blood. When the liver fails to do its regular work of filtering this bilious poison out of the circulation, it goes on poisoning the entire constitution just as surely as if a man was drinking prussic acid.

Every part of the body is polluted. The digestive juices are suppressed and weakened. The kidneys and skin are clogged with impurities and the lungs and bronchial tubes overloaded with morbid secretion which eat away the delicate tissue, and bring about bronchitis and consumption. All the diseases caused by this subtle process of bilious poisoning are cured by the marvelous alternative action of Dr. Pierce's Golden Medical Discovery. It directly incenses the liver's natural excretive and purifying powers; gives the digestive and blood-making organs power to manufacture an abundance of red, rich, healthy blood. It drives out all impurities, and vitalizes the circulation with the life-giving elements which restore perfect nutrition, solid muscular power, and healthy nerve-force.

"In August 1895, I was taken down in bed with a burning and severe pains in my stomach and under my shoulders, and dizziness in my head," writes Ira D. Herring, Esq., of Needmore, Levy Co., Fla. "My home physician was called and he said my symptoms were more like consumption than anything else. I lingered in this way seven months trying different kinds of medicine. Nothing that I ate would digest, and I had great distress in my stomach. I was persuaded to try some of Dr. Pierce's remedies or to see what he thought of my case. I wrote him and received an answer stating that my suffering was from indigestion and torpid liver, and advising me to take Dr. Pierce's Golden Medical Discovery. The first bottle gave pleasing results. I have taken four bottles of the 'Golden Medical Discovery' and three small vials of the 'Pleasant Pellets.' I am able to do my work and eat what I could not before I took these medicines."

A good supply of

Fruit Jars,
Bacon, Staple Groceries,
Best Coffees, Teas, Spices.

We guarantee our goods and prices to be just such as we recommend them to be. The better the goods the stronger the guarantee. Cheap goods cannot be guaranteed by any one.

A. J. APPERSON.

A Sure Thing Is what all are looking for in GROCERIES

Most people would rather trade where they know they will get a good article at the lowest living figure, and one which when delivered at your door is ready to use, is just what it was represented to be when sold, is full weight and full measure, rather than to have a lingering conviction that you need a house scales, an analyzing microscope, or a blue room in which you can retire and swear in order to get even with your grocer.

THIS EXPENSE IS SAVED

if you trade with us. Our idea of the grocery business is BEST SERVICE POSSIBLE AT LOWEST FIGURES. Not to secretly cut weights and measures down, make slight reduction in price as a bait, and yet skin the customer on the measure he gets. Such methods bring sure defeat.
