SHOULD NOT BE USED

to fill teeth unless necessary to preserve them. Tooth decay is usually caused by food accumulating between or about them, and being allowed to remain there, it decomposes and forms an acid, which nurtures bacteria. This causes a rapid breaking down of tooth substance, after which the only remedy is to fill the cavity. This should be done carefully and thoroughly by a dentist who is skilled in the art and understands the structure of the tooth. Having made such work a specialty, I invite your attention to my methods. Extracting done carefully and painlessly. Plates made as natural as possible and assured to fit. All methods used are only the latest. Call for examination and prices.

McMinnville crossing east of town has been named Sully, after Mr Frank Sully, who lives near. The name was changed because passengers up from Portland frequently took that line thinking "McMinnville Crossing" meant McMinnville, and of course being sidetracked there after dark they naturally raised a good-sized howl.

The statement published this week by the McMinnville National bank, tells something of the story of prosperity. The deposits reach the snug figure of \$112,218. Their last statement published about three months ago, showed \$80,827. The increase is in demand deposits and is money belonging to farmers and business men.

The time for city election draws nigh; candidates are being discussed. Most of the talk centers in the mayoralty. Wm. Chrisman, J. P. Irvine, A. M. Peery each seem to have a following, and about a dozen others are talked of on the outer edge. In the larger list occur the names of Watt Henderson, Chas. Daniels, W. L. Warren, D. Stout, Charley Johnson, F. W. Fenton, E. W. Wallace, E. F. Manning, Elsie Wright, Wyatt Harris, Wm. Campbell, and a few others we have forgotten to mention.

When a man owns a blooded horse he is always careful of its health. He looks after its diet and is particular that the feeding shall be regular and right. While he is doing this it is likely as not that he is himself suffering from some disease or disorder. When the trouble gets so bad that he cannot work, he will begin to give himself the care he gave the horse at the start. Good pure, rich, red blood is the best insurance against disease of any kind. Almost all diseases come from impure or impoverished blood. Keep the blood pure and strong and disease can find no foothold. That is the principle upon which Dr. Pierce's Golden Medical Discovery works. It cleanses, purifies and enriches the blood, puts and keeps the whole body in perfect order; makes appetite good, digestion strong, assimilation perfect. It brings ruddy, virile health. It builds up solid, wholesome flesh (not fat) when, from any cause, reduced below the healthy standard.
