A Fearful Experience

POSTMASTER LOSES THE USE OF HIS LEGS AND ARMS.

Edwin R. Tripp, of Middlefield Center, Meets with a Hazardous Encounter Which Renders Him Helpless.

From Otsego Republican, Cooperstown, N. Y.

Mr. Edwin R. Tripp, the postmaster at Middlefield Center, N. Y., recently had a dangerous experience which left him in a helpless state. His system was so much shattered that it was feared he might never recover.

In an interview with a reporter of the Republican, regarding this experience which had attracted considerable attention, Mr. Tripp stated:

"In March, 1892, I was taken with what I afterward learned was locomotor ataxia, and was unable to walk, and I kept getting worse until I lost the use of my arms. I doctored with two skillful doctors but received no benefit, and also used a galvanic battery but kept getting worse and the doctors but kept getting worse and the doctors to the most of the totake Dr. Williams' Pink Pills for Pale People until I had taken of a mile, three times a day, and attend to my duties as postmaster.

The walnuts are a novelty, although Mrs. Jones says the trees, which are about 18 years old now, have born more or less for several years. It will not prove disappointing to a great many people if in time the products of the foothills take a leading place in the commerce of this section.

A couple of urchins of rather tender years to be engaged in such an exploit broke into the Grange store last Sunday afternoon. Manager Chas. Nelson happened to be in the office, and hearing a noise in the back room, went to investigate. He found one of the boys inside, having effected an entrance by the removal of a pane of glass. By due process of "pumping," the name of his confederate was learned and the confession elicited that their purpose was to secure money from the till. It is a serious question what ought to be done with such youthful offenders, but there is no quesyouthful offenders, but there is no question at all about the fact that parents who let their young boys roam abroad their trouble. Everybody should know more about rheumatism; they should know that it is a peculiar condition of the blood upon which all the liniments in the world can have no effect whatever. The best blood remedy is needed-one which is able to go to the very seat of the disease, and force it out. Swift's Specific (S.S.) is the right remedy for Rheumatism, because it is the only blood remedy free from mercury, potash and other minerals which intensify the disease, causing stiffness of the joints and aching of the bones.

Swift's Specific being a real blood remedy never fails to cure Rheumatism. It

edy never fails to cure Rheumatism. It reaches even the worst cases where the doctors have made cripples with their prescriptions of potash and mercury.

Mr. D. R. Johnson, an extensive lumber dealer of Blackshear, Ga., writes:

'My wife was for years a sufferer from Rheumatism, and was treated constantly, but could obtain no relief. The pain was first felt in her left shoulder, and extended in all directions, increasing extended in all directions, increasing in severity. The doctors said the dis-ease was liable to strike the heart at any time, in which event death would be

Rheumatism

The aches and pains of Rheumatism become a constant companion to all who are victims of this disabling disease. Much suffering could be avoided if the first warning pains of Rheumatism were heeded and the proper treatment at once taken. But the people generally are not acquainted with the cause of the disease, though thousands know its tortures. Those who use liniments and ointments cannot understand why they grow worse each winter, and find them selves gradually becoming unable to get around as they once could; yet they know that their trouble came on at first as little aches and pains, which hardly attracted their attention.
