FRIDAY, OCT. 22, 1897.

GEN. Horace Porter writes that "Grant never underrated himself in a battle; he never overrated himself in a report," which is as happily expressed as it is terse and significant.

SOME cynic has said that the friendship of two women is a plot against a third. England's willingness to arbitrate the sealing question with the United States seems to include a desire to snub Russia and Japan.

THE per capita of money in circulation increased 13 cents during the month of September. This does not prove the populistic dogma that the more money there is in the world the more business will be transacted. It illustrates the more rational proposition that the more business is done the more money there will be in circulation.

A good republican brother propounds this query: "If it was the failure of the crop abroad that caused the rise in the price of wheat, what has caused the sharp advance in the price of shingles?" Surely not the failure of the shingle crop in Europe. There is a small duty on shingles that prevents our British neighbors from running their surplus product across the line.

AN eastern exchange says that a politician is "like a weed that flourishes in the garden of an unthinking community. A statesman is like a beacon light to the tempest-tossed mariner, the hope of the nation, the only safe pilot aboard the ship of state." The unfortunate thing about it in this western country where people read both sides, is that you have to wait until they are dead to distinguish the difference. Sometimes there is a little doubt then, but the generous public usually gives the benefit of the doubt to the departed.

AT a conference of the silver republicans, held at Salem one day last week, among other prominent men present were Hon. D. P. Thompson of Portland, J. C. Cooper of McMinnville, Jas. Sewell of Hillsboro, and C. W. Talmage. Matters of importance affecting the coming campaign in Oregon were discussed.—Corvallis Times. Why, bless you, those gentlemen have not been republicans for months. They voted for Bryan and are Bryan democrats the same as you are.—Hillsboro Independent.

O. C. EMERY has sold the plant of the Newberg Independent, and the type and press are to be taken to Moro, Sherman county, to be used in the publication of a new paper there. The demise of the Independent completes a series of changes that illustrates the transitory nature of some things mundane. A little more than a year ago, three populist newspapers were riding the high crest of political revolution. They were greatly in evidence for a brief time. One of them has been sold to a republican editor, another has changed hands and the original editor gone to Texas, and now the third has decided to quit. Politics and morals remain about status quo, we believe.

JOHN R. BURTON of Kansas, who recently addressed the Marquette club of Chicago, voiced the spirit that has dominated and still dominates western progress, when he said: "The corner stones of the mighty political fabric building here in the western world are the education of the youth, the protection of life, the right of private property, and the equality of every citizen before the law." There are those who still hold conservative views about the education of the youth and would wipe out all the public institutions of learning except the common schools; there are sections of the country where human life is not very sacredly regarded during political times; there are those who still deny the rights of others to enjoy the fruits of their industry and prudence; and the main corner-stone, equality

of men before the law, seems slow to rise; but the temple is surely building and upon this foundation the mightiest nation the world has ever seen is resting in its majesty.

WIDE TIRE FARM WAGONS.

The adoption of wide tires for the farm wagons is making progress in Oregon, there are many things to be said in their favor. They are road makers instead of road destroyers. At home they can be driven across the meadow or the grain field when the ground is not too wet without plowing a furrow. The draft is lighter. On this last point some recent experiments made by the Missouri agricultural college at Columbia as to the draft on narrow and wide tires are quite interesting. The tests were made under severest conditions and with great care, and were frequently repeated that no mistake might be made. The result was shown to be that in nearly all cases the draft was materially lighter where the six inch tires were used than those of standard width. In every case the load hauled was the same, and the draft was ascertained by means of a self-recording dynamometer.

On macadam roadways and streets of average good character the difference of draft was uniformly in favor of the six inch wide tire. It was demonstrated that the same draft required to haul one ton with narrow tires over a macadam roadway hauled more than one and a quarter tons where wide tires were used. On gravel road it was proved that the draft required to haul 2,000 pounds with narrow or standard tires hauled 2,610 on broad tires.

In the test made on common dirt roads, free from roots, the broad tires pulled more than one-third lighter. On a dirt road cut into ruts by narrow tires, but where the surface was hard, after the second trial the profit was on the side of the wide tire, even where they had to be run over the ruts.

On muddy, springy roadways, with spongy surfaces and soft substructure, the broad tires drew one-half lighter than the narrow, for 3,000 pounds were drawn on them with the same expended energy required to draw 2,000 pounds on narrow tires. On the same road when it was soft and sticky on top but firm underneath, the narrow tires drew more easily than the broad by one-third, that is, 2,666 pounds were drawn as easily on narrow tires as 2,000 on the broad.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Croup Quickly Cured.

MOUNTAIN GLEN, Ark.—Our children were suffering with croup when we received a bottle of Chamberlain's Cough Remedy. It afforded almost instant relief.—F. A. THORNTON. This celebrated remedy is for sale by S. Howorth & Co.

Those who believe chronic diarrhoea to be incurable should read what Mr. P. E. Grisham of Gaars Mills, La., has to say on the subject, viz: "I have been a sufferer from chronic diarrhoea since the war and have tried all kinds of medicines for it. Last fall I found a remedy that effected a cure and that was Chamberlain's Colic, Cholera and Diarrhoea Remedy." This medicine can always be depended upon for colic, cholera morbus, dysentery and diarrhoea. It is pleasant to take and never fails to effect a cure. 25 and 50 cent sizes for sale by S. Howorth & Co.

There is something very attractive at Millsap and Son's. They have just got in a new lot of decorated china tableware which includes the up to date novelties in this line. The Copenhagen decorations are all the rage, and they are very quaint and pretty. They have a very large line of crockery in different grades.

Oh, My Heart!

Palpitation—Weak—Unconscious at Times—Sleepless—Asthma—Kidney Troubles

Recovery Would Seem Like a Miracle Yet Hood's Sarsaparilla Cured

"I had been in very poor health for several years, and two summers I was so weak I was obliged to lie in bed 3 months at a time. I was all run down, had

Unconscious Spells

lasting for an hour at a time. The doctors thought the trouble came from my heart. I used to say that if I could only be up around, I should be so thankful, and that it would seem like a miracle if I should be well. The neighbors all know of the poor health I had been in, and how much better I am now. I had asthma for many years, and some nights

I Could Not Sleep my breathing was attended with so much difficulty. Sometimes I would have to sit bolt upright in bed. As my general health grew poorer, my asthma grew worse. I had kidney and other troubles and seemed to be generally 'out of sorts.' I heard so much of Hood's Sarsaparilla that I decided to try it, and I experienced great benefit from it. I have recommended it to many people, and I cannot say too much in praise of Hood's Sarsaparilla. I have not been in bed for over a year on account of illness." Mrs. S. WATSON, 432 S. Columbia St., Warsaw, Ind.

The Roman mother who with her mantle defended the body of her child from the ravenous birds of prey is a perfect type of motherhood in all times and among all people. To protect her offspring from harm is the overwhelming instinct of motherhood.

Modern mothers are coming to understand that the best protection they can give their children against the preying accidents of life is to transmit to them an abundance of natural health and hardihood. But a mother cannot confer health and strength upon her offspring unless she has it in some measure herself.

Prospective mothers should know that Dr. Pierce's Favorite Prescription is a scientific medicine, which gives perfect health and strength to the special organs concerned in motherhood.

Taken early during the expectant time, it makes the coming of baby entirely safe and nearly painless. It insures cheerfulness and recuperative energy to the mother and constitutional vigor to the child. It is the only perfect and positive specific for all weaknesses and diseases of the feminine organism.

Mrs. F. E. Forgy, of Carus, Keyapaha Co., Neb., writes: "I write to you again concerning my daughter, Mrs. D. Billings. She has taken two bottles of 'Favorite Prescription.' She thinks the medicine did her a world of good. She was confined the 15th of February. Was sick but a short time and has a 10 pound daughter. Got along nicely afterward. Looks good, complexion looks clear, and she says she never felt so well."

A Sure Thing

Is what all are looking for in GROCERIES

Most people would rather trade where they know they will get a good article at the lowest living figure, and one which when delivered at your door is ready to use, is just what it was represented to be when sold, is full weight and full measure, rather than to have a lingering conviction that you need a house scales, an analyzing microscope, or a blue room in which you can retire and swear in order to get even with your grocer.

THIS EXPENSE IS SAVED

if you trade with us. Our idea of the grocery business is BEST SERVICE POSSIBLE AT LOWEST FIGURES. Not to secretly cut weights and measures down, make slight reduction in price as a bait, and yet skin the customer on the measure he gets. Such methods bring sure defeat.
