an argument in favor of the government ownership of railroads.

PRESIDENT McKINLEY, in his Thanksgiving proclamation, attributes the improvement in the times to the benign dispensation of an allwise Providence. Mr. Bryan distinctly says it is owing to the discovery of gold in Alaska and the shortage of the wheat crop in Europe.

THE sudden death of Henry George removes a striking figure from the scene of the world's action. George was unquestionably a man of great mind and a sincere friend of the masses. It is not so certain whether the theories he presented for the improvement of their condition were most harmful or beneficial. Though disclaiming socialism for himself, he was always claimed by the promoters of socialistic doctrines as one of their number.

TAKE good care of the potato crop. This from the California Fruit Grower of Oct. 30th: "Not since 1892 has the potato crop of the United States proved so nearly a failure as this year. Compared with the liberal crop of last year there is an apparent falling off of nearly 30 per cent. in the tonnage, and the quality of the whole is greatly deficient. County and township returns from all the leading potato growing states to the American Agriculturist show the yield of potatoes to be 174,000,000 bushels, against 245,000,000 in 1896."

There is more encouraging outlook for the improvement of the Yamhill than when we wrote concerning it one week ago. For some weeks certain of our citizens have been active in the matter and considerable correspondence with powers that be has passed through the mails. A telegram has been received by James McCain, chairman of the republican committee from Senator McBride, who is now in Washington, saying that the order has been revoked suspending work on the specifications for the locks and dam. In a personal letter referring to the same matter, Senator McBride expresses the opinion that the money appropriated is sufficient for the completion of the work; if not it will be an easy matter to obtain the necessary amount additional. Now, we understand, as soon as the engineering de-

and centre of her womanhood.

The lives of young women are often wrecked because of a mistaken sense of modesty, which leads them to neglect the earlier symptoms of feminine weakness.

These troubles unless corrected, develop into serious chronic difficulties which become a dragging burden, ruining life's best opportunities and blighting all possibility of happy wifehood and motherhood.

Any woman suffering from these delicate complaints needs the health-giving power of Dr Pierce's Favorite Prescription. It heals and strengthens the womanly organs; stops weakening drains; gives vitality to the nerve-centres, and restores perfect organic soundness and constitutional energy. It is the only medicine devised for this purpose by a skilled and experienced specialist in diseases of the feminine organism.

Mrs. W. B. Duncan, of Arlington, Mo., writes:

Mrs. W. B. Duncan, of Arlington, Mo., writes:

"I have used your 'Favorite Prescription' and
am never tired of sounding its praise. When my
lady friends complain, I say 'Why don't you take
br. Pierce's Favorite Prescription?' I told an
amxious mother, whose daughter (18 years old)
had not been right for five months, about the
medicine, and after the young lady had taken
two-thirds of a bottle of 'Favorite Prescription'
she was all right. She had been treated by two
of our best doctors."
