

He was tickled

because he had his tooth extracted without suffering any pain, although he had entered my office expecting to endure the untold agonies usually incident to the dental chair. We can do the same for you. All operations are carefully, gently and thoroughly done. Artificial teeth should be so perfectly adapted to the mouth and so perfect in fit and appearance that the wearer himself might be able to forget them. I guarantee my plates to be as nearly perfect as the best material, educated skill and the peculiarities of each case will permit. Skillful operations, minimum pain and reasonable charges are the basic elements of my practice. Cleanliness and asepsis rigidly practiced. I invite you to call for examination of your teeth. I am always pleased to talk about dentistry.

The choral union has agreed on Mr. Lonsdale of Lafayette as their musical director for the winter, on a very liberal proposition made by him. According to the constitution the union will hold two concerts yearly. More good singers are desired as members. Practice is expected to begin by the 17th inst.

The large barn on the farm occupied by Chas. Oatman near the river south of town, was destroyed by fire about two o'clock Sunday morning. Five horses, two cows, and a lot of grain and hay were burned, upon which there was no insurance. The fire was discovered by Mr. Oatman too late to rescue much property, but in his attempt to do so his face and hands were badly burned. His theory of the fire is that of tramps in the hay, the one usually resorted to when nothing definite is known of the origin. The loss was a heavy one for Mr. Oatman.

Teach the hens to lay. The Oregon Agriculturist says: About \$10,000 have gone east from Portland within the past month to pay for eggs. It is probable that \$25,000 will not cover the whole cost of eastern eggs imported into Oregon and Washington during the month of October. It is unfortunate that we are sending away so much money that ought to be distributed at home. It is not because of a lack of hens in this country that we are importing so many eggs. There are hens enough, but we have not learned how to induce them to lay a sufficient number of eggs at this season for home use.

The grocery firm of Millsap & Son have sold their business to B. F. Dresser of Portland and Miles Hendrick of Amity. The new firm, which will be known as Dresser & Hendrick, took possession the first day of the month, Monday. Mr. Hendrick is best known to the local public, having done business for several years in the county. The senior member was formerly well known in Portland business circles. He is engaged this week moving his family to McMinnville and will occupy the Snowden dwelling near the depot. Messrs. Millsap & Son make no announcement as to their future.

Do you know that, Elsia Wright carries a full line of lubricating oils for machinery? Owners of valuable harvesting and other machinery cannot afford to experiment with poor oils. He carries the best on the market and they are warranted not to gum.

Dr. Calbreath has returned from his trip to southern Oregon, whither he went to inspect some mining property owned by himself and others. Results must have been satisfactory, as Dr. Goucher and Frank Wisecarver have gone down to put in a hydraulic plant to work the mines. We understand there are some very profitable mines in the immediate vicinity.

The Sunday school at McCabe chapel has had for its superintendent during the past five years, Miss Alberta Cone. Last Sunday the school, in recognition of her long and faithful service, presented her with a testimonial in the form of a beautiful opal ring. A neat and appropriate presentation speech was made on behalf of the school by Mrs. Mary Judd, and the event was a pleasant incident in the social life of the little rural community.

Linn county is excited over what is believed to be a rich gold find. The quartz assays \$737.16 per ton in gold. The croppings were accidentally found by a surveying party about a year ago, and the assay has just lately been returned. The land is owned by six of Salem's citizens, one of whom is Senator Gesner, and they have their claims staked, and say there is a mountain of it, enough to keep a crusher going for a thousand years. Will the Willamette valley yet prove a Klondike? There is known to be gold in Yamhill's hills also.

A local poet and philosopher passes us the following: "These times are not such measly times as some would like to make 'em; though whether good or whether bad depends on how you take 'em. If agents mean to sit and chew the cud of sad reflection, and blame their luck (or lack of pluck,) upon the last election; and stew and grumble, whine and fret, because wealth don't come to 'em, and wait for things to do themselves instead of help to do 'em;—They'll find the sun don't shine for men who have no eye to sight it; and ill-luck always grabs the lot who has no spunk to fight it."

The football team of Newberg defeated the McMinnvilles in the game last Saturday. The game was hotly contested. We quote the College Review, which ought to be good authority: "In the first half Newberg got a touch-down and successfully kicked in goal. The ball then passed to McMinnville, who lost it by kicking out of bounds. The rest of this half was so hard fought that time was called without further gain for either. In the second half the McMinnville boys showed their lack of rigid, endurance-making, physical training. They put up a heroic resistance, but were not equal to the well-coached, well-trained, three-year-old veteran Newbergs. In this half the visiting team scored 12, making a total of 18 to 0 in favor of Newberg. There were a few accidents but nothing serious. A split hand, a broken finger, a bloody nose and a few minor bruises is the sum."

Indigestive poisons are the bane of the dyspeptic's life. When sick, see if your sickness is caused by indigestive poisons.

If so, take Shaker Digestive Cordial. This is the only certain way of being permanently cured, because it is the only way that gets rid of the poisons. You know that fermented food is poisonous. You know that poison is unhealthy. Shaker Digestive Cordial clears the stomach of fermenting food, and purifies the blood and system of indigestive poisons. It cures indigestion and the diseases that come of it. Headache, dizziness, nausea, stomach-ache, weakness, flatulence, constipation, loss of appetite, irritability, etc. These are a few of the symptoms, caused by indigestive poisons, cured by Shaker Digestive Cordial. At druggists, price 10 cents to \$1.00 per bottle.

Young blood about town was unusually active Halloween night, not to say malicious in some instances, notably the damaging of the privet hedge about Dr. Wright's residence, by throwing large rocks therein. It is strange that the harmless habit originating with the Germans of insisting that if their neighbors' cabbage wasn't pulled by October 31st they would pull it for them and pile it at their doors, should degenerate into pranks punishable by law if the perpetrators could be known. Lessons of moderation need to be inculcated on this Halloween habit.

How to Cure Bilious Colic.

I suffered for weeks with colic and pains in my stomach caused by biliousness and had to take medicine all the while until I used Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured me. I have since recommended it to a great many people. Mrs. F. BUTLER, Fairhaven, Conn. Persons who are subject to bilious colic can ward off the attack by taking this remedy as soon as the first symptoms appear. Sold by S. Howorth & Co.
