WHITESON.

It has looked like it was going to rain real hard several times this week.

David Waddel, son of A. M. Waddel, returned from east of the mountains a few days ago. He reports plenty of work and good wages in that country.

H. Holmes has sold 3000 sacks of his onions at \$1.00 a sack, delivered at this place. Two thousand sacks go to the Dayton dryer for the benefit of the Klondike country.

Who says Whiteson isn't on the rustle? This time it is another fine boy, born to the wife of Ben Gates, Nov. 6th. If Spain intends to whip the United States she had better hurry a little bit up.

The services at the Presbyterian church came to a close last Sunday evening. There was good attendance and good behavior throughout the meetings. The visible result was three additions, while serious impressions may bring a more abundant harvest in the future.

The oldest resident of Whiteson does not remember ever hearing anything like the blood-curdling football yell given by the McMinnville team Saturday morning as they passed through this place. We verily believe that a Comanche siwash would choke to death if she tried to imitate it. If they made that kind of a noise in Monmouth it's no wonder the boys up there were nervous and got beat.

High School Notes.

We have adopted black and red as our colors.

Mollie Patty spent Saturday and Sunday in Lafayette.

Will Newell and Lee Wisecarver entered school this week.

The high school yell is now heard echoing through the hall.

Several of our girls went to the college gymnasium to see the girls play basketball Monday afternoon. Now they say their only wish is that we might have a gymnasium.

We now have a football team which is as follows: Paul Cooper, manager; Allie Williams, captain; Lester Neal, John McCann, Firmin Nash, Addison Newell, Will Newell, Otis Neal, Lee Wisecarver, Dell Warren, Fred Weed, Henry Lady and James Potter.

Columbus School Notes.

Monthly reviews are in order this week.

Bun McCamish entered school this week.

Directors Irvine and Hunsaker were visitors Tuesday morning.

We have heard several suggestions of our pupils corresponding with pupils of other schools. We believe it would be a good idea for in that way we would know what other schools were doing and we would have a broader view of school life.

Cook School Notes.

Written review began Monday last.

Messrs. Tyler, Hoff and Wisecarver are new students of the 7th grade.

When school began there were only 116 pupils but now there are 180 on the rolls.

Rev. Thompson visited the primary room last week, and helped the little ones out with an address.

Thanksgiving comes in two weeks from this last Thursday. The pupils will be allowed this day and the day following. Each pupil should try and donate a small sum to the needy.

Miss Helen Kelleher's lecture given Monday night is seldom excelled. The beautiful views of the Sacramento seemed to be most liked by all, and our schools are benefited with \$16.50 for the library.

It is understood that some 10 or 12 pupils come to the gate of our school by 8 o'clock in the morning. This is unnecessary. Any person that does not have over a mile to walk can start at 8:30 and reach the school in plenty of time.

"The worst cold I ever had in my life was cured by Chamberlain's Cough Remedy," writes W. H. Norton, of Sutter Creek, Cal. "This cold left me with a cough and I was expectorating all the time. The Remedy cured me, and I want all of my friends when troubled with a cough or cold to use it, for it will do them good." Sold by S. Howorth & Co.

Guild Valley Items.

News as well as money, is a scarce commodity in these parts.

Angus McCullah, the rustling bachelor, has been enlarging his band of sheep.

A. L. Umphlette and wife intend

spending the winter with her parents, J. O. and R. E. Guild.

The first month of our school closed last Monday with declamations, dialogues, good feeling, etc.

Several of our farmers who have been holding their wheat have concluded to sell and renew their subscription to The Yamhill Reporter.

A few friends met at the residence of J. O. Guild last Sunday to assist him in celebrating the anniversary of his 57th birthday in the way of dispatching a dinner. May you live for 57 years to come, Jim.

The law authorizing rural mail delivery was passed by congress in 1893, and up to date the system has been introduced at one postoffice in each of thirty states, in all of which it is proving a marked success. The little town of Turner in Marion county was chosen as the place for the experiment to be made in Oregon. The delivery was inaugurated at this place on the 16th of October
