

A HISTORIC HOTEL

The Favorite Hostelry in Anti-Bellum Days—Often Patronized by Abraham Lincoln—From its Veranda Stephen A. Douglas Delivered a Great Speech—Again the Scene of an Important Event.

From the Tri-County Scribe, Plymouth, Ill.

Mr. and Mrs. Campbell Thompson run the historic Cuyler House at Plymouth, Ill., a hostelry where Abraham Lincoln often slept, where "Dick" Yates, Lyman Trumbull and Richard Oglesby bought refreshments for the inner man in ante-bellum days, and from the veranda of which Stephen A. Douglas delivered one of his great speeches.

This article has not so much to do, however, with this historic hotel, as it has with the landlord's thirteen-year-old laughing, bright-eyed, rosy-cheeked daughter Ollie.

As one sees her to-day, the picture of perfect health, it is hard to believe that nearly nine of the thirteen years of her life were spent on the bed of invalidism, that for months she never walked, and for years suffered the pain, misery and distress of inflammatory rheumatism in its worst form.

Able physicians were employed but no permanent benefit resulted.

Mrs. Thompson heard of a wonderful cure which had been effected by Dr. Williams' Pink Pills for Pale People, and was influenced by it to purchase some of the pills for her daughter.

Before she had taken half a box, there was marked improvement in her condition; when she had taken two boxes she was completely restored to health. To-day, there is not a healthier child than Ollie Thompson.

The case came to the attention of the editor of the Tri-County Scribe, and a reporter was detailed to learn the story of this remarkable cure from Mrs. Thompson's own lips. She said:

"Ollie was a hearty, well-developed child from the time she was born until she was three years old. In 1887 she was taken down with inflammatory rheumatism. For nine years she was never entirely free from the disease. Much of the time was in an alarming condition. At times, she could not walk, and her spine was drawn out of shape so that she could not stand straight. One of the doctors said if she became well she would be a cripple for life.

"Dr. Grigman, of Augusta, was the first doctor who had her case. He doctored her through two serious times of the disease, and finally told us he could not cure her. We doctored her most all the time, but when she was ten years old she had an unusually severe attack, and we called in Dr. Kreider, of Prairie City, where we were then living. He had had to cure her but finally gave it up. He said, 'I can do nothing further, the case is the worst I have witnessed.'

"We nearly gave up hope then, but came Dr. McDaniel who doctored her after we came to Plymouth, but no benefit was derived.

"Then I heard how Uncle Wesley Walton had been cured by Dr. Williams' Pink Pills for Pale People. Knowing the condition he had been in, I thought if the pills cured him, they might help Ollie. Consequently I bought a box for her, and before she had finished it she was much better. She continued taking them, and when the second box had been used she was well, and has never had rheumatism since.

"I cannot say too much for the Dr. Williams' Pink Pills for I believe Ollie would have been dead long ago, if she had not taken them."

VICTORIA THOMPSON.

I hereby state that I have examined Miss Ollie Thompson, and find no outward appearance of rheumatism.

A portion of them will hold 25 pounds, while others will only hold five. Snyder & Co. have orders for dried vegetables that it will take several months to fill. Mr. Abdill, with the assistance of his wife, expects to make all the cans by his own labor. He went to Portland on Thursday for tools and material to make the cans.—Dayton Herald.

Lafayette Lodge, No. 29, I. O. O. F., has elected the following officers for the ensuing year: William Tustin, noble grand; R. C. Henry, vice-grand; W. A. Bates, recording secretary; John Blough, permanent secretary; H. Johnson, treasurer; J. W. Martin, captain of the team.

The suggestion has been made, and we think it a good one, that there is need of reform in the matter of allowing children to keep late hours at evening parties. By children, is meant boys and girls of school age, whose mental faculties, interest in their studies, and health, ought not to be impaired by dissipation or too much diversion. Surely the pathway of youth ought to lead through gardens of flowers, but unguarded and unrestrained liberty often brings up in bypaths beset with thorns. Give the boys and girls all the liberty and pleasure possible that is consistent with their highest physical, moral and mental development but social parties, card parties, or dancing parties that keep them abroad from the parental roof later than half past nine or ten o'clock, are not to be considered in that connection. Every parent, we think, will agree with this proposition, and it might be a mutual help in establishing right regulations, if in giving out invitations, the hours both of assembling and retiring were named.

Look Out For Cancer!

Few people are born entirely free from taint. This is often very slight or remote, and sometimes may not develop at all in one generation, but breaks out in a serious disease later.

Cancer, the most dreadful of all diseases, is often the result of some blood taint inherited from generations back. It often appears as a mere mole or insignificant pimple, which later develops into an alarming condition. No one knows but that he may be subject to an inherited impurity in the blood, nor can he tell whether or not this may some day crop out in the form of destructive cancer. It is, therefore, important that any little sore or scratch, which does not readily heal, be given prompt attention, or a serious condition may result.

Mr. Robert Smedley, of Ocala, Fla., was the victim of a malignant cancer, which first appeared in the manner above described. He writes:

"At first I paid no attention to the little blotches on my face, thinking they would soon pass away. Before long, however, they became sore, and soon began to enlarge. I applied ordinary local remedies, but they had no effect, and I then consulted a physician. When

he told me I had cancer, I became alarmed and hastened to obtain treatment for I knew how dangerous cancer was.

"I received the best medical attention, but the cancer continued to grow worse until the physicians finally said that I would have to have an operation performed, as that was the only hope for me. This I refused to submit to, as I knew cancer was a blood disease, and my common sense told me that it was folly to expect an operation to cure a blood disease.

"Knowing S. S. S. to be a good blood remedy I decided to try it, and the first bottle produced an improvement. I continued the medicine, and in four months the cancer dropped off. Ten years have elapsed, and not a sign of the disease has returned."

The alarming increase in the number of deaths which occur as the result of a surgical operation is attracting general attention, and a strong sentiment against such methods of treatment is fast developing among the most intelligent classes. It seems that in almost every case where the doctors' treatment is unsuccessful, the learned physicians decide at once that an operation must be performed, and the keen blade of the surgeon is recklessly resorted to.

The many caustic plasters which are applied to remove cancers are more painful than death, and the danger of a surgical operation is as great as the disease itself. No plaster or surgical operation can cure cancer, because it is a blood disease; the destructive cancer cells are in the blood, and cannot be cut out, or removed by local treatment. As the disease must be ferred from the blood, it is only reasonable to rely upon a real blood remedy for a cure, one which goes direct to the cause of the trouble and removes it.

S. S. S. (Swift's Specific) is the only known cure for cancer and other obstinate and deep-seated blood diseases such as Scrofula, Eczema, Catarrh, Rheumatism and Contagious Blood Poison. It is Purely Vegetable, and is the only blood remedy guaranteed to contain not a particle of mercury, potash or other mineral, which means so much to all who know the disastrous effects of these drugs.
