John Bakeman of Carlton, manager of the drying establishment at that place, was in the city Friday and bargained for Calbreath & Goucher's output of dried prunes, amounting to something like 9 1/2 tons. John F. Adams returned Monday evening from Pendleton, where he has been the past five weeks attending to business. The farmers in that vicinity have sold their wheat and money is abundant and times fairly good, he says. Something like winter weather has settled down on the country, with snow lying on the ground and the thermometer down to 20 degrees.

Rev. H. A. Denton, formerly pastor of the Christian church here, has resigned as pastor at Salem after four years' service. This action was taken by Rev. Denton for the reason that, to continue his studies, he found it necessary to remove to Centralia, Missouri, the First Christian church of which having extended an urgent call to him and, that by accepting the same he would put himself in a better position to pursue his studies. The Centralia church has 500 members, and in the county the Christian church has 4,000 communicants.

We are pleased to note that Loring V. Stewart, formerly of North Yamhill, a nephew of Hon. Lee Laughlin, has associated himself in partnership with John T. Whalley, the well known Portland attorney, at 415 Chamber of Commerce building. The friends and acquaintances of Mr. Stewart will be glad to hear that he has decided to locate in Oregon. He has made excellent preparation for the practice, having graduated from the Yale law school and subsequently spent a year in familiarizing himself with the practice in a New England state.

#### On the Lakes to Klondike.

Under date of October 5th, a personal friend of the editor, now journeying to Klondike, and who has been heretofore quoted in these columns, writes as follows of his experiences, every word of which may be relied upon as the truth: "We have just reached the Tagish custom house, N. W. T., or camp, as they have not yet built any houses, but still live in tents. We have had a rather hard time of it the past week. Very unfavorable weather. We left the head of lake Bennett Wednesday at 2:30 p. m. against a north wind. Made about five miles and camped in a snow storm. Next morning the wind came strong from the north, so we made no attempt to move till 3 o'clock, when the wind changed to south and we got under way about five

o'clock and sailed till half past six. Made good time, but it was rather too stormy for us, and our boat being very heavily laden was hard to handle. During that night a heavy wind arose from the north with snow and cold, so that next day we were obliged to lie still. Next morning was pleasant, though the thermometer stood 12 degrees above zero, and we decided to make another start. We got ready about 12 o'clock, and made about ten miles that afternoon, still rowing against the wind, and snow falling the latter part of the afternoon. Next morning we reached Cariboo crossing, after losing an hour or so going off on an arm. Camped at six directly opposite the mouth of Windy Arm, still snowing. Next morning we got up at 4 o'clock and were loaded and off at 7. The wind came up strong out of Windy Arm, increasing in violence until about 8 o'clock when we were forced on to the beach, and the boat filled with water almost at once. We jumped out and hustled the blankets and clothes ashore without getting them much wet. All the other stuff, however, got pretty well soaked; the sacks of flour and bacon being in the bottom were floating when we got to them. Being warm and sunny we managed to get things quite well dried, spreading the rice and fruit on canvas. We turned the boat over, repaired the damage as much as possible, and got ready to get away at five o'clock in the evening. It was very fair, and we traveled till midnight, making foot of Tagist lake, where we unloaded, ate lunch, made camp and got to bed at 2. The duty for our party of six amounted to \$105. We have about 5200 pounds of freight, making a heavy load. We have to unload every time we camp, on account of the danger from storms. It takes us about an hour to unload and nearly two hours to load up. Captain Strickland, in command of the North-west mounted police here, tells us our chances for getting through are good, now. The country through here is nearly all mountains, and what timber there is is quite small. We are well supplied with provisions, and expect to make better time after starting out on Lake Marsh."

## Free From Rheumatism.

If the people generally knew the true cause of Rheumatism, there would be no such thing as liniments and lotions for this painful and disabling disease. The fact is, Rheumatism is a disordered state of the blood—it can be reached, therefore, only through the blood. But all blood remedies cannot cure Rheumatism, for it is an obstinate disease, one which requires a real blood remedy—something more than a mere tonic. Swift's Specific is the only real blood remedy and promptly goes to the very bottom of even the most obstinate case. Like all other blood diseases, the doctors are totally unable to cure Rheumatism. In fact, the only remedies which they prescribe are potash and mercury, and though temporary relief may result, these remedies produce a stiffness of joints and only intensify the disease. Those who have had experience with Rheumatism know that it becomes more severe each year.

The case of Mrs. James Kell, of 611 Ninth Street, S. E., Washington, D. C., should convince everyone that it is useless to expect doctors to cure Rheumatism. Under recent date she writes: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that my nervous system was prostrated, and I was for a long time perfectly helpless. The attack was an unusually severe one, and my condition was regarded as being very dangerous."

"I was attended by one of the most able doctors of Washington City, who is also a member of the faculty of the leading college here. He told me to continue his prescription and I would get well. After having it refilled twelve times and receiving not the least benefit, I declined to take it longer.

"Having heard S.S.S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair, to give it a trial. After taking a few bottles I was able to hobble around on crutches, and very soon had no need at all for them, for S.S.S. cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

"S.S.S. never disappoints, for it is made to cure these deep-rooted diseases which are beyond the reach of all other remedies. It cures permanently Rheumatism, Catarrh, Cancer, Scrofula, Eczema, and all other blood diseases. It is the only blood remedy guaranteed.
