AN OPEN LETTER TO MOTHERS. We are asserting in the courts our right to the exclusive use of the word "CASTORIA," and "PITCHER'S CASTORIA," as our Trade Mark.

I, Dr. Samuel Pitcher, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of CHAS. H. FLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look Carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. FLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

ICE HOUSE IN CORNER OF BARN.

observed in its construction, etc., will

be useful A supply of eighteen tons

of ice can be stored in a space of twelve

feet square and ten feet high. In build-

ing an ice-house, the chief points to be

considered are the exclusion of air from

under or around the body of ice; proper

ventilation over the ice, and proper sur-

face draining around the ice-house.

Any little crack that admits of the in-

flow of warm air will play havoe with

a body of ice. Hence waterproof paper

should interline the wels, so as to ex-

clude every possible chance for the ad-

mission of a current of air. If there be

too much sawdust placed around ice it

is liable to ferment and develop heat to

such an extent as to melt the ice. Four

inches of sawdust or chaff is sufficient

to place under the ice, and eight inches

is sufficient on the sides of a house

with a single wall, and four inches in

case of a twin wall. A twin wall is

made by boxing the studding on both

plates and sills, so that they shall alter-

nate with each other. Two by six may

be used, and they may be placed two

feet apart; twelve-inch boards will an-

AN OPEN LETTER

bus, O., to Ailing Women.

To all women who are ill: express my gratitude for the boon given

remedy. Before taking the Compound I was thin, sallow, and nervous. I was troubled with leucorrhœa, and my menstrual periods were very

irregular. I tried three physicians and gradually grew worse. About a year ago I was advised by a friend to try Mrs. Pinkham's Sanative Wash and Vegetable Compound, which I did. After using three bottles of the Vegetable Compound and one package of Sanative Wash, I am now enjoying better health than I ever did, and attribute the same to Mrs. Pinkham's wonderful remedies. I cannot find words to express what a Godsend they have been to me.

Your Tax

made of such trees is to graft them

without transplanting into some va-

riety that is productive and profitable

Corn After Corn.

to plant corn two years in succession, as

it has not paid better than other crops.

It is not a good plan, not because the

corn is exhaustive, but because suc-

cessive growing of this crop on the

same land so fills the corn with smutty

ears that the crop is nearly worthless.

It is, besides, not a good plan to keep

the land more than two years in cul-

tivated crops without reseeding it with

clover or grass. Often the corn crop

can be got off early enough for the

field to be sown with winter wheat or

rye, and seeded both with timothy and

Succulent Feed for Hogs.

The fact that a little grain fed to hogs

while at pasture will cause them to grow rapidly, shows the advantage of

some succulent food for the pigs' ra-

tions. Only a small proportion of its

food should be of this character, for

succulency generally means large bulk

with small nutritive value. In winter

there is no better supplement to the

grain ration than beets. They are both

succulent and sweet, and are much

easier to digest raw than the potato,

whose carbonaceous nutrition is in the

Calves on Skim Milk.

raising calves on skim milk states that

the calves at all times have in troughs

lumps of salt and chalk, the claim be-
