Webster's International Dictionary

Successor of the "Unabridged" The One Great Standard Authority. So writes Hon. D. J. Brewer, Justice U. S. Supreme Court. Wornly commended by State Superintendents of Schools, College Presidents, and other Educators almost without number. Available in the household, and to the teacher, scholar, professional man, and self-educator.

THE BEST FOR PRACTICAL USE. It is easy to find the word wanted. It is easy to ascertain the pronunciation. It is easy to trace the growth of a word. It is easy to learn what a word means.

The Chicago Times-Herald says: Webster's International Dictionary in its present form is absolute authority on everything pertaining to our language in the way of orthography, etymology, and definition. From it there is no appeal. It is the perfect as human effort can make it.

The nearest state election to be held is that in Rhode Island, which will take place April 6, about ten weeks hence. State officers and a legislature will be chosen. Rhode Island was a few days ago one of the doubtful states. In 1889, 1891 and 1893 it went democratic. When the base money issue came up in a dangerous phase, however, Rhode Island turned against the democrats, and in 1896, for president, it gave them only 44,000 votes, as compared with 37,000 for the republicans.

CASTORIA. It is on every wrapper.

Minnesota has just developed a manufactory for petrified men and women of the sort which are dug up from time to time in out-of-the-way places, or discovered in caves, and put on exhibition in the dime museums. Pittsburg has a factory which does a good business in making glass knobs for Washington's bedstead at Mount Vernon. These knobs are regularly purchased or purloined by relic hunters. Grand Rapids does a big business in manufacturing Mayflower and colonial furniture, and Waterbury has made and sold thousands of ancient grandfather's clocks. The American people are just as fond of being humbugged as they were in the days of Barnum.

It would be well for Mr. Bryan to explain, since his return from Mexico, how so much prosperity could exist upon a circulation of \$8.10 per capita of silver, and about \$3 per capita of paper money which is not guaranteed by the government, while he and his friends are crying out that \$8.70 circulation per capita in silver and nearly twice that much in gold and paper guaranteed by our government is not enough to transact the business of this country, and that, too, in the face of the fact that our country does over 90 per cent of business by check and exchange, while Mexico does not do over 50 per cent in that manner.

There is still one state, Mississippi, that does not observe Christmas as a legal holiday, and there is but one day that is so recognized by all the states, and that is Sunday.

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving me much easier breathing). I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything." For sale by S. Howorth & Co.

Astoria Contractors Prove to Be the Lowest Bidders.

Following is a list of the bids received by Captain Willard Fisk, United States engineers, for the construction of the dam and locks in the Yamhill river:

W. L. Prather, Jr., Oakland, Cal., \$63,861 00; Pugh & Gray, Salem, \$60,950 20; Smyth, David & Paquet, Portland, \$65,370 00; Normile, Fastabend & McGregor, Astoria, \$59,918 00; Oskar Huber, Spokane, \$66,176 26; Wakefield & Jacobsen, Portland, \$69,523 50.

Chamberlain's Cough Remedy Always Proves Effectual.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for at so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies, and, like the writer, be benefited.—From the Greenville (W. Va.) Pathfinder. For sale by S. Howorth & Co.

Free Lectures.

The pastor of the Baptist church will give a course of illustrated missionary lectures under the auspices of the woman's missionary circle of this church. The first lecture was given on Wednesday evening of this week, the subject being "The Present Status of the Field." In these lectures there will be shown charts and figures that have never before been shown and will be highly educational. All are cordially invited to attend.

The rating of the great cities of the United States is now in this order: New York, Chicago, Philadelphia, St. Louis, Baltimore and Boston. Cincinnati and Buffalo both claim next place, followed closely by Cleveland, San Francisco, Detroit, New Orleans, Pittsburg, Milwaukee and Washington, in the order named.

Whiteson.

Supt. Prentiss visited our school last week. Mr. and Mrs. Lee Conner were in Sheridan visiting last week. S. D. Percival of Monmouth paid his sister, Miss Edith Percival, a pleasant visit last Saturday and Sunday. Whiteson has a well defined case of measles. We are determined to follow the fashion, if it makes us sick. Someone in this neighborhood is living high. Fred Holenstine lost about 140 pounds of hams and shoulders a few nights ago. H. M. Tolson, foreman of the section men at this place, has been transferred to Carlton. H. B. Cunningham takes his place here with Andrew Kneedler as new man. Rev. Smick of Albany preached a very able and instructive sermon last Sunday morning at the Presbyterian chapel on the subject "Christian Character." Also in the evening from 1st Timothy, 6th chapter, 17th and 18th verses.

Columbus School Notes.

The 5th and 6th grades had a Valentine box Monday. One of our students took the teachers' examination last week. Civil government will be added to the 10th grade studies Monday next. Canterbury tales are being read with great interest by the literature class. Lillie Baxter and Lucy Patty have the measles and Mira and Tom Owens are just recovering. The high school is to be represented Friday night at the W. C. T. U. medal contest by Mabel Neal. There seems to be an impression abroad that there is to be a contest of some kind between the high school and the college. We know nothing of it in the high school. Two ladies came to our school one day last week, and without stating the object of their business, took umbrage because our teachers went on about their business. They made some very uncharitable remarks about the teachers. When anyone wants help from any of the teachers they can get it, provided it is not against the rules. A call on the principal will soon decide that part of the question.

Cook School Notes.

Charlie Peckham is our new janitor. Several seats were moved last week in the 7th grade. The 8th grade takes up geography the first of the week. Next Tuesday we will have a holiday, it being Washington's birthday. Sam Evenden is out of school with the measles, making two absent and nine remaining in the 8th grade. The blowing up of the battleship Maine caused considerable excitement in our school Wednesday afternoon. Those reviews last week were the best this year. Pupils seem to realize that the end is coming and are striving harder each day. Harry Woodrum returned last Tuesday evening from a month's visit in San Francisco. He says he enjoyed himself very well while away on his visit. He brought the professor some fine oranges.

Guardianship of Martha Shadden. Rasmus Nelson appointed guardian of person and estate of said Martha Shadden, with bonds fixed at \$5,000. Guardianship of Eddie and William Booth, minor heirs. Guardian discharged and bondmen exonerated, heirs having become of age and made settlement with guardian. Frank Sherwood was down town today, the first time since he had his tussle with cholera morbus. He says he drove thirty miles after he was taken, and never came so near dying in his life. After this when he goes out in the country he will take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him.—Missouri Valley (Iowa) Times. For sale by S. Howorth & Co.

Prosperous Carlton.

CARLTON, ORE., Feb. 16th, 1898. EDITOR REPORTER:—As an illustration of protection and the support of republican principles, I can draw no better illustration than to contrast the times here in our own town and neighborhood now and one year ago. Everybody is now busy and at wages about double what they were one year ago—when there were idle men to be found seeking employment. W. A. Howe has had one evaporator running day and night since the 1st of January, and next Monday he will start his new one. The two will employ about 60 hands. Last night marked an important event in the history of this place, as the town was lit up with electricity. In fact the boom has fairly struck this place like a Kansas cyclone. There is an excellent opening here for some one to put up a first-class hotel. There is no hotel here, and every private house that will keep boarders is crowded full and some are boarding with the farmers who live near. This is quite a contrast from one year ago when it was all board and no work. Now, there is plenty of work to pay for the board. Y. M. F.

Interesting to Parents.

McMinnville will have a brilliant social event on or about the first of March, under the auspices of two gifted women, Mrs. Francis Partlow and Miss Ruth Baker, who will immediately open a school of graceful deportment and oratory for children, and at the end of two weeks a ballot will be taken by friends of the competitors at the exhibition. The one receiving the highest number of votes will be awarded the prize of a beautiful silver cup. No child should miss this opportunity to attend free of expense.—Oregonian.
