WAR WOULD BE WELCOME

Chroniele from Key West says: The spaniards in Cuba Want warships Iowa, Marblehead, New York, Present Strain Relieved.

Officers Urge the Government to Demand an Ultimatum of the United States Regarding Maine Disaster at Once.

New York, March 3 .- The Spanish government officials in Cuba are praying for relief from a strain which they cannot endure much longer. It is not encouraging when officers of high rank tor from Oregon on the appointment in the army who deplore the Maine catastrophe as deeply and as sincerely of 50 to 19. Speeches were made toas do the American people, beg to demand that if the United States "intends" to make the disaster a cause for going to war, it shall do so quickly, says the Havana correspondent of the Tribune.

These expressions do not represent the settled convictions of those by whom they are uttered. They are utterances of men overburdened with anxiety and uncertainty. In their calmer moments these officers would be the first to accept the mediation of the United States as the best means of helping Spain out of her desperate situation in Cuba. Under the present strain they do not accept it. They complain that the thorough and comprehensive investigation which the naval court of inquiry is making is too slow, and they profess to believe that instead of conducting an impartial investigation to learn the facts, the court is trying to make out a case of foul play.

There are representatives of the military arm of the government, who do not believe anything of the kind. They only talk to relieve their overburdened minds. If the clouds which the Maine disaster has thrown over the relations of Spain and the United States were cleared away the international complications would not be lessened. The loss of the American warship and its crew had nothing to do with the series of minor military successes which the insurgents are gaining in all parts of the island. That is due to the demoralization of the Spanish troops. Gomez keeps almost within range of the railroad and telegraph in Santa Clara province. He could not do so if Spain was able to carry on an effective campaign.

The so-called crisis in the autonomist cabinet is another thing which the United States has nothing to do. The crisis is not a dangerous one, because Govin and his radical colleagues have the support of the Sagasta minis. Galvez, Montero and Zayas, who try. are all that remain of the conservative autonomists, may not indorse the plan to open negotiations with the insurgents and to offer Gomez a place in the Cuban government, but their resignations are not expected. The Sagasta ministry approves the scheme of making further concessions to the insurgents, and with this knowledge memeight hours. The court held that the law was an exercise of the state's police the Yukon have changed so as to ren-the Yukon have changed so as to ren-The junta in New York has already rejected the propositions. That is not so important as the repudiation of them which will come from Gomez. Then nothing will remain for the government of Spain except to confess the failure of autonomy and more than autonomy to restore peace and save her sovereignty in Cuba. The confession cannot await the election of the cortes in April.

CORBETT CASE ENDED,

The Senate Decides Against the Governor's Appointee. Washington, March 2 .- Former Vice-

President Stevenson was a visitor on the senate floor at the opening of the session today. A bill extending the time for the construction of a bridge across the Missouri at Yankton, S. D., was passed.

Hoar, chairman of the judiciary committee, moved the senate nonconcur in the house amendments to the bankruptcy nill, and that a committee of conference be appointed.

Stewart objected to the appointment of a committee on conference and the matter went over until tomorrow.

Hon. H. W. Corbett was today denied admission to the senate as a senaby the governor, by the decisive vote day against the admission of Corbett Bacon (Ga.) and Burrows (Mich.) by and in favor of his admission by Morgan (Ala.). After disposing of the Corbett case, the senate began the consideration of the Alaska homestead and railway right of way bill, and had not concluded it when it adjourned.

The house passed the sundry civil appropriation bill today after a four days' debate. The most important action today was the elimination of an appropriation for representation at the Paris exposition on a point of order. The sudden change of sentiment in the house, which is often witnessed when members go on record, was twice illustrated today. On Friday last the house in committee of the whole, where there is no record of the vote, knocked out a provision in the bill for an appropriation to pay those who furnish the government with information relative to violaters of the internal revenue laws, and today, in committee an extra month's pay was voted to the employes of the house. Both of these propositions commanded a very respectable majority in the committee, but when the members voted on roll calls in the house, both of them were overwhelm-

ingly defeated. Several minor bills were passed after the sundry civil bill was passed.

#### Millions for Defense.

Washington, March 2 .- Representative Bromwell (Rep. O.) today introduced in the house the following resolution:

"That the secretary of the navy be his possession for three days positive and is hereby authorized, whenever in his judgment it shall become expedidestroyed by external agencies. ent for the best interests of the country to do so, to secure options upon and of the fact that the president has this consummate the purchase of such batevidence in his possession, and they tle-ships, cruisers, rams, torpedo-boats have sent messages which have been or other form of naval vessels as are of kept from the public, disavowing all the most modern type, and ready for responsibility for the act and offering immediate use, together with the necto make humble apology, as well as essary armament and equipment for monetary compensation for the damage the same, as in his judgment are necinflicted; and, in short, to do anything essary to place the naval strength of which may be done honorably to prethe country upon a proper footing for vent war between Spain and the United immediate hostilities with any foreign States. power with which the same may be threatened, and for the purpose of confails to disclose the identity of the men summating such purchases there is who are responsible for the awful crime. hereby appropriated the sum of \$20,-At least three persons are concerned, 000,000 to be immediately available." and one of them is known to be a Span-The resolution was referred to the ish officer. #### BUSINESS IN HAVANA.

The Maine Court of Inquiry Will Return to Cuba.

Washington, March 2 .- At the close of office hours a telegram came to the navy department from Admiral Sicard at Key West, in the following terms:

"Key West, March 2 .- To the Secretary of the Navy, Washington: Court of inquiry will commence session at Key West today. They must resume session at Havana to receive reports from divers, after further work on the wreck. SICARD."

The important feature of this is the declaration that the court will return to Havana. It sets at rest the rumors

#### LOUD POSTAL BILL.

#### Much Opposition Removed by the Latest Amendment.

Washington, March 3 .- The house today entered upon the consideration of the Loud bill, relating to secondclass mail matter. The bill is identical with the bill passed by the last congress, but Loud, its author, gave notice of an amendment permitting the transmission, at pound rates, of sample copies, up to 10 per cent of the bona fide circulation of the newspaper or periodicals. This amendment removes much opposition to the bill. Three extinguished and the steamer proceeded speeches were delivered today. Loud worth. made an exhaustive speech in its favor, claiming that the government practically paid a subsidy of \$20,000,-000 to the proprietors of publications, which now get access to the mails at pound rates, as the cost of transporting mail, and its handling averaged 8 cents per pound. Moon, of Tennessee, spoke in opposition to the bill, and Perkins, of Iowa, in favor of it.

The senate passed the Bacon resolution for the erection, in some suitable place in the capitol, of a bronze memcrial tablet commemorative of the officers and sailors who lost their lives in the Maine disaster. Before the resolution passed, Perkins made an eloquent speech in its support and in eulogy of the American navy.

Hoar endeavored to have a conference committee appointed on the bankruptcy bill, but Stewart talked until 2 o'clock. when the Alaskan right of way and homestead bill came up under the regular order. Rawlins resumed his speech opposing the bill.

Washington, March 3 .- The subcommittee appointed by Chairman Walker of the house banking and currency committee to draft a currencyreform measure for submission to the Republican members of that committee, have been at work for 10 days, and have practically agreed upon the fundamental principles to be embodied in a bill, and their labors will result in reporting a complete bill to their colleagues, though they refuse to divulge the points of their measure.

## SEVENTEEN ARE DEAD.

#### An Epidemic Sweeping Over the City of Skagway.

Nanaimo, B. C., March 2 .- The steamer Oregon arrived here this afternoon from Skagway and Dyea. She had a number of passengers who are returning home disgusted with Alaska. Before the Oregon left Skagway, 17 deaths from cerebro spinal meningitis were reported in 24 hours.

Among the dead, the only names as certained were B. Austrander, of Portland, Or.; -.. Montello, of Des Moines. Ia.; Jones Hawbacher, of Astoria, Or.; George Baker, of Everett, Wash.; a child named Atkins, of Albany, and a boy named Anderson.

Dr. O. B. Estes, of Astoria, who was evidence now in his possession, he still holds to the belief that Spain's offer to a passenger on the Oregon, predicts that the number of deaths will soon make full satisfaction will be accepted run into the hundreds. by the American people.

The steamer Mamie reports that a steamship caught on fire in Semour narrows. Her name was not obtainable, but it is thought that she was from Vancouver, B. C. The fire was

#### Behring Sea Seizures.

Washington, March 2 .- The president today sent to the senate a full record of the proceedings between the United States and Great Britain in the arbitration relating to the compensation for the seizure of British ships in Behring sea under the treaty of 1892. The collection of documents includes the correspondence and notes of a diplomatic character bearing on the subject, but most of these bear date prior to the making of the award. A statement of the government counsel, Don M. Dickinson, Robert Lansing and Charles B. Warren, is appended, in which they say:

"If there are serious questions as to the validity of the award in the light of precedent and authority, in view of the history of the controversy, and in the exitsing conditions, as well as because of the comparatively small amount of the aggregate awarded, we venture to express the hope that the result will be accepted by our government.'

#### Mystery at Key West.

Key West, March 2 .- The order forbidding soldiers to go into town was recinded this afternoon. No explanation has been furnished, and there seems to be some mystification at this unprecedented occurrence.

#### Turkish Bread Riots.

Constantinople, March 2 .- Serious bread riots have taken place at Gallipoli, here a mob attempted to burn the government office. The police made \$6 arrests. \_ -
