

# New Era in Medicine.

This tells of a discovery that alleviates suffering and prolongs life. It is inexpensive, effective. Medical science is revolutionized over this, one of the greatest achievements of modern times.

The fact that several dollars spent for the right medicine has effected a cure where a skilled and expensive physician aided by the latest and most ingenious instrument of science, had failed, is a matter of much importance.

Important, because it opens to downcast sufferers a new, inexpensive and sure avenue to the restoration of health and the full enjoyment of the pleasures of life.

Such was the experience of Mrs. Ada M. Herr, of 439 North Charlotte Street, Lancaster, Pa.

From a weak, nervous, desponding person, she was made a strong, active woman and a cheerful, helpful wife.

Her story is interesting. Her nervous system was suffering from female disorders. Her nerves became unstrung, cramps gripped her and caused the most intense pain.

So weak and physically demoralized was she, that the slightest labor wearied her and household duties were a burden.

The most alarming symptoms of her malady were the frequent fainting spells that afflicted her.

In the midst of her work, or in a conversation, dizziness would come upon her and she would fall prostrate in a swoon.

She consulted a reputable physician. He diagnosed her case and prescribed the usual remedies.

Instead of improving, she continued to grow worse; the ailment that was robbing her life of the joys of womanhood became more pronounced.

It seemed impossible to correct or even to check the disorders.

"I had become greatly weakened," said Mrs. Herr, in telling her story to a reporter, "and the awful cramps and the frequency and nature of the fainting spells alarmed me beyond belief and shattered my system."

"I tried electric treatment; it failed, and I did not know where to turn for help."

"A friend told me how her mother had been greatly benefited by taking Dr. Williams' Pink Pills for Pale People."

"I had but little hope for success; but decided to give these pills a trial."

"I took two boxes and was much benefited. After taking six more boxes I was cured. Dr. Williams' Pink Pills for Pale People had done what all the previous treatment had failed to do."

"I am fully restored to health now, and do things that I had hardly dared attempt before."

No discovery of modern times has proved such a boon to women as Dr. Williams' Pink Pills for Pale People. Acting directly on the blood and nerves, invigorating the body, regulating the functions, they restore the strength and health to the exhausted woman when every effort of the physician proves unavailing.

These pills are recognized everywhere as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. Truly they are one of the greatest blessings ever bestowed upon mankind.

## Will Proceed With Yamhill Lock.

Captain Fisk, United States engineers, has finally succeeded in consummating the purchase of the land needed as a site for the residence of the keeper of the lock to be built on the Yamhill river, near Lafayette, and operations on the dam and lock, which have been delayed until this land was secured, will shortly be commenced. Messrs. Normile, Fastabend & McGregor of Astoria, to whom was awarded the contract for the construction of the lock and dam, were in the city Saturday to see Captain Fisk and make arrangements for beginning work on a bar a little below the site of the proposed dam, where the channel is to be deepened by dredging. They will at once commence sending material to the site of the dam, and as soon as practicable will commence the work of construction. If all goes well, they will probably finish the work this season.—Oregonian, 18th.
