WILL HE EXPLAIN?

R. M. Veatch, candidate of the fusionists for congress in the first district is making speeches throughout the district. Will Mr. Veatch explain to his hearers if he has changed his mind on the financial question since 1892? In that year he ran for congress as a democrat on a platform demanding that all money coined by the government should be of equal monetary value; that all paper currency be redeemable in gold or silver at the option of the holder, and that the government go out of the banking business and cease to issue paper money.

Now Mr. Veatch has accepted the nomination of the democratic, populist and free silver republican conventions, which agreed planks demand the free coinage of silver, that the option of redemption of paper money be taken from the holder and given to the government, and that the government issue an unlimited amount of fiat paper money redeemable in nothing.

Will Mr. Veatch say he was not sincere in 1892? The "crime of 1873" was committed long before that time. The issue was a live one. He did not avoid it. He stood on that platform. If he was not sincere in 1892, will any person believe he is sincere now, when he takes the opposite side of the issue; when he takes the side which events transpiring since that time have proven still more clearly to have been and to be wrong?

Mr. Veatch would no doubt like to be considered an honest man and a sincere one. Will he say he was mistaken in 1892, and that he has since discovered his mistake? If so, when did he discover it? If he simply cast aside his former principles and now advocates principles he knows to be wrong, and has known all along to be contrary to truth and good policy, for the purpose of political and financial gain for himself, is he a man to be trusted? Is he a man worthy to represent the first district in congress?

Even though it were shown that Mr. Veatch has honestly changed his mind, a possibility entirely contrary to reason and the course of events, would it be good to send from western Oregon to represent us in the popular branch of the federal legislature, a man who would be classed with Jerry Simpson of Kansas, and Dude Lewis of Washington? What could he do for our people—opposed as he would be to all the purposes of the administration, and with the minority party in congress? His election would be a costly mistake, affecting adversely the interest of every one living or doing business in Oregon.—Salem Statesman.

A privateer is an armed vessel fitted out by private parties to attack and seize at sea the property of the enemy. In early warfare, and in fact until 1812, privateers were not required to bear commissions, technically called letters of marque, from the government under whose flag they sailed, but privateers without letters of marque are now treated as pirates. The only difference between a privateer without letters of marque and a pirate ship is that the former flies the flag of its country and attacks only the vessels and goods of that country's enemy, while the pirate ship flies the black flag and plunders any craft it is able to seize.

A thrill of terror is experienced when a brassy cough of croup sounds through the house at night. But the terror soon changes to relief after One Minute Cough Cure has been administered. Safe and harmless for children. Rogers Bros' Pharmacy.

The daughter of General Grant, Nellie Grant Sartoris, has asked to be restored to American citizenship, and the only way it can be done is by having congress pass a special act in her behalf. She is American born, but married an Englishman, and moved to England.

After years of suffering from piles, B. W. Pursell of Knitersville, Pa., was cured by using a single box of DeWitt's Witch Hazel Salve. Skin diseases such as eczema, rash, pimples and obstinate sores are readily cured by this famous remedy. Rogers Bros' Pharmacy.

The Soldiers Have Started.

The government examination is very rigid in its requirements as to what constitutes the proper make-up of a soldier, and 23 out of the 60 men sent from McMinnville failed to pass. A correct list of those who passed the examination is as follows:

- Capt., H. L. Heath.
- Lieut., J. A. Young.
- Sergeant, F. E. Weed.
- Q. Sargeant, Geo. Snyder.
- Sargeant, A. P. Harris.
- Sargeant, F. T. Hayes.
- Corp. J. J. Welch.
- Corp. D. H. Mitchell.
- Corp. A. E. Lambert.
- Musician, T. J. Warren.
- Privates, W. P. Morris, H. B. Blough, R. C. Blough, Fred Bogue, Frank Colard, W. C. Cooper, P. B. Cooper, J. H. Davis, J. H. Gallagher, F. W. Hibbs, C. H. Hoberg, E. E. Hoskins, H. Lady, G. Maddux, H. H. Martin, C. O. McCutcheon, L. E. Miller, J. N. Mitchell, R. E. Perry, J. C. Prentiss, H. M. Stimpson, F. H. Thompson, A. C. Thurber, W. O. Walker, A. Williams.

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by S. Howorth & Co.

Western Oregon Crops.

All crops are reported to be in excellent condition. The continued absence of rain is being noticed in the southern counties, but along the coast and in the Willamette valley rain is not badly needed, though it would be welcome and very beneficial. The reports indicate that the frosts of April have injured the peach crop in many portions of the Willamette valley, especially on the higher land and in the foothills; elsewhere no injury is reported. The injury is not general, and will not reduce the crop, as a whole, to any appreciable extent. Strawberries, in limited areas, were also injured, but are generally reported to be in good condition and commencing to ripen. Apple trees have dropped their bloom. In some localities, early cherries are blighted. All fruit is setting well, and unless unforeseen and unexpected conditions arise, the fruit crop will be very large.

The hay crop continues to be promising. Owing to the demand for hay in California, there will be more wheat hay this year than usual. Clover and timothy would be benefited by rain. Alfalfa is making good growth in the southern counties.

Garden produce is making a slow but healthy growth; rains would be very beneficial to gardens. Hops are not in the best condition. General reports come in to the effect that some hills have made good growth, and that others are not yet above the ground. No section reports uniformity in the growth of hops. The grain crop is in excellent condition. The drying north winds have been, to an extent, detrimental, but the growth is fairly rapid, the stand and color good. Rye is beginning to head out. Fall and winter sown wheat and oats will make a good crop without more rain. Spring sown wheat and oats, while generally above the ground and having a good appearance, will soon need rain.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success as a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Gaars Mills, La. For sale by S. Howorth & Co.

WHITESON.

The tile factory commenced operations this week.

The Salvation Army was in Whiteson Tuesday night.

The prospects are very favorable for an abundant harvest in the Willamette valley this year.

Admiral Montejo has gone to command the hurricane deck of the shadowy mule of Matanzas.

The first gun in the war with Spain seems to have effectually silenced the political batteries of all parties in this place.

T. R. Hibbard and sister, Mrs. Elvira Knowles of Silverton, were the guests of Levi Bennett and family Saturday and Sunday.

Banquets, glory and gold-headed canes await the man who shall effectually silence Gen. Weyler.

Miss Helen Gould has tendered the United States government \$100,000 to be used in prosecuting the war against Spain.

Spanish ministers speak of "serious but honorable" losses at Manila. Yes. The most honorable fate a Spanish fleet can meet is to fall into American hands.

The war began April 21st, and on May 5th the Spanish fleet at Manila was at the bottom of the bay. Spanish pride should find a better method of vindication.

Under the new army bill the pay of a private soldier will be \$13 a month in time of peace and \$15.60 a month during war. The boys will have no objection to 200-cent dollars.

One result of Dewey's victory is that our commerce on the Pacific is safe from Spanish attack. The Spanish fleet, if it had escaped, would have been a constant menace to our oriental trade.

Gen. Blanco claims that there is still a bright future in store for Spain, but as he neglects to mention the place of concealment it is presumed to be in one of the stores that does not advertise.
