DASH TO SPAIN.

Cadiz Fleet Goes East.

There is no doubt that Dewey can take care of himself against the Cadiz fleet, since his own squadron will be reinforced by ironclads long before Camara's ships sight the bay of Manila, and he will have the shore batteries with him, instead of against him, in the struggle. It has been coning four troops of the first cavalry, four cluded by the administration that troops of the Tenth cavalry, and eight nothing save the most severe measures will suffice to bring the Spanish people to a realizing sense of the hoplessness of the continuance of the present war, and even kindness, it is held. will dictate such a blow as that which it is proposed to administer, if the

MOVEMENTS OF CAMARA.

Probability That He Will Not Venture Beyond Port Said.

Washington, June 27.-That the Spanish Cadiz fleet is proceeding steadily eastward is no longer doubted here. Trusted agents of the government on the shores of the Mediteranean are watching every movement of the ships, and availing themselves of every reliable source of information. So when word came from one of these agents today that the squadron was sighted off Pantellaria day before yesterday, the officials were bound to accept the statement as beyond question. The first report to that effect, which came through an Italian newspaper, was taken with some reservation, owing to the known

The Complete Investment of Santiago de Cuba by Land and Sea-Blockade Runners Have Landed Under the Lee of the Isle of Pines.

Off Santiago de Cuba, via Kingston, June 25 .- With the complete investment of Santiago de Cuba by land and sea but few days off, the admiral has decided to strengthen the blockade of railroad appears to take its start along the large ports on the southern coast the coast from that point. westward of Santiago.

For three weeks the south coast, west of Santiago de Cuba to Cape San Antonio, has been practically unprotected. The blockade has been simply on paper, in name only, with the result that it is known that quite a number of ships have run the blockade, and that an immense quantity of provisions has been smuggled into Havana. Most of the blockade runners have landed their cargoes under the lee of the Isle of Pines, and thence the provisions, etc., have been taken in small boats to Batabano, whence the railroads runs to Havana, only 30 miles distant.

The admiral has now decided that blockade running must cease, and yesterday dispatched four fast ships to patrol the coast from Cape de Cruz to the Isle of Pines.

REPORT FROM MADRID.

As Usual, a Glorious Spanish Victory Is Claimed.

Madrid, June 25. - An official dispatch from Santiago de Cuba, dated June 25, savs:

The attack commenced yesterday. The enemy concentrated a landing force in front of Punta Berraco, lying eastward of our left flank, which ex-tended for eight leagues along the coast.

Another official dispatch from Havana says:

The commander at Santiago de Cuba announces that the American squadron has commenced the bombardment and is trying to disembark at Daiguiri and at Punta Berraco. An American warship has shelled and destroyed a small wooden fort near Cienfuegos. Seven Spaniards were slightly wounded.

Cable dispatches received here from Admiral Cervera say the crews of the Spantsh warships at Santiago have joined the land forces in order to take part in the defense of the city. He adds that the situation is critical, but a later dispatch affirms that the Spaniards "have victoriously repulsed the Manila in about 23 days.

WHERE THE TROOPS LANDED.

Washington, June 25 .- Army officers were intently scapning the map of the country around Santiago today with a view of locating the troops and fixing their formation on the eve of the advance. Daiquiri is about 15 miles east from the mouth of Santiago harbor. A small river runs inland at that point, affording additional facilities for landing. The map shows a road direct BLANCO'S SUPPLIES CUT OFF from Daiquini to the entrance of Santiago harbor, and thence along the harbor to the city of Santiago. Besides this road, a railroad starts a few miles west of Daiquiri, running along the

Back of this railroad and highway, the maps show a mountainous formation, which would make the progress of an army difficult. It seems evident, from an examination of the army map. that General Shafter's troops at Dalquiri and Juragua will move westward along the highway, perhaps utilizing the railroad and approaching Santiago from the southeast.

Distinct from this landing, which is east of Santiago harbor, it seems evident that at least a part of General Shafter's force will land west of the harbor, thus allowing an attack on Santiago from the northwest. The dispatches state that a demonstration was made against Cabanas, which is shown on the military map to be a small place just west of Santiago harbor, and not more than two or three miles from the mouth. Further to the west is Acerradero, where General Rabi and General Garcia have a large force of Cuban troops. I t is clearly inexpedient for this Cuban force to make an inland circuit clear around Santiago and form a junction with General Shafter to the east of Santiago harbor. Their natural base, therefore, will be to the west at Acerraderos, cooperating with such of General Shafter's troops as land to the west of the harbor. A road runs from Acerraderos to Cabanas. No road is shown along the west line of Santiago harbor, and the march of the American and Cuban troops making the assault on the west side of the city may be slow and laborious, through the tangled tropical underbrush, swamp and rock.

The End of the Remarkable Leiter Wheat Deal.

[Reported by Downing, Hopkins & Co., Inc., Board of Trade Brokers, 711 to 714 Chamber of Commerce building, Portland, Oregon.]

Leiter's wheat deal has become a thing of the past. It was a big one while it lasted, but, like its predecessors, came to an untimely end, leaving a corpse in the shape of 14,000,000 bushels of cash wheat and over 10,000,-000 bushels of futures. Of the cash wheat 7,000,000 bushels is in this country, nearly 5,000,000 bushels be-ing in the Northwest. The greater portion of it has been turned over to Armour to liquidate, while the foreign holdings and those afloat are being attended to by Alexander Gedds. The \$5,000,000 in profits have disappeared. and with them a possibility of losses of from \$3,000,000 to \$5,000,000. The latter cannot be determined until the wheat is liquidated and all accounts' are adjusted. Some think that L. Z. Leiter will not have to put up very much money in final settlement. The latter, who has taken a hand in the liquidation, says the losses will not be as large as the trade expects. He is a close figurer and is in a position to know what he is talking about. The trade may never know what the losses really are. Prices have reached a point where buyers need not be afraid. of being badly hurt by the bull side. September was down to 66, a drop of 29c from the high point. It is now the price where it should be attractive to buyers were it not for the fear that there is more liquidation to come. In the past seven years September wheat has sold in June between 55c and has sold in June between use and 87 ½ c; the highest was in 1893, and the lowest in 1896. Last year the range was 66 1-8c and 66 ½ c. In 1896 it sold from 55c to 64 3-8, and in 1895 at 70 5-8 to 8234. The trade has lost its bull leader and is completely de-moralized. Liquidation by longs, combined with short selling by large professional traders, has more than equaled Leiter's holdings, so that they have liquidated his line for him in one sense. The selling fever has taken hold of the speculative crowd and it will have to run its course just the same as the buying mania did. Prices are liable to be carried too low, and when it comes to covering, there will be a big rally. There is one thing against heavy advances; it is the absence of a leader to absorb the surplus and take it off the market.

mislead our naval authorities by just such publications in friendly neutral newspapers. By reckoning of the naval officers, the squadron should be now nearing Candia, south of Greece. At the rate they are progressing, the squadron should reach Port Said, at the entrance to the Suez canal, about Tuesday or Wednesday. Beyond this

point it is not believed that the squadron will go, for it is confidently felt that the whole Spanish movement is nothing more than a spectacular display, gotten up to meet the irresistible demand of the Spanish populace and particularly the clerical party that something should be done to save the Philippines to Spain.

There is a question whether the canal authorities will allow the heavy Spanish armored ships to risk the passage of the canal, even if Admiral Camara is willing to undertake it. Their draught is so great that they might easily ground in the canal and thus obstruct it to navigation indefinitely.

The chamber then adjourned, withder the name of Walter Sampson Schley out the customary cneers for the throne.

New National Guard for Oregon Ordered by Governor Lord

Portland, Or., June 25.-The Oregon National Guard will be reorganized and placed on a war footing at once.

Orders to that effect were issued yesterday by Adjutant-General Tuttle by direction of the commander-in-chief. The orders are as follows:

"The Oregon National Guard, pursuant to G. O. No. 13 c. s., this office, consists of four independent organizations, as follows:

"Battery A, troop B and separate companies A and K.

"The organization of the Oregon National Guard, as authorized by the military board, contemplates for the infantry, one regiment, to consist of three battalions, each of four companies, the companies to have a minimum enlisted strength of 56 and a maximum of 72 in peace, and in war a maximum of 106 or such number as may be prescribed by the war department for the volunteer army, to be designated Third regiment, Oregon National Guard. "One battalion will be organized in

each military district, that is, one in Eastern Oregon, one in the Willamette valley and one at Portland.

"The organization contemplates practical military one, based on the requirements of actual war, as regards physical qualifications, etc., that the organization may be available as a whole for muster into the service of the United States.

Refugees From Havana

Kingston, June 25 .- It is understood the British warship Talbot, which brought 34 refugees from Havana five days ago, sailed from Porto Rico yesterday for Havana, to bring away the British consul and any British subjects who are desirous of leaving the Cuban capital.

London, June 25 .- The Madrid correspondent of the Mail says: Senor Sagasta informed the chamber of deputies today that Admiral Camara's squadron was on the way to the Philippines. Senor Salmoner, in a bitter attack on the government, declared that the monarchy was to blame for all that has happened, and he warned the ministers that if they suspended the cortes, justification would be afforded for the use of other means. His speech roused a tempest and the sitting was suspended.

Landing Officially Reported.

Washington, June 24 .- Official dispatches received tonight by Secretary Alger and Secretary Long indicated that the landing of troops near Santiago is progressing most favorably. The first landing was effected at Baiquiri this morning and met with comparatively slight resistance. This was stated in a dispatch received this evening by Secretary Alger, which, though brief, was full of news and meaning. It follows:

"Playa del Este, June 24.-To the Secretary of War, Washington: Off Baiquiri, Cuba, June 24.-Landing at Baiquiri this morning. Very little if any resistance. SHAFTER." any resistance.

Shortly after Secretary Alger received this dispatch, Secretary Long received a more extended cablegram from Admiral Sampson. It, too, was dated at Playa del Este, at 6:50 this evening. The text of the dispatch, translated from the navy department cipher, is as follows:

"Landing of the army is progressing favorably at Baiquiri. There is little if any resistance. The New Orleans, Detroit, Castine, Suwanee and Wasp shelled the vicinity before the landing. We made a demonstration at Cabanas to engage the attention of the enemy. The Texas engaged the west battery for some hours. She had one man killed. Alleged to Have Been Massacred.

London, June 24.-Reports from Manila, says a special correspondent in Shanghai, indicate the existence of fears that Senora Augustin, wife of General Augustin, and her children, have been massacred by the rebels on the Bulacan. It is thought, according to the same advices, that this is the reason for the unwillingness of General Aguinaldo, the insurgent leader, to allow the British consul to start to rescue them.
