FEVER STRICKEN CITY

New Cases at Santiago Now Four Hundred.

Victims Are Not All Suffering From Yellow Jack-Disease of a Mild Type -Shafter Reports That His Men Are Being Located in Better Camps.

Washington, July 26 .- A dispatch received by General Corbin from General Shafter says that 396 new cases of fever of all classes were reported in his camp before Santiago yesterday. As the same dispatch reports only four deaths, none of them from yellow fever, from among the hundreds of fever cases in the camp, the war authorities are more than ever inclined to the belief that the yellow fever cases are of a mild type. Previous dispatches from Shafter and the medical officers of his corps have indicated the existence in camp of a very large number of cases of malarial fever and dengue fever, the latter common in the Cuban climate. Some clear cases of vellow fever are reported, but the officials say they are few as compared with those of other fevers.

General Shafter's dispatch received by General Corbin is as follows:

'Santiago de Guba, July 26 .- Number of new cases of fever of all classes yesterday approximately, 396. Deaths not previously reported, Private Daniel Stone, company D, First Illinois, typhoid fever, July 20; Sergeant J. Blair, regimental quartermaster, died July 23 of dengue fever; Privates William Peacock and Garratt Learnesheck, both of company E, Second infantry."

General Shafter reported by cable today that the condition of the troops at Santiago was rapidly improving, and said he hoped in the course of a day or two to have the men located in comfortable camps, where they may rest. and recuperate and where the sick may

He is feeding 11,000 Spaniards, prisoners of war, and although he has not yet been able to furnish them tents. this deficiency is being made good, and their condition is no worse in this respect than was their condition before the surrender.

Troops Mentally Depressed. Santiago de Cuba, via Kingstor, July 26 .- The report published in the United States that there are 30 cases of yellow fever in the cavalry division proves on investigaton to be unfounded. Captain House reports that there is no sickness. The First, Sixth and Ninth cavalry, the First and Tenth infantry

regiments and six companies of the Randolph light artillery, are encamped about two miles northwest of El Caney, at the base of the mountains. The camp is apparently perfectly healthy, as to the location, and has a good water supply. The ground is well

drained.

Malarial fever is prevalent, but it always yields to quinine treatment in the course of four or five days. The fact that immunes of the regiment have this fever as freely as the other men shows that it is not yellow jack. There have been no fatalities from malarial fever thus far, but so long as the men are exposed to the hot sun during the day, the increasing rain and heavy dews, malaria will increase and our men grow worse. A second attack is much more difficult to eradicate, especially in the case of men exposed to the

present conditions. The army is mentally depressed by inactivity, and the uncertainty as to its future movements. together with

the increasing malarial fever. SURRENDER OF SPANIARDS. Interior Garrisons Lay Down Their

"Santiago, via Hayti, July 26 .- Adjutant-General of the Army, Washington: Lieutenant Miley has returned from San Luis and Palmas Soranio, where he went four days ago to receive the surrender of the Spanish troops. The number surrendered was larger than General Toral reported. Three thousand and five Spanish troops and 350 volunteer guerrillas gave up their arms and gave parole and have gone to work. Three thousand stands of arms were turned in to load on ox-carts and started to the railroad. Spanish troops accompanied him to San Luis, and all were apparently greatly delighted at the prospect of returning home. They were on the verge of starvation and I have to send them rations tomorrow. If the numbers keep up as they have, there will be about 24,000 to ship away, nearly 12,000 here; 3,000 from San Luis, 6,300 from Guantanamo, and over 2,000 at Sagua and Baracoa.

"SHAFTER, "Major-General Commanding."

Not Written by Garcia.

Santiago de Cuba, July 26 .- It now turns out that the letter alleged to have been addressed by General Garcia to General Shafter, complaining of the treatment accorded to the Cubans, and advising General Shafter of General Garcia's resignation, was prepared by a newspaper correspondent named Aras, who has been acting on the staff of General Garcia. It is not clear that

Garcia ever saw the letter. Shafter makes no mention of it.
