At Truckee, Cal., an explosion in a freight car containing two tanks of naphtha, caused by a tramp lighting a cigarette, resulted in the burning of 11 cars of merchandise and 1,800 feet of snowsheds. Three men were seriously burned and all passenger trains were delayed.

Eight hundred Spaniards at Cape San Juan, attempted to retake the lighthouse, which was guarded by 40 of our sailors, commanded by Lieutenant Atwater, Assistant Engineer Jenkins, Engineer Brownson and Gunner Campbell. The Spaniards were driven back by shells from the Amphitrite, Cincinnati and Leyden. It is reported that 100 Spaniards were killed.

In official circles at Madrid the reply of the United States to Spain in the matter of peace negotiations is regarded as satisfactory. Sagasta, however, denies that he authorized the French ambassador at Washington, as a representative of Spain, to make any change in the Spanish answer. As regards certain conditions which might create differences during the course of negotiations, the premier added: "If any changes are to be made, the government itself will make them."

SURRENDER OF MANILA

Luzon's Capital Bombarded by Dewey

AUGUSTIN FLED TO HONG KONG

Spanish Consul Had Not Sent Notice of Signing of the Protocol—German Launch in Waiting Aided Augustin to Escape—Acknowledged in Madrid.

Hong Kong, Aug. 17.—It was rumored here last night that Manila had surrendered, but no information was obtainable from the Spanish consul. Governor-General Augustin refuses to speak. The German consul was called upon, and he informed the correspondent that the outskirts of Manila were bombarded by the Americans, and that the city had surrendered. No damage was done to the city proper, only the outskirts being bombarded. The

date of the bombardment was unknown to the German consul, who refused to say any more.

General Augustin told a lady that Admiral Dewey demanded the surrender of Manila in an hour. The Spaniards declined to surrender, and Dewey began the bombardment and the Spaniards hoisted a white flag. General Augustin immediately jumped into a German launch, which was in waiting, and went to the Kaiserin Augusta, which sailed before the bombardment was concluded. The bombardment occurred on the 13th.

Department Notified.

Washington, Aug. 17.—The department of state has just issued the following: The following dispatch has just been received at the department of state from Consul Wildman, Hong Kong:

"Augustin says Dewey bombarded Manila Sunday; city surrendered unconditionally. Augustin was taken by Germans in the launch to the Kaiserin Augusta and brought to Hong Kong. I credit report."

The information contained in Consul Wildman's brief message aroused intense interest, but created no surprise among those officials who read it. For two or three days news of the fall of Manila has been expected. The last dispatches received from Admiral Dewey and General Merritt indicated that it was their purpose to force a surrender of the city as soon as possible.

It is believed that they joined in a note to General Augustin in demanding the surrender of Manila, threatening to make a combined sea and land attack upon the city unless the demand was acceded to. While no information other than that received in Consul Wildman's dispatch has been received by the department, it is in a measure confirmed by brief dispatches tonight from Madrid.

If the report of General Augustin be true, and its accuracy is not questioned here, the probabilities are that official dispatches will be received by the government in a day or two at the latest.

The flight of General Augustin from Manila created some amusing comment tonight. As one official expressed it,

FLAG OF PHILIPPINE INSURGENTS.

"Had he maintained his position, hard as it was, until the arrival of the news of peace, he would have been a hero; but he fled, and he now will be branded as a coward."

Acknowledged at Madrid.

Madrid, Aug. 17.—According to La Correspondencia de Espana, the surrender of Manila occurred after the last attacks made upon the city.

Skeptical Spaniards.

Hong Kong, Aug. 17.—The Spanish consul here has not sent to Manila the news that the protocol has been signed, and probably the Spaniards at Manila will discredit the account to be brought them by the British steamer Australia, as she was chartered by the Americans.

Flags of Truce.

Guayama, Porto Rico, Aug. 17.—General Brook sent Colonel Richard to the Spanish lines yesterday under a flag of truce, with a notification of the signing of the peace protocol. He was met by Commandant Cervera in person. After the communication had been read, felicitations and cigars were exchanged. Flags of truce are flying over our outposts. It was suggested that they be also planted over the Spanish lines, and the suggestion was accepted.

THE CONTROL OF CUBA.

The Question Is Now Receiving Earnest Consideration.

Washington, Aug. 17.—The reconstruction of affairs in Cuba, Porto Rico, and throughout the Spanish West Indies, is receiving earnest consideration in official quarters and at the White House. Today the president saw a number of callers in reference to this reconstruction in our new insular dependencies.

Major-General Fitzhugh Lee in command of the Seventh army corps at Jacksonville, came here on a special telegraphic summons from Secretary Alger, and it was with the latter that he conferred for an hour with the president. It is generally expected that General Lee will head the military commission which will adjust affairs in Cuba, and also has been strongly urged for the governorship of that island, after the functions of that commission cease. On both of these points, however, General Lee asserts he knows nothing. He admitted, however, that he had been talking over matters in Cuba generally. Then he added:

"The first work which will have to be done in Cuba will be to make arrangements by which all the municipal machinery can be put in operation in all the towns, and governmental machinery throughout the island. There will have to be a military control, I suppose, until such a time as the people interested can organize, and put into operation, a government which should be stable and strong enough to impartially protect the interests of Spaniards, Americans, Cubans and the people of other nationalities now on the island, or who may hereafter go there."

"Is there a probability of Spanish interests suffering there through the Cubans?"

"The Spanish property-holders, merchants and all other classes of Spaniards naturally would unite with all the best of the conservative inhabitants for the preservation of the interests of all the citizens, and I think they will help the natives and the Americans to maintain a strong, safe government. This would be natural, for no class of

FINAL BATTLE IN PORTO RICO.

Schwan's Forces Were Attacked Sunday—Spaniards Repulsed.

Ponce, Porto Rico, Aug. 17.—General Schwan's column was attacked before Mayaguez and Lares. As the Eleventh infantry, under Colonel Burke, was descending the valley of the Rio Grande, they were fired upon from a hillside by a force of 1,500 Spaniards, who were retreating toward the north. The fire was returned, and the Spaniards were repulsed, with, it is supposed, considerable loss.

Colonel Soto, the commander of the Mayaguez district, was wounded, and

BRIG. GENERAL FRANCIS V. GREENE.

was afterward overtaken in a wayside cottage. He was attended by two sergeants, who surrendered. The Americans suffered no loss. The artillery was not engaged. General Schwan had not received news of the signing of the protocol, when the action occurred, but obtained it yesterday afternoon. The reports from General Miles are meager.

An Unfortunate Belief.

Hong Kong, Aug. 17.—Belated mail information from Manila is to the effect that there has been renewed activity on the part of the Spaniards of late.

UNCLE SAM'S NEW TERRITORY, AS A RESULT OF THE WAR.

The above map shows the territory that has been, or will undoubtedly be, added to the United States as a result of the war with Spain—Cuba, Porto Rico, the island of Guam, or Guahan, in the Ladrone, and a coaling station and port in the Philippines.

people would be more interested than they are in maintaining property and all other rights.

"The most difficult problem is the first organization of a preliminary form of government, as later the island will be very rapidly Americanized, and all such questions will take care of themselves. As to the probability of the Cubans attaining a stable government, I presume that as soon as possible a proclamation will be issued, setting apart a date for the holding of a general election for a chief executive of the island, and for a legislative body, to which all matters affecting the future of the island will be referred.

Spaniards Are Leaving.

Santiago de Cuba, Aug. 17.—The Spanish steamer Isla de Luzon sailed this morning for Spain, having on board 2,136 Spanish soldiers. The steamer Isla de Panay will probably sail to-morrow and she will be followed by the De Satruategui. The Montevideo arrived this morning and will begin loading at once. The embarkation of the prisoners is being pushed with great activity. This is rendered imperative by their horrible condition. The mortality is so great in the Spanish camp, where disease is rampant, that no longer are the dead buried. A funeral pile of 10 or 12 bodies is made, saturated with kerosene and set fire to, cremating the bodies in the open air.

Columbus Is Blamed.

London, Aug. 17.—The Madrid correspondent of the Times says: The dominant tone of the press comment is philosophical resignation. The educated classes are not making any attempt to find scapegoats or to console themselves with vituperation of the victorious enemy. The colonies, instead of enriching, have impoverished the country. Columbus, in discovering the New World, was not Spain's benefactor, but her evil genius. Therefore one leading paper opposes the suggestion that his remains should be brought home from Havana.

American Bicycleist Wins.

Paris, Aug. 17.—C. W. Miller, the American cyclist, won the 72-hour bicycle race today, covering 1,872 kilometers; Frederick, the Swiss cyclist, was second, covering 1,870 kilometers.

Why Blanco Resigned.

Madrid, Aug. 17.—The government has received from Captain-General Blanco a dispatch tendering his resignation. The reason given by General Blanco for resigning is that he does not wish to superintend the evacuation of Cuba. The government is also informed that General Augustin, governor-general of the Philippines, will leave Manila for Spain by the first steamer, giving his command to the second in rank.

FIRED ON THE FLEET

Havana Batteries Deliver a Parting Shot.

SAN FRANCISCO WAS STRUCK

Large Hole Torn in the Cruiser's Stern—No One Aboard Ship Was Hurt—American Vessels Steamed Out of Range as Rapidly as Possible.

Key West, Fla., Aug. 16.—The flagship San Francisco, the monitor Miantonomoh, and the auxiliary yacht Silvia, were fired upon by the Havana batteries shortly before 5 o'clock yesterday morning. One 10 and two 12-inch shells struck the San Francisco's stern as she turned to get away out of range, and tore a hole about a foot in diameter, completely wrecking Commodore Howell's quarters and smashing his bookcases into fragments. No one was injured, and, being under orders not to attack the batteries, the ships departed as fast as their engines would carry them.

The flagship and the Silvia lay parallel to each other, not more than a mile from Morro castle, and separated from each other by three-eighths of a mile. The Miantonomoh lay about three-quarters of a mile to the rear of the others. All were within range of the Spanish batteries, and the temptation was too strong for the Spanish to resist.

The first glimmer of dawn was breaking through the eastern skies when, without an instant's warning, the look-out on the flagship saw a jet of smoke puff from one of Morro's big guns. Almost before he could pull himself together sufficiently to make a report of the incident, 10 and 12-inch shells were screaming all around. The Spaniards had the range, and apparently were grimly in earnest in their last efforts to wreck injury on their too mighty enemy. Shells fell between the San Francisco and the Silvia. Some fell short, a few went over them. The flagship signalled the Silvia to get out of range without delay, and both ships swung around and made for the sea.

It was then that the shell struck the San Francisco's stern. Commodore Howell was on deck with Captain Leary when the shell struck. With the utmost speed the fleet moved out about three miles. Here the men of the flagship patched up the ragged hole in the vessel's stern. All the shells fired at the vessel fell around the ships. One of the Silvia's men stood calmly on the deck of the yacht, watch in hand, and counted them.

Morro castle fired several of the missiles, but how many is not known. The others came from two sand batteries near Morro. The firing lasted 20 minutes.

The one-sided engagement had scarcely ended when the men of the Silvia were treated to another surprise. The little yacht gunboat is manned by the New York naval militia. Her crew had barely recovered from the excitement when the flagship called the vessel over, and Captain Bellers was given a packet of private documents, which he was ordered to take into Havana under a flag of truce. The white flag was hoisted over the Silvia, and she started towards the guns which had just given her such noisy greeting. As the Silvia approached to within a mile of Morro, the character of the flag floating from her foremast was discerned and the castle signalled:

"What is your purpose?"

To this the Silvia answered: "We have papers to deliver."

Morro did not resume the conversation and for some little time the gunboat rocked on the waters almost under the still-smoking cannon of the enemy. Presently, however, a Spanish gunboat drew out of the harbor and came close to the Silvia. It was the Martin y Pinzon, and carried a much stronger battery than the American ship. The customary formal salutations were exchanged, and Lieutenant William G. Ford, the executive officer of the Silvia, boarded the Pinzon and delivered the documents.

The ceremony occupied no more time than the physical act involved. The American officer returned to his ship, and the vessels went on their respective ways.

Ran Into a Washout.

Chicago, Aug. 16.—Battery A, Colorado light artillery, passed through Chicago today on the way to Fort Hancock, N. Y. The troops arrived over the Santa Fe road just too late to make connection with an eastbound train. They were delayed by an accident. A washout occurred near Nemo, Ill., and to the speed of the train the men owe their lives. As the last tourist car passed over a small cowpit, the roadbed collapsed and the car plunged from the rails. Every man on the train was awakened, but before it came to a stop, a guard rail caught the rear truck of the sleeper and threw it on the track.

Collided With a Yacht.

Boston, Mass., Aug. 16.—The sloop yacht Leona, with 17 men aboard, while anchored outside of Boston light, was run into by a barge in tow of the tug Honeybrook and five men were swept from the deck by the heavy tow line. Two of the number, C. W. Sellman and A. Nordell, were drowned; another, A. Casperson, was killed by being jammed between the tow line and the deck, while the two others, Peter Nelson and J. Harkinson, although sustaining injuries, were rescued.
