Our Sunday Victories.

The old saying, "The better the day, the better the deed," seems to find substantial support in our war with Spain. Dewey's great victory at Manila was fought on Sunday, May 1; Schley discovered Cervera's ships hidden in the harbor of Santiago on Sunday, May 29; Cervera's fleet was smashed by Schley on Sunday, July 8; the Spanish flag on Morro castle, Santiago, was hauled down on Sunday, July 17; and the first battle between our land forces and the Spaniards at Manila began on the night of Sunday, July 31, ending in a victory for the American troops. -Leslie's Weekly.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the nuceous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deainess is the result, and unless the inflammation can be taken out and this tube resured to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous striaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

ground. Such a trame is exceedingly handy, as it is low, and can be approached so readily from all sides, there being no large wheels in the way. -American Agriculturist.

Dishorning Calves.

Dishorning may be accomplished by operating upon the calf when very young, say from ten to thirty days' old. Various methods and compounds are used, several preparations being obtainable at the stores. A stick of caustic potash may be used or a mixture made of two parts of caustic soda, one of kerosene and one of water. In mixing the latter, stir together the caustic and kerosene, then add the water. In ap- grown, and are also afflicted with verplying, trim the hair away from around tigo. The cause is due to feeding largethe horn buttons, and put the mixture ly of grain. During warm weather on with a rubber cork, being careful that it does not touch any other part or ling but grass. All aquatic birds rethe hands. A stick of caustic potash may be applied in the same way, putting on gloves or wrapping the cloth around the stick to protect the hands .-Massachusetts Ploughman.

Harness in Hot Weather.

dipped in vacuum oil so as to prevent the harness from cracking. So far as possible the harness should be kept away from the stables, as there is in summer a strong smell of ammonia from the rapid decay of manures. This ammonia will dry out and crack the harness worse than it will to use it a long time in cold weather. As the ammonia penetrates the leather, it causes the latter to rot and the harness soon becomes worthless.

agriculture such as to make farming a through the big building. lucrative occupation. The years just indeed.

times. When times get so good that be given every opportunity to enjoy it. no one will complain that farming does

there are many who must fare badly. They struggle along in a state of poverty and put in their time complaining about their lot. We believe that not one in 1,000 farmers who read the papers and adopt modern methods get crops the yield of which is as low as the average of the country. The man who takes every advantage that skill and science places at his command may confidently count on crops above the average, and many times so far above that his profits will be entirely satisfactory. It is these reading, thinking farmers who make farming a profession to be proud of. To them the country looks for that material advancement that raises the price of railroad stocks and sets the factories going. They are going to have their innings now.-The Farmer's Voice.

So doing will raise the beef

Potatoes Make "alvy Butter. Every farmer who has ever grown po tatoes knows that they are of little value for feeding raw to stock, and that they are especially objectionable as could be hauled without the trucks by feed for cows giving milk. We have known potato peelings to be given to so they will drag easily over the cows, and while the quantity of milk was not lessened, its quality was injured, as it lacked the fine aroma given by feeding the cows on grass or corn fodder. The butter made from milk of cows to which potatoes have been fed, is white and salvy, lacking the grain which is the characteristic of good butter .- American Cultivator.

Lime as a Milk Preservative. Some of the Chicago papers complain, and with reason, against the practice of a few farmers in putting lime in their milk cans in order to keep the milk from souring. Salt also is used by some for the same purpose. Both lime and salt are alkaline, and will therefore help to prevent acidity. But in just the proportion they do this they make the milk indigestible. When put in the stomach milk becomes acid as the first step towards digestion. All alkaline substances are, for this reason, injurious when combined with food products.

Goslings and Ducklings. Goslings and ducklings frequently show signs of lameness when nearly they will thrive better if allowed nothquire bulky substances, and will not thrive on a diet of concentrated food.

PRIZES SECURED.

The Great Hegelmans Coming to the Exposition.

Portland, Or., Sept. 12 .- (To the Editor.)-This is a most beautiful and attractive city, and its live people are up and doing in the march of progress.

The Hegelmans are coming to the Oregon Industrial Exposition, and they are an attraction that will be long remembered, for they are the greatest aerial gymnasts in the world. They command princely salaries, and people who have seen them in San Francisco, where they are now playing, say that they alone are worth ten times the price of admission. They limit their performances this season to three places in the United States-San Francisco, Portland and New York, then they return to Europe. The exposition management was bound to have star attractions, and certainly secured a big one in the Hegelmans.

Other attractions are being arranged There is no longer any doubt concern- for, and people who come to the expoing the immediate outlook for the sition this year will have plenty of farmer. Every indication is that prices amusement in connection with instrucare going to be fair and the profits from tion and sight-seeing and promenading

The great Exposition building is being rearranged and made attractive, and every evening during the exposition it will be illuminated with countless electric lights, and the display along that line will be the grandest ever seen in the Northwest.

The farmers and fruit-growers of the Northwest are taking a very laudable interest in the exposition, and the display of their products will be large and creditable, and many special features are being arranged for their benefit and edification, and the farmers' wives and daughters will find in the exposition many exhibits and attractions that will A tripod for lifting a carcass, with be specially interesting to them, not the least of which will be the free cooking lectures by Miss Suzy Tracey, who is an acknowledged scientific ex-

CHINES.

Inventors are plenty who can make a ma-chine that will rise and float in air, but the one improvement which none has succeeded in maxing is an apparatus that will guide the machine is an appearant that will guide the machine through the many treacherous currents of air. In this respect humanity is fortunate in having Hostetter's Stomach Bitters, which acts as a safe guide by curling treacherous stomach, liver and blood diseases, giving a good appetite, a strong constitution and nerves like steel.

It has been proved, as the result of experiments, that the circulation of the blood is affected by music.

THE EXCELLENCE OF SYRUP OF FIGS Lilacs and is due not only to the originality and

simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the California Fig Syrup Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALI-FORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company -
